

State Road 31

**Improvements from the Lee/Charlotte
County Line to
CR 74 (Bermont Road)
Charlotte County**

Financial Project ID: 431959-1-52-01

June 2015

On June 1st, the Florida Department of Transportation's contractor, Ajax Paving Industries of Florida, LLC., starts a resurfacing project on SR 31 from the Lee/Charlotte County line to CR 74 (Bermont Road) this month. This 12 mile project includes building drainage improvements to manage water running off the roadway and shoulder widening/treatment. The project will also improve signage and pavement markings throughout the project.

Motorists should expect intermittent lane closures from the Lee/Charlotte County Line

to CR 74 through the duration of the project. Variable message signs will be in place to alert drivers that work is underway. Law enforcement will be on site during nighttime lane closures.

Crews will resurface the roadway after completing other work. After the final layer of asphalt has been added, a "cure period" lasts about 30 days. After the asphalt has cured, crews will add permanent striping to the roadway. This work takes approximately one week. Estimated project completion is early 2016. Project cost is \$4.9 million.
