

I-75 Managed Lanes Study Southwest Connect I-75 North Corridor 442518-0

Project Details	
Work Type	PD&E Study
Phase	PD&E
Limits	south of River Road (SR 777) to north of Moccasin Wallow Road
Length	39.3 miles
City	Bradenton Palmetto Sarasota Venice
County	Manatee Sarasota
Road	I-75

Contact Information
PD&E Project Manager Joshua Jester, P.E. 863-519-2251

About

The Department is conducting a **Planning and Feasibility** study from *south of River Road (SR 777) in Sarasota County to north of Moccasin Wallow Road in Manatee County* that makes up and will evaluate the future needs of the I-75 North Corridor in District One. This study will evaluate strategies for the mainline and interchanges, including managed lanes, that will improve accessibility, mobility, and safety. Results of this study will be documented in this corridor's **Master Plan**.

The Master Plan will allow FDOT to focus future efforts and funding by prioritizing the most critical areas. It also analyzes the existing and expected future traffic, or demand, on the interstate system. This long-range approach provides a regional perspective to identify the areas where future demand is predicted and to assist in defining the Project Development and Environment (PD&E) Study limits for the corridor. Improvements identified in this Master Plan may include widening, managed lanes, modifying interchanges, and evaluating requests for new interchanges.
