About

The U.S. 441 at SE 28th Street project in Okeechobee County focuses on enhancing intersection safety and accessibility over a 0.04-mile stretch. Improvements include milling and resurfacing the roadway to restore a smooth driving surface, installing new curb and gutter for better drainage, and constructing and widening sidewalks to improve pedestrian access. The project also features upgraded lighting and traffic signal enhancements to increase visibility and safety, as well as updated signage, pavement markings, and traffic loop assemblies to improve traffic flow and detection.
