About

The Florida Department of Transportation will begin a construction project in June 2025 to improve two bridges along State Road (SR) 78 in Glades County, Florida: Bridge No. 050057 over Fisheating Creek and Bridge No. 050058 over the Herbert Hoover Bridge. The \$2.2 million project spans approximately 0.2 miles and includes spall repair, installation of pile jackets, replacement of expansion joints, ditch pavement improvements, and the addition of new signing and pavement markings. Construction is expected to be completed by early 2026. During this time, motorists should anticipate intermittent day and nighttime lane closures, traffic shifts, and the presence of heavy equipment and workers.
