

# Lakeland Intermodal Center Feasibility Study

## Study Purpose

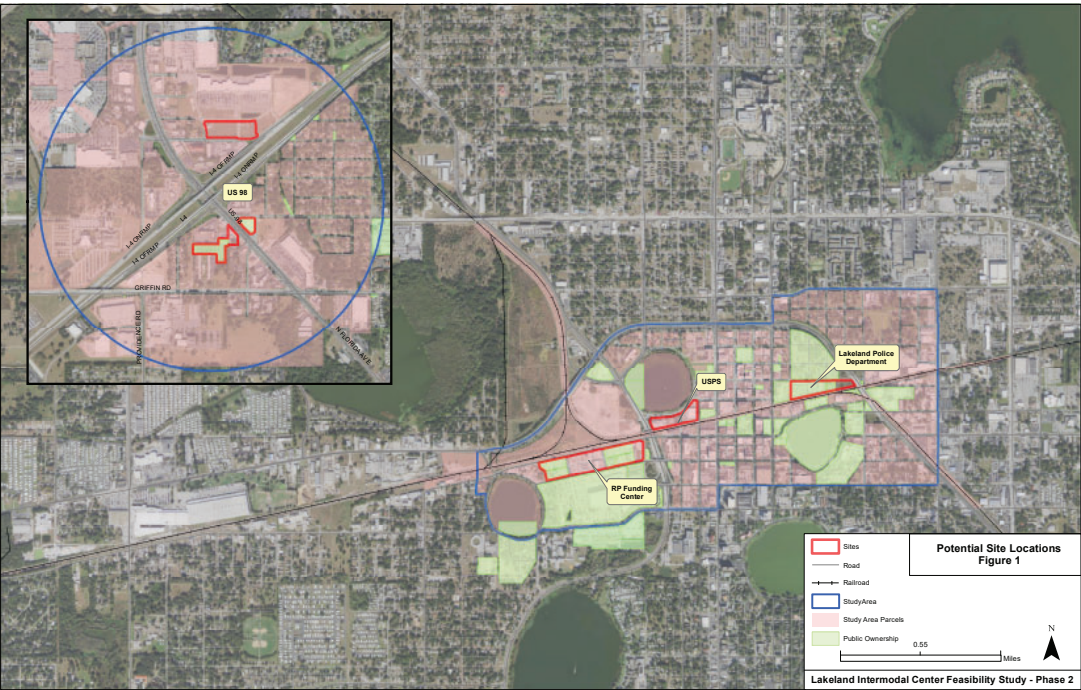

The purpose of this study is to identify and evaluate potential sites for a new transportation hub in Lakeland. This hub would facilitate connectivity between all modes of travel and access including: local bus, intercity bus, intercity rail, bicycle, pedestrian, carpooling, ridesharing, taxis and transportation network companies (Uber, Lyft), vehicle sharing, and bicycle sharing among others. The Lakeland Intermodal Center would serve as a “mobility center” for the region.

There will be an Alternatives Public Meeting held in an “open house” format from 5:30 – 7 p.m. on Thursday, May 23, 2019 at the Peggy Brown Building, 215 S. Lake Avenue, Lakeland, FL 33801. FDOT staff will be available to discuss the project and answer questions. People attending the meeting can review project displays and speak one-on-one with members of the project team.
