**About**

The Florida Department of Transportation (FDOT) is performing scheduled maintenance to Sarasota Bay Bridge (Siesta Key North Bridge) No. 170061 on State Road (S.R.) 758 in Sarasota County beginning in early 2026. The work includes concrete repairs such as sealing cracks and chips, structural steel repairs and recoating, and maintenance of existing mechanical and electrical systems to maintain the bridge’s service life. The project cost is approximately \$4.3 million. These improvements will enhance the reliability of this critical connection between Siesta Key Island and the mainland. Construction activities may result in periodic lane closures overnight, but access across the bridge will be maintained throughout the project.
