

# SR 739 (Metro Parkway) at Daniels Parkway Intersection PD&E Re-evaluation Public Hearing Lee County, Florida

Financial Project Number: 431334-2

The Florida Department of Transportation (FDOT) invites you to the public hearing for the SR 739 (Metro Parkway) at Daniels Parkway Intersection Project Development and Environment (PD&E) Re-evaluation in Lee County.

FDOT previously conducted a PD&E Study to evaluate and document the benefits, costs, and impacts of modifying the SR 739 (Metro Parkway) at Daniels Parkway intersection to address capacity needs based on projected travel demand generated by future population and economic growth. The PD&E Study (FPID 195650-1-21-01) was approved by the Office of Environmental Management as a Type 2 Categorical Exclusion (CE) on February 11, 1999. The current design has changed from that prepared during the PD&E Study which has resulted in changes to proposed right-of-way impacts.

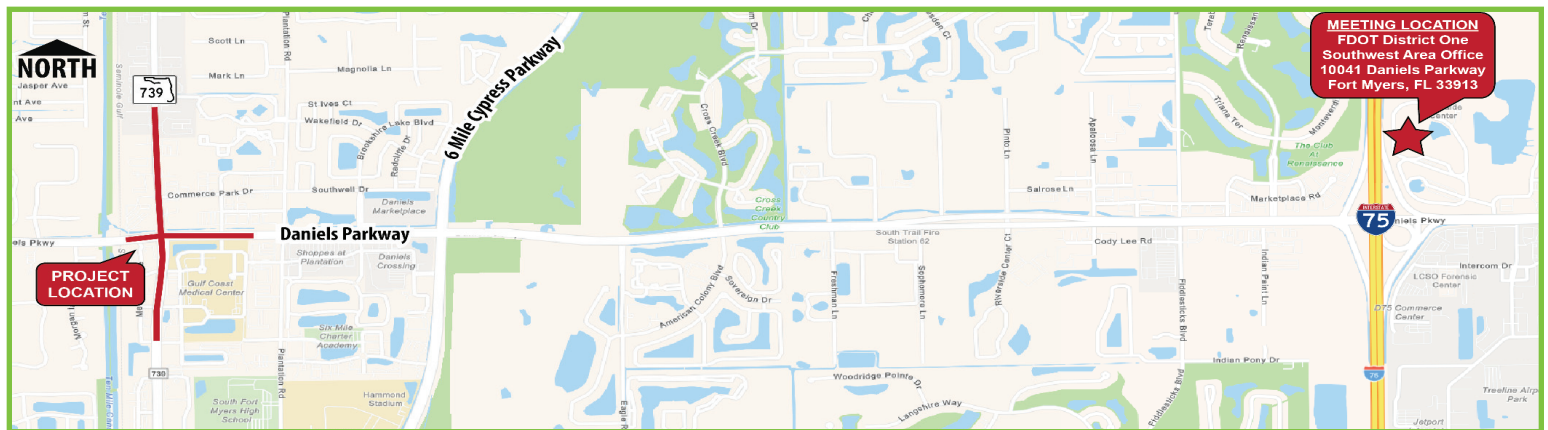

## PUBLIC HEARING

The public hearing on Thursday, July 27, 2023 is being held to present information about the changes in design which includes the re-evaluation of the engineering and environmental analysis completed to date and to provide the opportunity for the public to offer feedback for the official hearing record. You can participate in the public hearing in-person, live online or through the project website. The same materials will be displayed at both the in-person and online events, and will be posted on the project website by July 19, 2023.
