Florida Heartland Regional Trail - Glades County 455295-1

Project Details	
Work Type	Feasibility Study
Phase	Planning
Limits	from Hendry County Line to Highlands County Line
Length	31 miles
City	LaBelle
County	Glades
Road	SR 29 SR 78 US 27
Construction Cost	$TBD

About

The Feasibility Study for the Glades County segment of the Florida Heartland Regional Trail proposes the construction of an approximately 31-mile-long multi-use trail along SR 29, US 27, SR 78, Ortona Road, and Dalton Lane in Glades County. Currently, there are no designated bicycle lanes or sidewalks present on either side of the roadways with the exception of 5-foot wide sidewalk along Ortona Road. If completed, this project would provide a 12-foot-wide multi-use trail allowing bicyclists and pedestrians to travel safely along various corridors while providing regional connectivity.

The preliminary route alternatives will be evaluated as part of the Feasibility Study. Each alternative will be evaluated to determine potential social, cultural, natural, and physical environmental impacts and benefits, engineering constraints, and safety enhancements.
