

PEDESTRIAN

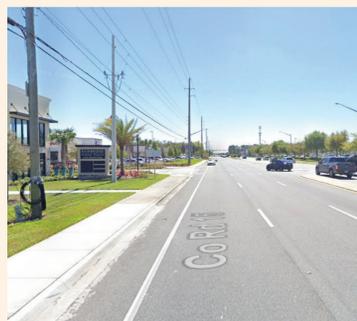

Multi Use Path

Bike and pedestrian path is separated from the road with landscaped buffer

Setback Sidewalk

Setback sidewalk with connections to business with shrubs, turf or tree plantings for pedestrian comfort and safety, speed management, and runoff treatment

Sidewalk Adjacent to Street with No Buffer

Path is adjacent to street curb with little to no landscape separation

CYCLIST

Multi Use Path

Bike and pedestrian path is separated from the road with landscaped buffer

Bike Path with Expanded Striping

Bike lane is buffered from travel lane with striping

Separated Cycle Track

Striped cycle lane separated from the roadway with curb and landscape

TRANSIT

Exposed Bus Stop

Pedestrians exposed to the elements and dropped far from destinations

Sheltered Transit Stop

Built shelter to protect from sun and rain with sidewalk connections to destinations

Micro Transit Mobility on Demand

Small buses operate when hailed on ride-share app

STREETSCAPE

Widened Arterial

Add another travel lane for a total of 6 lanes

Super Street

Restricting left turns from roads connecting to SR78. Install signalization for pedestrian crossing

Street Trees and Median Landscape

Maintain existing 4-lane roadway and add median landscaping for pedestrian shade and speed management
