About

The Florida Department of Transportation (FDOT) will begin a construction project in June 2025 on State Road 64 in Hardee County, from Pear Street to just south of Barlow Road. The project spans approximately 6.1 miles and includes milling, resurfacing, pavement reconstruction, drainage enhancements, guardrail replacement, and updated signing and pavement markings. With an estimated cost of \$7 million, the work aims to improve safety and roadway conditions along this corridor. During construction, motorists should expect daytime and nighttime lane closures, temporary traffic pattern changes, and a full closure between Griffin Road and Skitka Road, with a detour in place. The project is expected to be completed by early 2026.
