

COMMENTS AND COORDINATION REPORT ADDENDUM

Florida Department of Transportation District One

SR 29

Limits of Project: Oil Well Road to SR 82

Collier County, Florida

Financial Management Number: 417540-1-22-01

ETDM Number: 3752

Date: June 2024

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated May 26, 2022 and executed by the Federal Highway Administration and FDOT.

## ***INTRODUCTION***

---

### ***1.1 PREFERRED ALTERNATIVE REFINEMENTS***

Subsequent to the Public Hearing held on November 15, 2018 for the State Road (SR) 29 Project Development & Environment (PD&E) Study from Oil Well Road to State Road 82, design refinements were made to the PD&E Study Preferred Alternative from CR 846 to SR 82 to meet the Florida Department of Transportation (FDOT) Design Manual (FDM) requirements and include the identification of proposed stormwater management facilities (SMF) necessary to accommodate stormwater runoff. The design refinements were in addition to previous refinements made to the Preferred Alternative (as documented in the May 2020 Comments and Coordination Report prepared under separate cover) and encompassed:

CR 846 to SR 29 Bypass Junction: The proposed new signalized intersection at CR 846 and the proposed intersection at Gopher Ridge Road was revised to incorporate roundabouts at these locations. The proposed right-of-way requirement previously varied from 108 feet to 200 feet and was increased to vary from 144 feet to 250 feet. The two 11-foot travel lanes in each direction were increased to 12-foot travel lanes in each direction from CR 846 to Gopher Ridge Road. The 6-foot sidewalk and 7-foot buffered bicycle lanes in each direction were replaced with 12-foot shared use paths from CR 846 to Gopher Ridge Road. Twelve-foot shared use paths were added to both sides of the corridor from Gopher Ridge Road to the SR 29 Bypass Junction. As a result of criteria updates, the proposed design speeds, ranging from 45-50 mph, were updated to range from 45-55 mph. Three SMFs were identified. The three proposed SMFs will require approximately 22 acres of offsite right-of-way. Stormwater runoff will be conveyed to the proposed SMFs by an open drainage system within the existing mainline right-of-way.

North of Westclox Street/New Market Road W to SR 82: The currently signalized intersection at New Market Road W and SR 29 was revised to incorporate a roundabout at this location. A 10-foot shared use path was added on the east side of the roadway from north of New Market Road W to SR 82, thus providing a 10-foot shared use path on both sides of the corridor. The mainline roadway improvements required for the proposed project will not require any additional right-of-way. As a result of criteria updates, the proposed design speeds, ranging from 50-60 mph, were unified at 55 mph. Six SMFs were identified. The six proposed SMFs will require approximately 20.3 acres of offsite right-of-way. Stormwater runoff will be conveyed to the proposed SMFs by an open drainage system within the existing mainline right-of-way.

**Figure 1-1** shows the location of the refined Preferred Alternative. The concept plans developed for the refined Preferred Alternative are included in **Appendix A**.

**FIGURE 1-1  
PREFERRED ALTERNATIVE**

## ***1.2 ADDENDUM PURPOSE***

This Comments and Coordination Report Addendum supplements the Comments and Coordination Report prepared in May 2020 under separate cover. The Comments and Coordination Report Addendum documents additional engagement activities and coordination that have taken place since May 2020 with citizens, business owners, property owners, governmental agencies (including elected and appointed officials), non-governmental organizations, private groups (residential/business), and other interested parties as part of the PD&E Study.

**(This space intentionally left blank)**

# ***SECTION 2.0***

## ***PROJECT UPDATE:***

### ***FDOT OFFICE HOUR EVENTS***

---

To inform the community and answer questions about the PD&E Study Preferred Alternative design refinements and associated proposed SMFs, the FDOT hosted two Project Update: FDOT Office Hour Events (an in-person event and a live online event). The following sections describe the events in detail.

#### ***2.1 FDOT IN-PERSON OFFICE HOURS EVENT***

The in-person office hours event took place from 12:00 p.m. to 4:00 p.m. at the Collier County Public Library-Immokalee Branch Library on April 18, 2024. The office hours took place in the format of an open house. FDOT and project team representatives were available to answer questions. A trilingual (English, Spanish, and Haitian Creole) staff member was present given the notable number of Spanish speaking and Haitian Creole speaking individuals present within the project study area.

A board displaying the refined Preferred Alternative along with concept plan sheets of the refined Preferred Alternative were available for viewing. An audiovisual presentation (approximately seven minutes in length) was pre-loaded on iPads and additionally available for viewing. The presentation included subtitles in English. The Spanish version of the audiovisual presentation was available in hardcopy; each hardcopy contained the presentation slides with the corresponding script in Spanish. The audiovisual presentation provided an overview of the project, briefly explained the design refinements, outlined previous public engagement efforts, and discussed next steps in the FDOT project delivery process.

A total of 32 people attended the event. All attendees were given the opportunity to provide written comments at the in-person office hours event or to submit comments through mail, email, or the project website by May 3, 2024. A total of ten comment forms were received from attendees at the event. Substantive comments and questions received at the event are as follows:

- Concerns for traffic exiting roundabout at SR 82/SR 29 going northbound. Should be a merge lane and/or four lanes for at least a few miles.
- Concerns for traffic/water safety near homes on Madison Avenue.
- My biggest worry is the road proposed is too close to Madison Avenue and devalues all of the homes facing the proposed loop road.
- I fear there will be pressure to add more local access roads to assure businesses of possible customers.
- Will an emergency traffic signal be provided along the bypass for the fire station?
- Would appreciate not having landscaping in middle of roundabout. We can't see oncoming traffic.

- Would like to see full median cut in front of my driveway because I pull long trailers in and out of my driveway. It scares me to think of making U-turns on SR 29 in morning and evenings.
- Would like a crossover on SR 29 at my gate so I can turn north onto SR 29 after leaving my property.
- Must drive two miles south to U-turn in order to head northbound from University of Florida Institute of Food and Agricultural Sciences Southwest Florida Research and Education Center.
- At the intersection of New Market Road and Airport Access Road, make the corner radius wide enough for 18-wheeler trucks to make the turn without clipping the curb. Improve the entire length of Airport Access Road (new curb, asphalt, etc.).
- At the proposed intersection of new SR 29 and old SR 29, the plans show a right turn only lane. The volume of traffic going north on SR 29 coming from Naples and Immokalee (Immokalee Road) will require a traffic signal to handle left turns. Also, no pedestrian crossing is shown anywhere at this intersection.
- The state is proposing to take five acres of our developable land fronting SR 29. This taking will eliminate all of our available access to our developable land thus making the remainder of the property worthless now and in the future. With a five-acre pond on our property, water from the new highway will overflow the new pond through the outflow structure and add to our current high water and cause severe flooding of our property. The pond must be fenced on all four sides to prevent trespassing and protect our cattle. Any damage to our east property line fence must be repaired to prevent cattle from getting out onto SR 29 and causing serious, possible fatal, injuries to drivers. Our steel pipe front entry gate will need to be moved 50 feet or more into our property to allow enough room (as it is today) for us to pull off of the highway with trailers without being on the highway which could cause serious accidents on SR 29.

Copies of the display board, concept plan sheet keys (see Appendix A for concept plan sheets), sign-in sheets, and comments are included in **Appendix B**. Both the English and Spanish versions of the audiovisual presentation with the accompanying script are provided in **Appendix C**.

## ***2.2 FDOT LIVE ONLINE OFFICE HOUR EVENT***

The live online office hour event occurred from 6:00 p.m. to 7:00 p.m. via the GoTo Webinar platform on April 23, 2024. The event opened with brief introductions by FDOT and project team representatives. The audiovisual presentation, as described above, began shortly after 6:00 p.m. At the conclusion of the audiovisual presentation, members of the public had an opportunity to ask questions and voice comments.

A total of 22 people participated in the live online office hour event. A total of two comments and questions were received from attendees at the event. The comments and questions received at the event are as follows:

- If the northern portion is entering the design phase - when is that anticipated to be completed?

- If there are questions related to property access (current or future) or future development for the refinements in the blue segment, who is the right point of contact?

FDOT and project team representatives verbally addressed each comment/answered each question. Additional information was also provided in the Question area of the GoTo Webinar platform (such as name and phone number of the Project Manager, potential design phase completion year for the northern portion of the project, and links to the websites of the project design segments). This same information, including a link to the project PD&E Study website, as well as Portable Document Format (PDFs) of the newsletter prepared to advertise the office hour events (discussed further in Section 2.3) and the English and Spanish versions of the audiovisual presentation with the accompanying script (as provided in Appendix C) were also uploaded to the Chat area of the GoTo Webinar for viewing/downloading.

Once all participants wishing to comment or ask a question were addressed by FDOT staff, the FDOT representatives took time to walk through the design refinements of the Preferred Alternative via a Keyhole Markup Language (KMZ) file of the Preferred Alternative within the Google Earth application. Upon completion of the walk through and not receiving further comments/questions, the audiovisual presentation was played a second time. At the conclusion of the presentation, participants had another opportunity to ask questions/make comments. At 7:00 p.m. the office hour ended with no additional comments or questions received.

All attendees were given the opportunity to submit comments during the live online office hour event or through mail, email, or the project website by May 3, 2024. Copies of the registered GoTo Webinar attendees and comments received are included in **Appendix D**.

### ***2.3 PUBLIC NOTIFICATION***

FDOT utilized numerous methods in an effort to invite the public to the two Project Update: FDOT Office Hour Events (in-person held on April 18,2024 and live online held on April 23,2024).

A project newsletter, dated March 2024, was developed in English and Spanish announcing the workshop. This newsletter was the seventh one developed as part of the PD&E Study. The newsletter contained a link to the audiovisual presentation (via the project website) and was mailed on April 5, 2024 to property owners in the study area and interested parties. The same area notifying the community and interested parties about the project Public Hearing was used as a base to mail the March 2024 newsletter. The property owner names and addresses within the area and interested party contacts were updated. An email invitation, containing the link to the audiovisual presentation and the newsletter as an attachment, was also sent to elected and appointed officials, other governmental agencies, non-governmental organizations, and additional interested parties on April 1, 2024. A display advertisement was published in the Immokalee Bulletin on April 8, 2024. In addition, an advertisement was posted on the project website and the FDOT's Public Notices page on April 8, 2024 as well as on the Florida Administrative Register on April 10, 2024. Further, copies of a flyer announcing the workshop in English and Spanish were posted at eight venues around Immokalee frequented by the community (such as restaurants, retail establishments, community centers, etc.) on April 17, 2024.

The Public Notices page of the project website was updated to include information provided in the newsletter. Other material provided on this website page included:

- Audiovisual presentation in English with subtitles
- Spanish version of the audiovisual presentation with the accompanying script (provided in PDF format)
- Concept plan sheets of the refined Preferred Alternative

The dynamic database developed and maintained throughout the study of citizens, business owners, property owners, governmental agencies (including elected and appointed officials), non-governmental organizations, private groups (residential/business), and other parties in the project study area and/or interested in the project was updated. The materials prepared to advertise the events, along with the mailing lists, are included in **Appendix E**.

## ***2.4 ADDITIONAL COMMENTS***

A total of nine comments were received outside of the office hours; three were provided through the project website and six were provided via email. Two additional comments were submitted via email after May 3, 2024. Substantive comments and questions received are as follows:

- We have a commercial property located at 330 New Market Road and would like to know how the proposed path will affect the parcel. I currently have a tenant in place and need to know if eminent domain is possible for some or all the property or how it would be affected.
- I live on SR 29 north of Immokalee. One of the ponds is proposed to be on my property. I am looking for more information about the pond location, depth, outflow structure, etc.
- I direct the University of Florida (UF) Institute of Food and Agricultural Sciences (IFAS) Southwest Florida Research and Education Center located at 2685 SR 29 N., about one mile north of New Market Road. We employ over 110 persons and, like the residents of State Street and Experimental Road, our faculty, staff, students, and visitors (some of which are new or inexperienced drivers) daily experience safety risks entering the UF facility when heading northbound in the morning or when exiting our facility northbound in the afternoon. Unfortunately, the plans that I have seen do not seem to take these populations and their safety into consideration. Present plans indicate a right turn only exit from our main entrance, which means these persons would have to drive an unknown distance to U-turn if their intended direction is north. If a smart light were installed at Experimental Road, it might allow for safe left or right turns of residents and employees of our facility and neighboring community. Need to provide safe entrance and egress.
- A large majority of UF IFAS Southwest Florida Research and Education Center employees live north of the center. This facility also regularly hosts outside groups that might need to travel northbound upon exiting. Forcing these persons to travel south (perhaps a distance of two miles) to U-turn is unreasonable. I urge you to consider, out of respect for the safety of these populations and our neighbors, placing a smart stoplight at Experimental Road or at UF IFAS. Also, a roundabout at North 15th Street and SR 29 would be a better choice than forcing northbound traffic to turn right (east). Otherwise, a simple trip to the grocery store will unreasonably require miles more travel to return to Experimental Road/State Street.

- Do you have an update on the completion of right-of-way maps?
- Is there a set of design plans or a selected Preferred Alternative for this project?
- Who is the project manager?
- Are there any upcoming public meetings?
- What is the website for this project?
- What is the status of this project?
- Is there a PD&E available?
- Is there funding available for right-of-way and/or construction? How much for right-of-way?
- When are appraisals scheduled to begin?
- When are right-of-way offers/acquisitions scheduled to occur?
- Has “advanced acquisition” taken place for this project? If so, what percentage of owners have already been acquired?

The questions and comments cited generally pertain to access, safety, proximity of the new roadway to existing and planned development, concept plans, drainage, schedule, and correct project contacts. **Appendix F** includes the comments received and responses provided.

**(This space intentionally left blank)**

# ***SECTION 3.0***

## ***ADDITIONAL COORDINATION***

---

FDOT continued to carry out engagement objectives of the project Public Involvement Plan, prepared under separate cover, subsequent to the Public Hearing and refinements to the PD&E Study Preferred Alternative. The purpose of this section is to document those additional outreach and coordination efforts.

### ***3.1 LOCAL AGENCY COORDINATION***

The FDOT presented at the regularly scheduled meetings of the following local agencies to ensure each was informed about the Preferred Alternative design refinements and associated proposed SMFs:

- Immokalee Community Redevelopment Agency (CRA)/Municipal Service Taxing Unit – April 17, 2024
- Immokalee Rotary Club – April 17, 2024
- Collier Metropolitan Planning Organization (MPO) Technical Advisory Committee – April 22, 2024
- Collier MPO Citizens Advisory Committee – April 22, 2024
- Collier MPO Board – May 10, 2024

The audiovisual presentation (as described under Section 2.1) was played at three of the five noted meetings. A verbal update of the Preferred Alternative design refinements and associated proposed SMFs was provided at the Immokalee Rotary Club meeting by an FDOT representative. The audiovisual presentation was transformed into a PowerPoint presentation for the Collier MPO Board Meeting. At the conclusion of each update/presentation, an FDOT representative responded to questions and comments from the respective group. Feedback received included:

- Is it okay if Collier County/Immokalee CRA posts a notification about the Project Update: FDOT Office Hour Events on their own social media platforms?
- Did all of Immokalee receive a notification about the Project Update: FDOT Office Hour Events? If not, can flyers be posted in the community about the upcoming events?
- Please make the roundabouts and new roadway and any roadway modifications convenient for trucks and emergency vehicles, especially near New Market Road.
- Noise concerns regarding proximity of new roadway to residences along Madison Avenue – how is FDOT addressing this potential issue?
- Water quality/flooding concerns regarding new roadway – how is FDOT addressing these potential issues?
- Are roundabouts being proposed with the new roadway?
- Were stormwater ponds changed based on climate factors?
- The bend in SR 29 is the highest spot for panther mortalities.

- Could the pond site currently located on the Sunoco property be moved to Immokalee Airport property?
- Appreciate FDOT providing the wildlife crossings along SR 29 and SR 82.

With the Preferred Alternative design refinements and associated proposed SMFs, additional coordination with Collier County staff was initiated to verify the Immokalee Airport Park boundary as the Preferred Alternative is located in proximity to the park. Upon confirmation of the park boundary by Collier County (see Appendix Q of the June 2024 *Environmental Assessment (EA)* prepared under separate cover), it was determined that the Preferred Alternative design refinements and associated proposed SMFs would still result in “No Use” of the park. Improved direct replacement access will be provided from SR 29 to Immokalee Airport Park through a new driveway connection along with a shared-use path.

### ***3.2 ONE-ON-ONE MEETINGS***

Throughout the PD&E Study, FDOT representatives conducted individual meetings with concerned property owners as well as elected and appointed officials to answer project-specific questions. The following one-on-one meetings have taken place since the 2018 Public Hearing and as a result of the Preferred Alternative design refinements and associated proposed SMFs:

- Barron Collier Companies (property owner) – July 24, 2023
- Commissioner William L. McDaniel, Jr., District 5 – April 11, 2024
- Everett Loukonen (property owner) – May 3, 2024
- Collier Enterprises – May 10, 2024

### ***3.3 ENVIRONMENTAL AGENCY COORDINATION***

Subsequent to the Public Hearing and refinements to the PD&E Study Preferred Alternative, two additional *Natural Resources Evaluation (NRE) Addendums* were prepared under separate cover.

The second *NRE Addendum* (August 2019) was prepared to address potential project impacts to the Florida scrub-jay and gopher tortoise resulting from Preferred Alternative alignment refinements within the same corridor through the Immokalee Regional Airport Upland Management Area (UMA). The addendum updated acreages of impact to suitable habitat for the Florida scrub-jay and gopher tortoise. The findings and conclusions of the second *NRE Addendum* remained the same as the August 2018 *NRE Addendum* (as discussed under Section 3.3.8 of the June 2024 *EA*) in that the Preferred Alternative “may affect, likely to adversely affect” (*MALAA*) the Florida scrub-jay and will result in “no adverse effect anticipated” on the gopher tortoise. This second addendum was submitted to the United States Fish and Wildlife Service (FWS) and the Florida Fish and Wildlife Conservation Commission (FWC) for review on August 9, 2019. The FWC concurred with the noted findings of the second *NRE Addendum* in a letter dated September 4, 2019 (see Appendix N of the June 2024 *EA*).

A third *NRE Addendum* (September 2021) was prepared to initiate formal consultation with the FWS prior to the design and permitting phase of the project. This addendum included a summary of all species with prior and updated effect determinations, as well as the addition of the Eastern

black rail. The third addendum also included the Biological Assessment which addressed the prior *MALAA* determinations for the federally-listed Florida panther and Florida scrub-jay. The FDOT revised the effect determinations to *MALAA* for the following federally-listed species: Eastern indigo snake and Florida bonneted bat. The revised determinations were made based upon updated literature and database searches, field reviews, and species-specific surveys. On November 17, 2021, pursuant with Section 7 of the Endangered Species Act, as amended, the FDOT Office of Environmental Management (OEM), as lead agency on the project, requested initiation of formal consultation with the FWS for the four above noted federally-listed species: Florida panther, Florida scrub-jay, Eastern indigo snake, and Florida bonneted bat. In addition, FDOT requested concurrence with the prior and updated “no effect” and “may affect, not likely to adversely affect” (*MANLAA*) determinations as documented in the original 2018 *NRE* (prepared under separate cover).

On May 24, 2022 and May 25, 2022, the FWS responded to the request for formal consultation by submitting Requests for Additional Information (RAI) to the FDOT OEM. Through the RAI, the FWS recommended that the determination for the Eastern indigo snake be changed from *MALAA* to “no effect” as this species is not reasonably certain to occur within the project corridor. In addition, the FWS recommended that the determination for Audubon’s crested caracara be modified from *MANLAA* to *MALAA* given that there is a documented active nest located approximately 279 feet west of the project footprint and the project will result in habitat loss within the Primary Zone of this nest. The FDOT OEM provided responses to the RAI on December 19, 2023 (see Appendix S of the June 2024 *EA*). Through follow-up coordination with the FWS, the FDOT committed to re-initiating Section 7 consultation for the Audubon’s crested caracara. The commitment is in addition to the prior commitment to re-initiate Section 7 consultation with the FWS for the Florida panther, Florida scrub-jay, and Florida bonneted bat during the project’s design and permitting phase. The FWS provided concurrence on March 8, 2024 (see Appendix T of the June 2024 *EA*). The evaluation, potential impacts, and mitigation measures pertaining to each of the four noted species are summarized in the June 2024 *EA*.

As a cooperating agency for the project, the Federal Aviation Administration (FAA) was asked by FDOT to review the *EA/Finding of No Significant Impact (FONSI)*, prepared under separate cover, that was updated to reflect the refinements to the PD&E Study Preferred Alternative and inclusion of proposed SMFs as well as the additional engagement activities and coordination (as discussed above) that have occurred since the 2018 Public Hearing. FAA responded to the review on April 25, 2024 requesting the revision to one of the listed commitments in the *EA*. The comment received from FAA is as follows:

- Page 5-2, 5th Bullet (Hazardous Wildlife Attractants): Wildlife attractants on or near airports is a safety issue. FAA recommends removing "to extent practicable" and replace with "hazardous wildlife control measures recommended in".

**(This space intentionally left blank)**

## ***SECTION 4.0***

# ***COMMITMENTS***

---

The commitments cited under Section 5.0 of the *EA* were updated to reflect the additional engagement activities and coordination that have been conducted by FDOT with citizens, business owners, property owners, governmental agencies (including elected and appointed officials), non-governmental organizations, private groups (residential/business), and other interested parties subsequent to the Public Hearing and refinements to the PD&E Study Preferred Alternative. As stated here and under Section 5.0 of the *EA*, the FDOT is committed to the following measures to minimize impacts to the human and natural environment:

- The most recent version of the FWS' *Standard Protection Measures for the Eastern Indigo Snake* will be adhered to during the construction of the proposed project.
- The FDOT will follow the FDOT *Supplemental Standard Specification 7-1.4.1 Additional Requirements for the Florida Black Bear* to minimize human-bear interactions associated with construction sites during project construction.
- To comply with Section 7 of the ESA, as amended, the FDOT will re-initiate consultation during design and permitting for the following species: Florida scrub-jay, Florida panther, Florida bonneted bat, and Audubon's crested caracara. The FDOT will provide additional information, as needed, that will allow the FWS to complete their analysis of the project's effects on documented species and complete Section 7 ESA consultation for the project.
- The FDOT will implement best management practices consistent with the FDOT Conservation Plan for the Florida Panther.
- FDOT will construct the wildlife crossing between Oil Well Road and CR 846. This crossing was listed at the 2024 annual prioritization meeting (held January 17, 2024) of the FDOT Conservation Plan for the Florida Panther to determine priority for available funding. As part of the preferred recommendation, directional fencing associated with the proposed crossing would be consistent with the Florida Panther Conservation Plan and, as appropriate, the Wildlife Crossing Memorandum (June 2022).
- To mitigate at a ratio of two acres per one acre of impact for the loss of 52.14 total acres of occupied Florida scrub-jay territory on the Collier property (private property) and a ratio of four acres per one acre of impact for the loss of 15.75 acres of the Immokalee Regional Airport Upland Management Area (UMA). FDOT will provide a total of 167.28 acres of occupied scrub-jay habitat (104.28 acres associated with the loss of two scrub-jay territories within the Collier property + an additional 63 acres associated with potential habitat loss within the UMA = 167.28 acres) as a conservation measure to compensate for the loss of scrub-jay habitat resulting from the project.
- The FDOT will contribute \$10,000 to the FWS Florida Bonneted Bat Fund.
- Audubon's crested caracara conservation measures will be implemented. Land clearing activities for the project will be conducted outside of the caracara nesting season (December 1 through April 30) to the greatest extent practicable. Since caracara nesting season is from December 1 through April 30, clearing should be completed between May 1 and November 30. Should it be necessary to conduct land clearing activities within the nesting season, the

FDOT or their designated agent will survey suitable caracara nesting habitat to determine if an active nest occurs within or adjacent to the project area. If an active nesting is observed within 300 meters (985 feet) of the project area, land clearing within 300 meters (985 feet) of the nest will not occur until monitoring has determined that the nest has either been abandoned, or chicks within the nest have fledged and left the nest site.

- The FDOT will complete a cumulative effects analysis for impacts to threatened and endangered species.
- Based on coordination with the FWC, the FDOT will provide compensatory land acquisition for the determined required use of the FWC-held Immokalee Regional Airport UMA.
- A land use review will be conducted during the design phase to identify noise sensitive sites that may have received a building permit subsequent to the noise study but prior to the Date of Public Knowledge (i.e., the date that the environmental document has been approved by the FDOT Office of Environmental Management). If the review identifies noise sensitive sites that have been permitted prior to the Date of Public Knowledge, then those sensitive sites will be evaluated for traffic noise and abatement considerations.
- Given the proposed use of Immokalee Regional Airport property and proximity to a runway threshold, the FDOT will continue to coordinate with Collier County and the FAA throughout future project phases. This may include, but not necessarily be limited to, evaluating Runway 36 Protection Zone (RPZ) compatibility for the CR 846 improvements; airfield security fence relocation; evaluation of potential airspace obstructions in proximity to Runway 36 (e.g., new or relocated light and utility poles); and the release of federally-obligated land for use as public road right-of-way.
- The FDOT will coordinate with Collier County and the FAA during future project phases in order to incorporate hazardous wildlife control measures recommended in *FAA Advisory Circular 150/5200-33B, Hazardous Wildlife Attractants On or Near Airports*.

**(This space intentionally left blank)**

# ***SECTION 5.0 LOCATION DESIGN AND CONCEPT ACCEPTANCE***

---

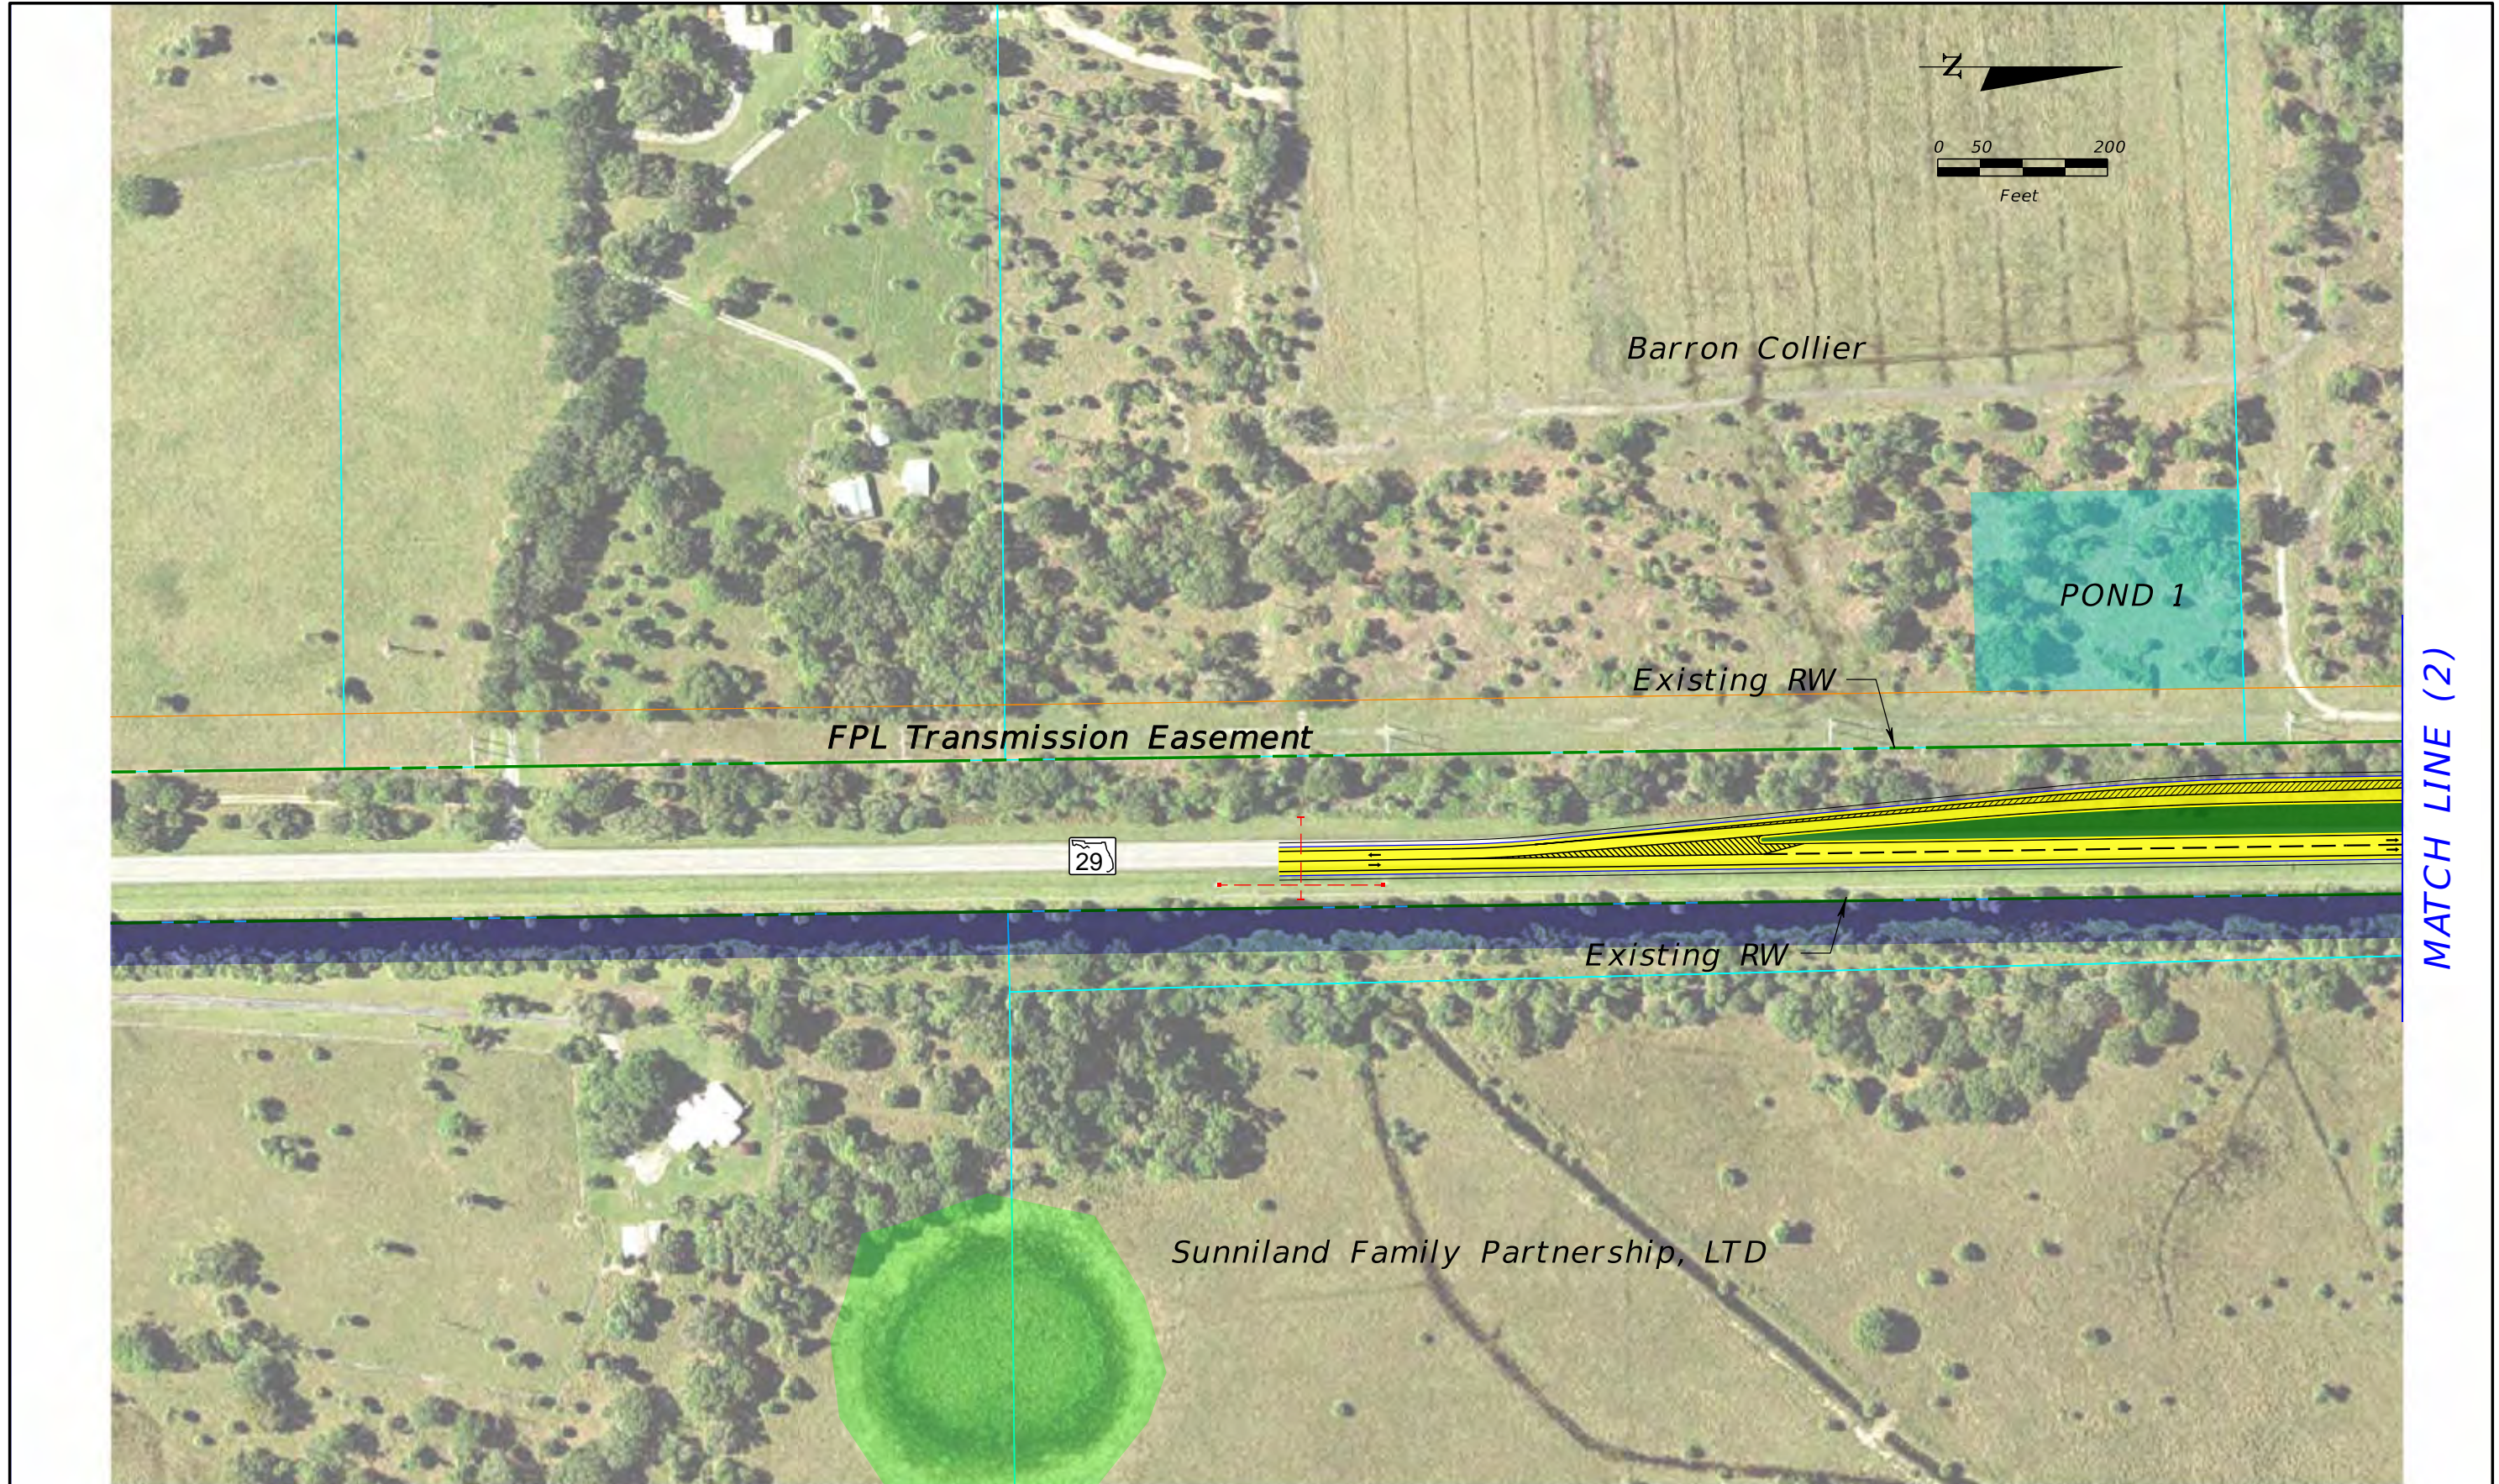

A final project notification will be sent to property owners, business owners, and residences within 300 feet of the project as well as public officials; federal, state, and local agencies; stakeholders; and interested citizens and parties to announce the final approval (i.e., Location and Design Concept Acceptance) of this environmental document. This notification will also be published in the Naples Daily News. In addition, this notification and the final project documents will be made available on the project website.

Enclosed is our list of concerns concerning our property  
at 2075 Hwy 29 N. Please note the enclosed paper.  
I am also drawing a map to represent the current  
water flow to our property. I will mail it to you before May 3<sup>rd</sup>  
.. ABEA HORNE is going to set up a meeting with us w/ Sean Pugh  
& others to answer any questions.

\* Mrs. HORNE looked up the new information on our property  
showing a roadway from our drive to the new road. It no  
longer shows a pond on our property, we need to verify if this is  
correct

Please return this form to a project team member today  
or you may mail or email it, to the address below by May 3, 2024.

## **FDOT State Rd 29 Project**

**Property Owner: Everett Loukonen**

**Property Address: 2075 Hwy 29 N Immokalee Fl 34143**

**Time at this address: 35 years      Our home is located on this property.**

The State is proposing to take 5 acres of our developable land fronting Hwy 29. This taking will eliminate all of our available access to our developable land thus **making the remainder of the property worthless now and in the future.**

This FDOT study states they are taking land to add 9 (!) pond sites that FDOT says "are necessary for stormwater runoff." **The FDOT study is incorrect concerning our property.**

1. Because water backflows onto our property from the West during the HEAVY rainy season, we receive some standing water for a short time until the water goes down in Fish Creek as it makes it's way to Lake Trafford.

With a 5 acre pond on our property , water from the new highway will overflow the new pond through the outflow structure and add to our current highwater and **cause severe flooding of our property.**

Currently **NO WATER** from Highway 29 flows west to the pond in the Northwest corner of our property. It only enters our property from the highway into the existing wetlands pond on the Southeast corner of our property and flows into the existing Barrow Pit which has **NEVER OVER-FLOWED and never drained South or West in the 35 years we have lived here including 2 major hurricanes.**

Excess water from the west side of the highway will go east under the Hwy 29 culvert and winds up in the Right of Way on the East side of the Highway..

2. Our steel pipe front entry gate (posts imbedded in concrete) onto our property is on our property line. We currently have 50 ft or more of room to pull off the highway with trailers, etc., without being in the highway, which would cause serious accidents on Hwy 29. Therefore, **our front pipe gate will have to be moved 50 feet or more into our property with corresponding sides as it is presently built.**

3. **The FDOT pond must be fenced because cattle use our property. The fence must be on all four sides and be an 8 ft chain link fence to prevent trespassing and alligators.**

4. **Any damage to our East Property Line Fence must be repaired immediately to a 5 wire barbed-wire fence, to prevent cattle from getting out on Hwy29 and causing serious, possible fatal injuries to drivers.**

map did not follow usual maps w/ north on top - now when I orient myself all print is upside down

My biggest worry is the road proposed is too close to Madison and devalues all the homes facing the proposed loop road

I fear there will be pressure to add more local access roads to assure businesses of possible customers

① Would appreciate not having landscaping in middle of go rounds. We can't see oncoming traffic.

② Would like to see full median cut in front of my driveway because I come in and out of driveway pulling 7 trucks with long trailers! It scares me to think of making a turn on 29 in morning and evening.

~~At~~ At the ~~proposed~~ proposed intersection of New SR 29 and old SR 29, the plans show a right turn only. The volume of traffic going north on SR 29 coming ~~from~~ from Naples + Immokalee (Immokalee Rd) will require a traffic signal to handle left turns.

Also, no pedestrian crossing is shown anywhere at this intersection.

***APPENDIX C***  
***AUDIOVISUAL PRESENTATION***

---

The Florida Department of Transportation, or F D O T, welcomes you to the project update for the State Road 29 Project Development and Environment, or P D and E, study from Oil Well Road to State Road 82. We appreciate your interest in this important F D O T project. This project update is to inform you about recent refinements that have been made to the project and provide you the opportunity to ask questions and express your views.

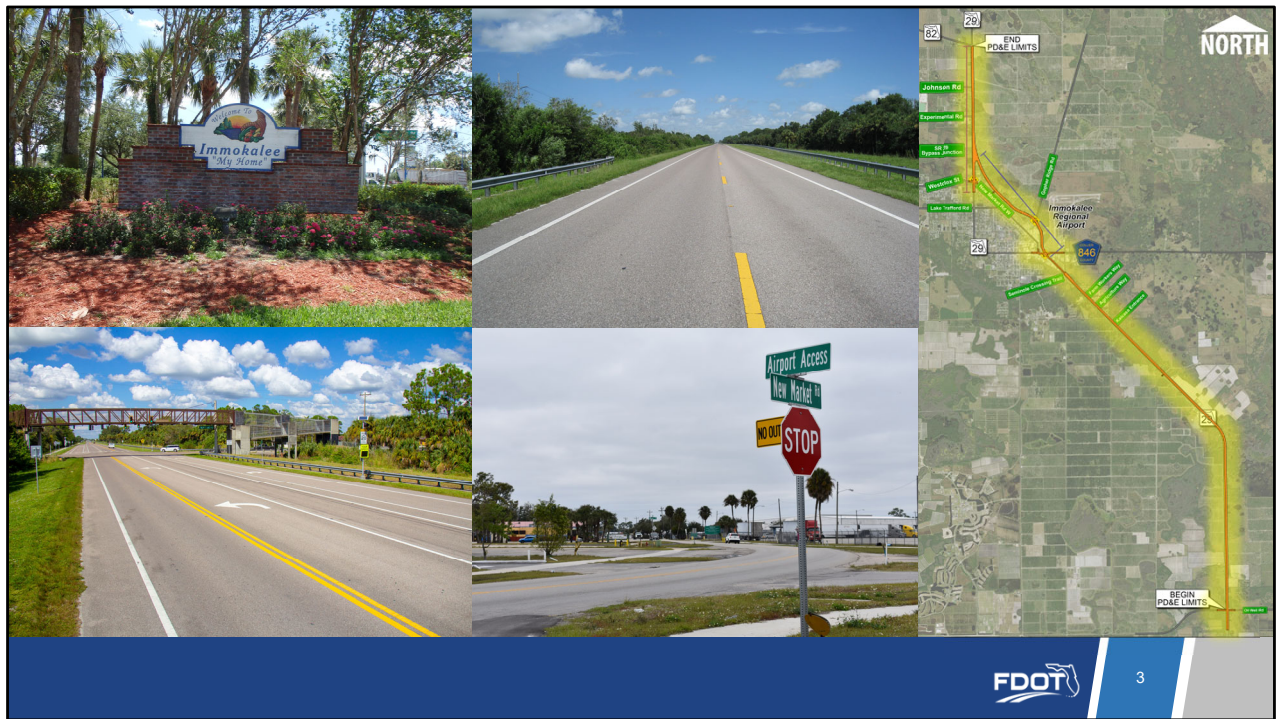

## Agenda

- Project Overview
- Design Refinements
- Previous Engagement
- Next Steps

In this presentation, we will provide an overview of the project, explain the design refinements, outline previous public engagement and discuss next steps in the FDOT project delivery process.

F D O T began the P D and E study in June 2007 to increase capacity and improve traffic flow for approximately 17 miles on State Road 29 between Oil Well Road and State Road 82.

Throughout the P D and E study, F D O T has evaluated many different alternatives to widen the existing two lanes to four lanes, as well as a new roadway that would bypass downtown Immokalee. The No Build Alternative, which assumes that no action would take place to improve State Road 29 within the project limits except for routine maintenance, remains a viable alternative.

# Project Location Map

All design refinements take place in the northern section of the project only (from County Road 846 or Immokalee Road to State Road 82).

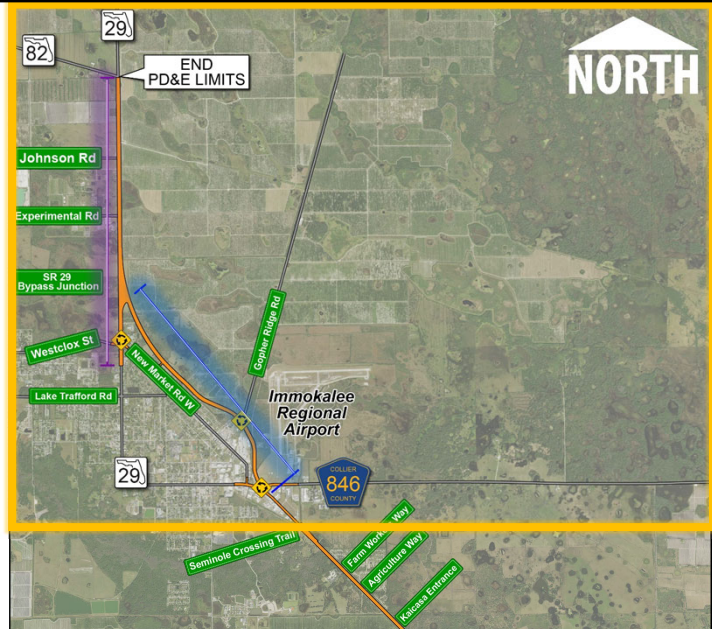

## Design Refinements

Refinements have only been made to the

Purple Segment

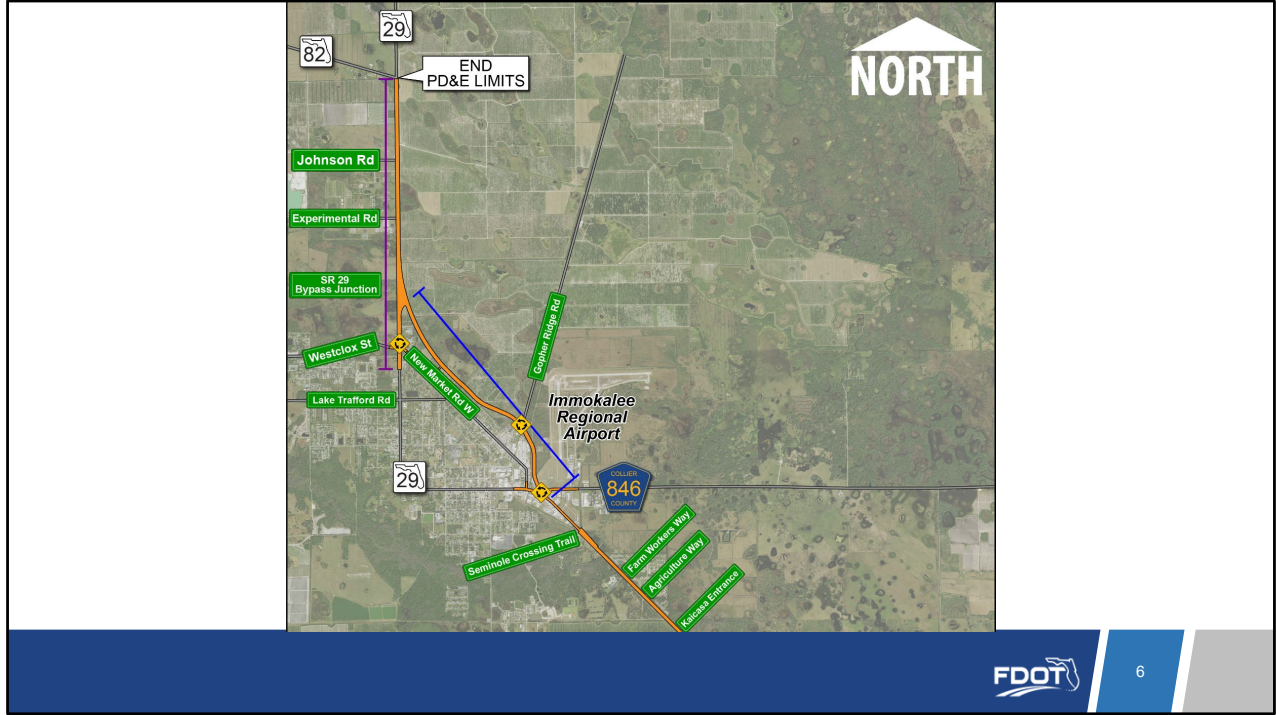

and the

Blue Segment.

No refinements were made to the project south of County Road 846 (Immokalee Road).

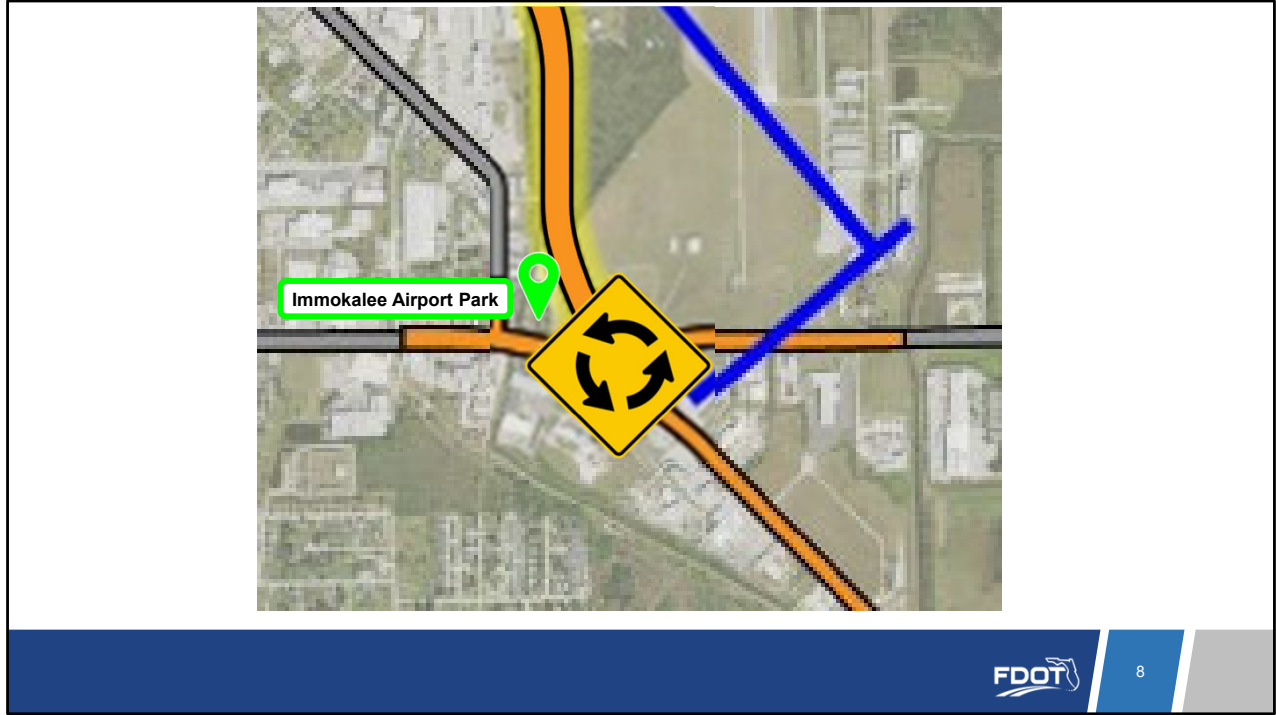

Many of the project alternatives that were considered were eliminated based on in-depth environmental and engineering analyses and community input. Following the Public Hearing that was held on November 15, 2018, Central Alternative #2 was selected as the Preferred Alternative.

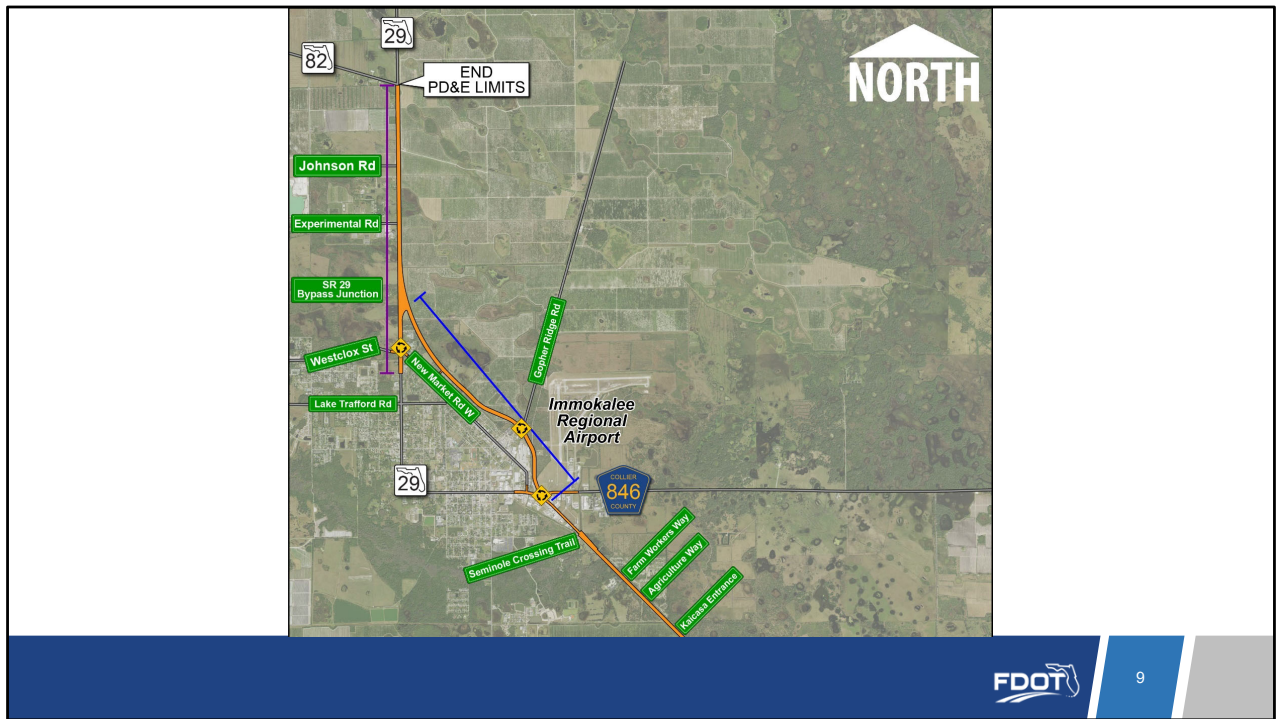

However, based on comments received at the Hearing and further coordination with Collier County, a portion of Central Alternative #2 was shifted slightly....

...to the east to avoid impacts to Immokalee Airport Park. Additional coordination with government agencies also took place as a result of this refinement.

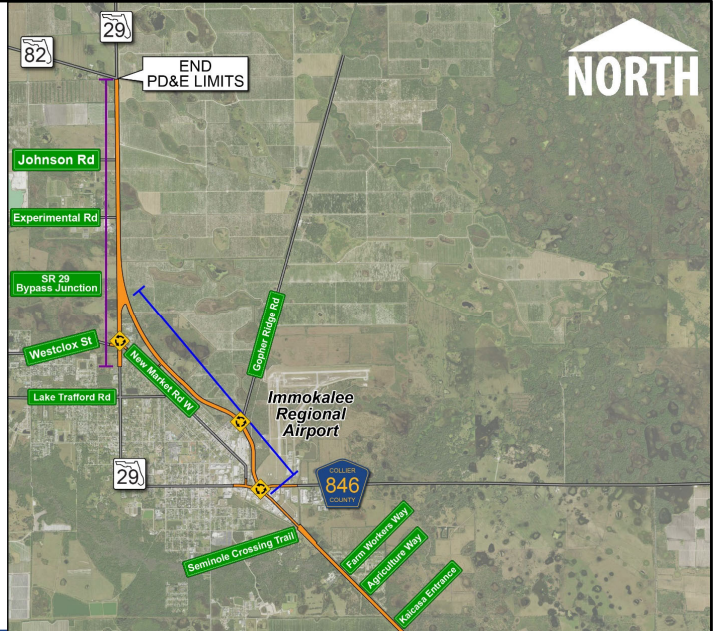

Given the importance of State Road 29 to the State of Florida’s transportation network as a designated Strategic Intermodal System Highway Corridor, ...

**MOVING FLORIDA  
FORWARD**

Infrastructure Initiative

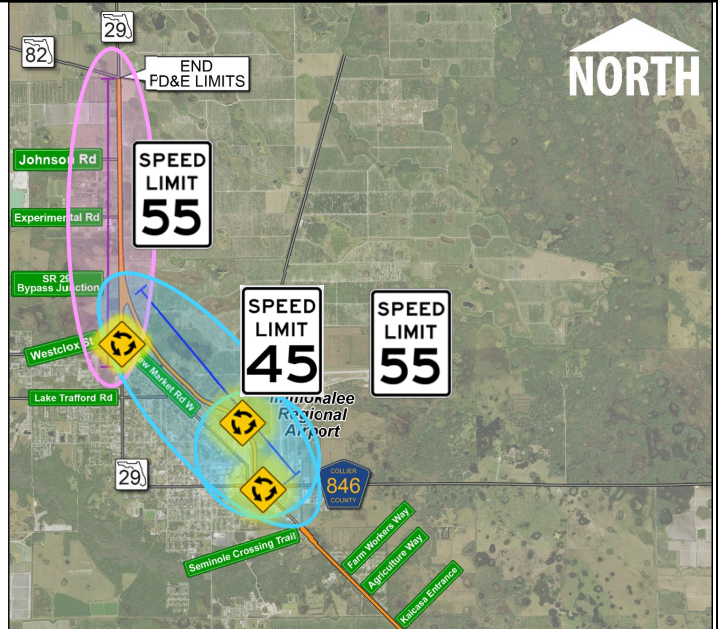

.... the northern portion of the project was included in the Moving Florida Forward infrastructure initiative. Funding was approved for the construction phases in January 2023. Therefore, the Design phase for this portion of the project is proceeding concurrent with the P D and E study.

## Design Refinements

- 12-foot shared use path (blue)
- 10-foot shared use path (purple)
- Roundabouts at
  - CR 846
  - Gopher Ridge Road
  - New Market Road
- Widen lanes by one foot (12 feet)
- Design speeds
  - 45-55 miles per hour (blue)
  - 55 miles per hour (purple)
- Nine pond sites

To meet the latest F D O T Design Manual requirements, refinements were made to this specific section of the Preferred Alternative (the blue and purples segments only). Refinements since the public hearing include:

- A 12-foot shared use path for the entire blue segment (both sides of the road)
- A 10-foot shared use path for the entire purple segment (both sides of the road)
- Revising the following intersections to a roundabout design : CR 846, Gopher Ridge Road, and New Market Road
- Widening the travel lanes for a portion of the blue segment by one foot (to 12 feet)
- Because of wider lanes, design speeds on the blue segment are increased to 45-55 miles per hour and unified on the purple segment to 55 miles per hour
- Adding nine pond sites, necessary for stormwater runoff

## How to Participate

Due by  
May 3, 2024

### In Person Office Hours

April 18, 2024

12 – 4 p.m.

Immokalee Branch  
Library

417 N 1<sup>st</sup> Street  
Immokalee, FL 34142

### Online Office Hour

April 23, 2024

6 – 7 p.m.

**GoTo Webinar**

<https://bitly.ws/3fFYL>

### Project Webpage:

<https://www.sr29collier.com/>

#### By Email:

[Kimberly.Warren@dot.state.fl.us](mailto:Kimberly.Warren@dot.state.fl.us)

#### By Mail:

FDOT District One  
Attn: Kimberly Warren  
801 N. Broadway Ave  
Bartow, FL 33830

12

We encourage you to submit your feedback and ask questions about the project refinements. You may do so in the following ways: in-person at the Immokalee Branch Library on April 18 anytime from 12 – 4 p.m., live online on April 23 from 6 – 7 p.m., through the project webpage or by email or mail to the project manager. Though comments are accepted at any time, they must be received or postmarked by May 3, 2024 to be included in the record for this project update.

## Completion of Study

**Naples Daily News**  
PART OF THE USA TODAY NETWORK

13

F D O T anticipates completion of this P D and E study in summer 2024. At that time, the final documents will be submitted to the F D O T Office of Environmental Management for approval. We will announce the results of the study in the Naples Daily News. The final documents will also be available on the project website.

## Previous Public Meetings

**SR 29 NEWS**  
Project Development & Environment Study

**PROJECT OVERVIEW**

The SR 29 Road Right-of-Way (ROW) Study is a planning study to determine the future of SR 29 in Collier County. The study will evaluate the current and future needs of SR 29 and provide recommendations for the future of the road. The project will include a study of the road's current condition, a study of future traffic volumes, and a study of potential future road designs. The project will also include a study of the road's impact on the environment and the community.

**VISION GENERAL DEL**

El Estado de Florida se compromete a proporcionar un sistema de transporte seguro, eficiente y sostenible para todos los ciudadanos. El Departamento de Transportación (FDOT) se compromete a trabajar con la comunidad para desarrollar un plan de transporte que responda a las necesidades de todos los ciudadanos. El estudio de la SR 29 es un primer paso en este proceso. El estudio evaluará las condiciones actuales de la SR 29 y las necesidades futuras de la comunidad. El estudio también evaluará las opciones de diseño de carreteras futuras y el impacto ambiental y comunitario de cada opción. El estudio también incluirá un estudio de la accesibilidad de la SR 29 para las personas con discapacidades. El estudio se completará en el verano de 2011.

**SR 29 NEWS**  
Project Development & Environment Study

**STUDY AREA EXPANDED**

The Florida Department of Transportation (FDOT) District One is conducting a Project Development and Environment (PDE) Study for SR 29 in Collier County. The study area has been expanded to include the area between SR 846 and SR 82. The study will evaluate the current and future needs of SR 29 and provide recommendations for the future of the road. The project will include a study of the road's current condition, a study of future traffic volumes, and a study of potential future road designs. The project will also include a study of the road's impact on the environment and the community.

**SR 29 PD&E Study**  
From Old Well Road to SR 82 in Collier County

FDOT No. 417540122 01 / FAP No. 391 022 P

**Project Overview**

The Florida Department of Transportation (FDOT), District One, invites you to a project update for the SR 29 Project Development and Environment (PD&E) Study from Old Well Road to SR 82 in Collier County. This study is evaluating widening the road from two to four lanes to address future capacity needs. The Project Update is to inform the public about recent refinements and provide the opportunity to ask questions and express their views.

**Design Refinements**

- 12-foot shared use path (blue segment)
- 10-foot shared use path (purple segment)
- Roundabout Designs: CR 846, Gopher Ridge Rd, and New Market Road
- Widen travel lanes by one foot (blue segment)
- Adjust design speeds to 45-55 miles per hour (purple segment)

**Upcoming Office Hour**

The FDOT will have an online office hour that will include a viewing of the project video and a live question-and-answer component with the project team.

**Register in Advance**  
<https://bit.ly/sr29PDE>  
Tuesday, April 23, 2024 from 6 p.m. - 7 p.m.

Newsletters were sent at study milestones to property owners within the study area, as well as to other interested parties. Seven newsletters (including the one advertising this project update) have been sent in total.

F D O T is required to advertise in a variety of other ways for each public meeting – for more details, please see the notifications guidelines sheet on the project website.

## Next Steps

<https://www.swflroads.com/project/417540-5>

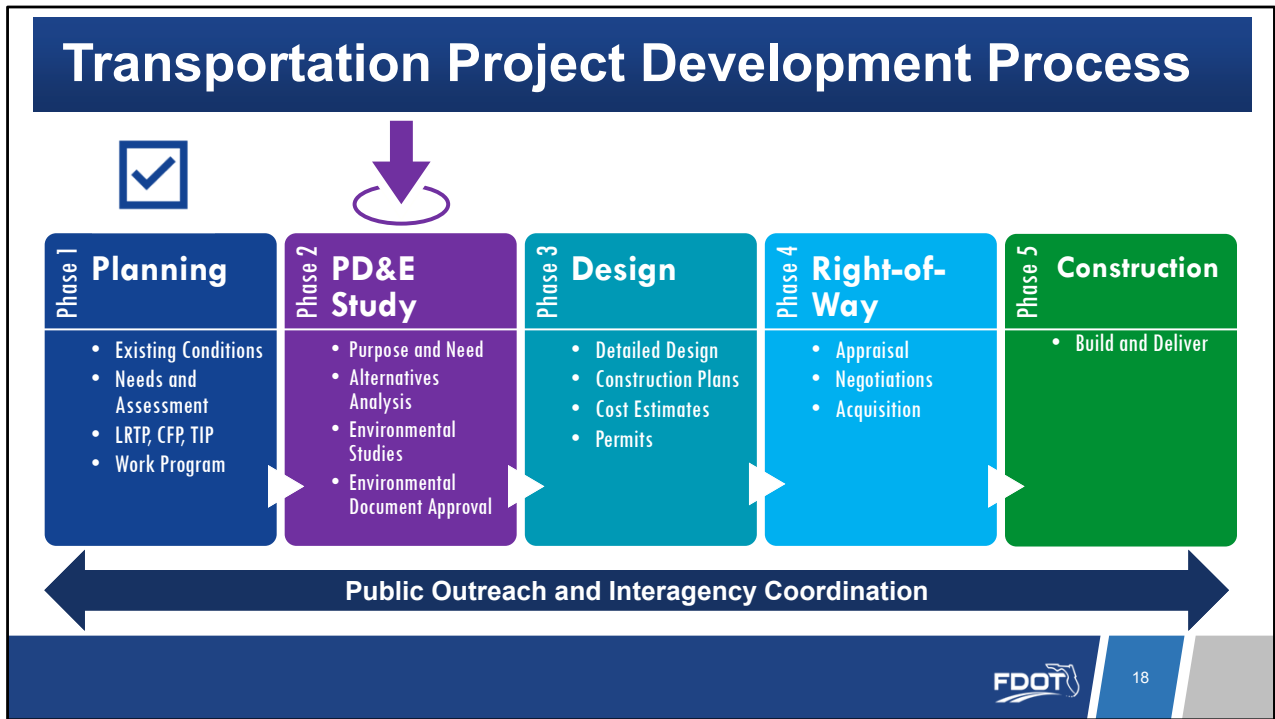

<https://www.swflroads.com/project/417540-6>

At this time, a public meeting for the design segments is tentatively scheduled for 2025. Please check the design project webpages frequently for new information or to sign up for project updates. If you're already on our mailing list, we will be sharing our mailing list with the design team.

This P D and E study is being conducted and completed according to the requirements of the National Environmental Policy Act and other related federal and state laws, rules, and regulations, which will qualify future phases of this project for federal funding.

Thank you for your interest in this project update. We look forward to your continued involvement in this important corridor.

“And finally: an FDOT safety moment. Stay focused in work zones: See Orange, Slow Down! FDOT thanks you for making safety a continued priority!”

El Departamento de Transporte de Florida, (*Florida Transportation Department*, o F D O T), con gusto presenta esta actualización sobre el estudio del Proyecto de Medio Ambiente y Desarrollo (*Project Development and Environment*, o P D & E) de la carretera estatal (*State Road*, o SR) 29, desde Oil Well Road hasta SR 82. Apreciamos su interés en este importante proyecto del F D O T. Esta actualización sobre el proyecto tiene como fin informarle sobre ciertos ajustes recientes que se les han hecho al proyecto y darle la oportunidad de hacer preguntas y expresar sus opiniones.

## Agenda

- Project Overview
- Design Refinements
- Previous Engagement
- Next Steps

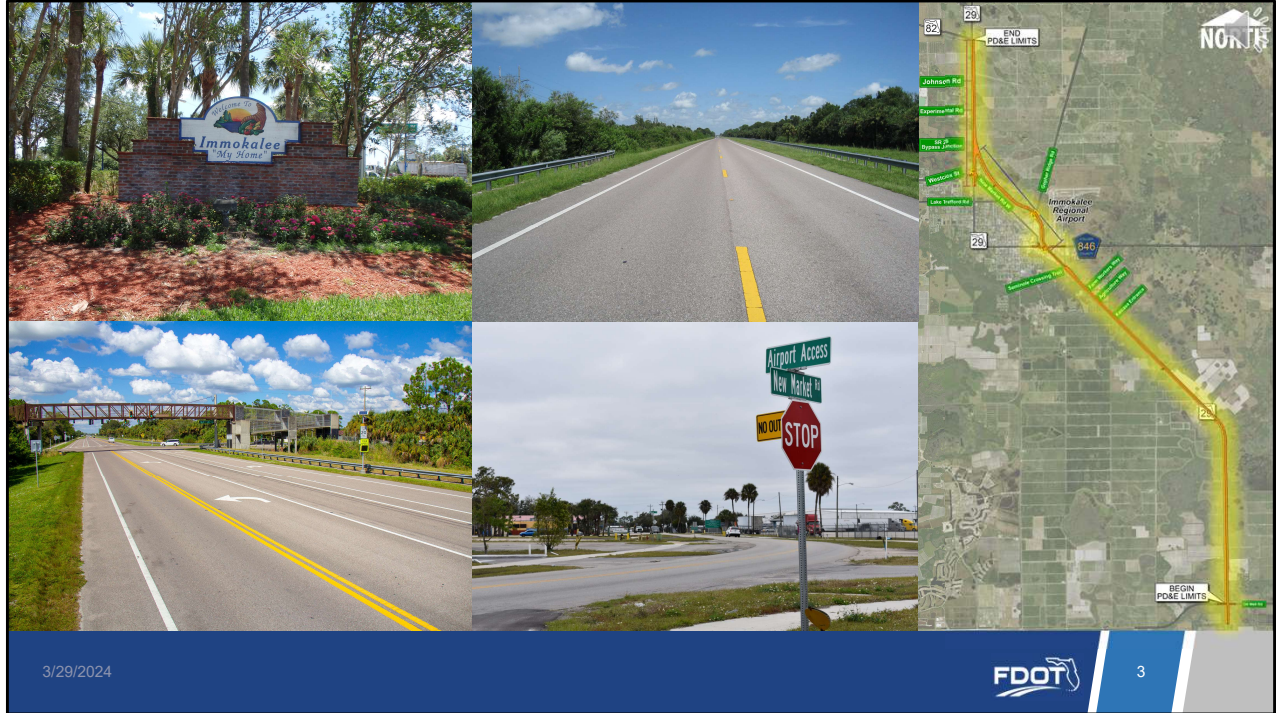

3/29/2024

FDOT

2

En esta presentación, repasaremos el historial del proyecto, explicaremos los ajustes al diseño y hablaremos de los próximos pasos en el proceso de entrega del proyecto, del F D O T.

F D O T comenzó el estudio de P D & E en junio de 2007 para aumentar la capacidad y mejorar el flujo de tráfico a lo largo de aproximadamente 17 millas de SR 29 entre Oil Well Road y SR 82.

Durante el estudio de P D & E, F D O T ha evaluado muchas alternativas distintas para ampliar los dos carriles existentes a cuatro carriles, y construir una nueva calzada para circunvalar el centro de Immokalee. La Alternativa de No Construcción, que supone que no se tomarán medidas para mejorar SR 29 dentro de los límites del proyecto salvo las obras de mantenimiento de rutina, sigue siendo una alternativa viable.

## Project Location Map

3/29/2024

4

Todos los ajustes al diseño están limitados a la sección del norte del proyecto solamente, desde la carretera del condado (*County Road*, o CR) 846, conocida como Immokalee Road, hasta SR 82.

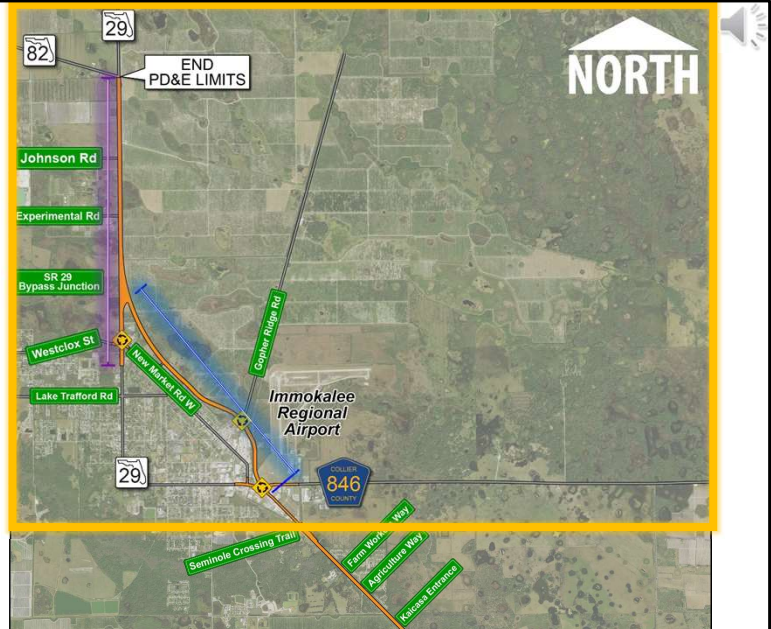

## Design Refinements

Refinements have only been made to the

Purple Segment

and the

Blue Segment.

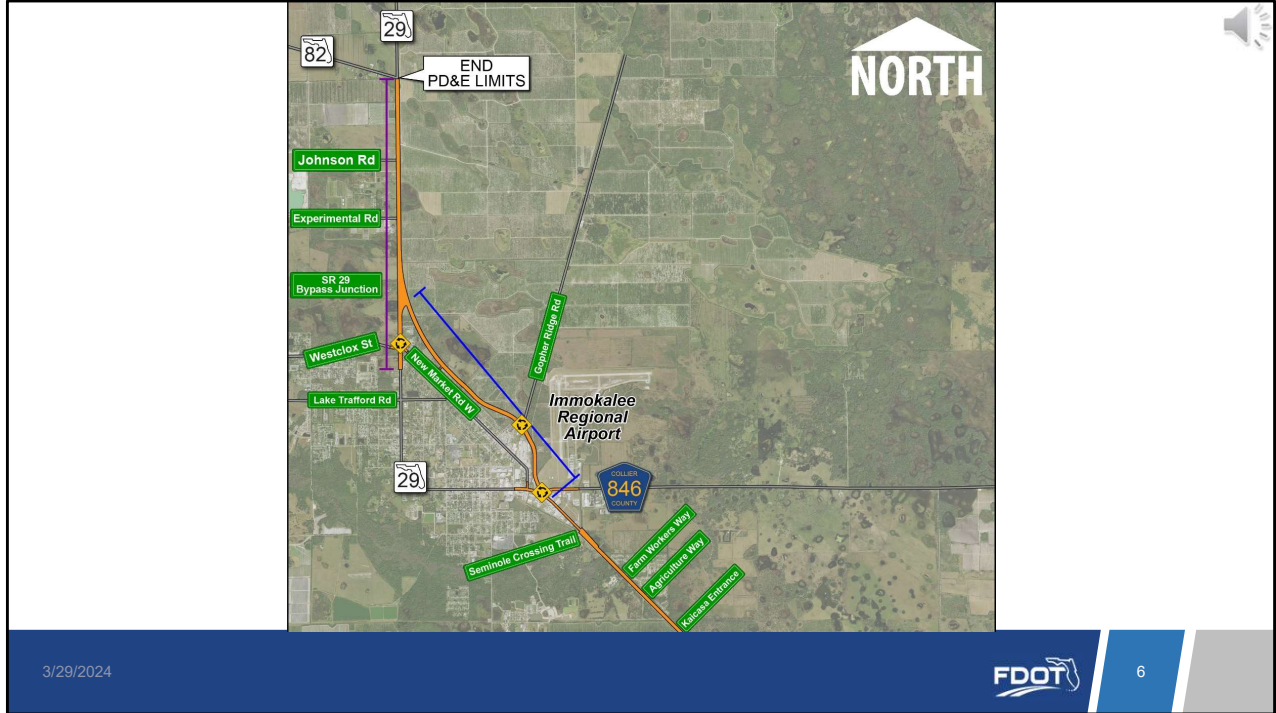

3/29/2024

FDOT

5

No se efectuaron ajustes al proyecto en el área al sur de CR 846.

En el proyecto se evaluaron variadas alternativas, y muchas se eliminaron tras tomar en consideración análisis detallados ambientales y de ingeniería y los comentarios recibidos de la comunidad. Después de la audiencia pública celebrada el 15 de noviembre de 2018, se seleccionó la Alternativa Central Nro. 2 como la Alternativa Preferida.

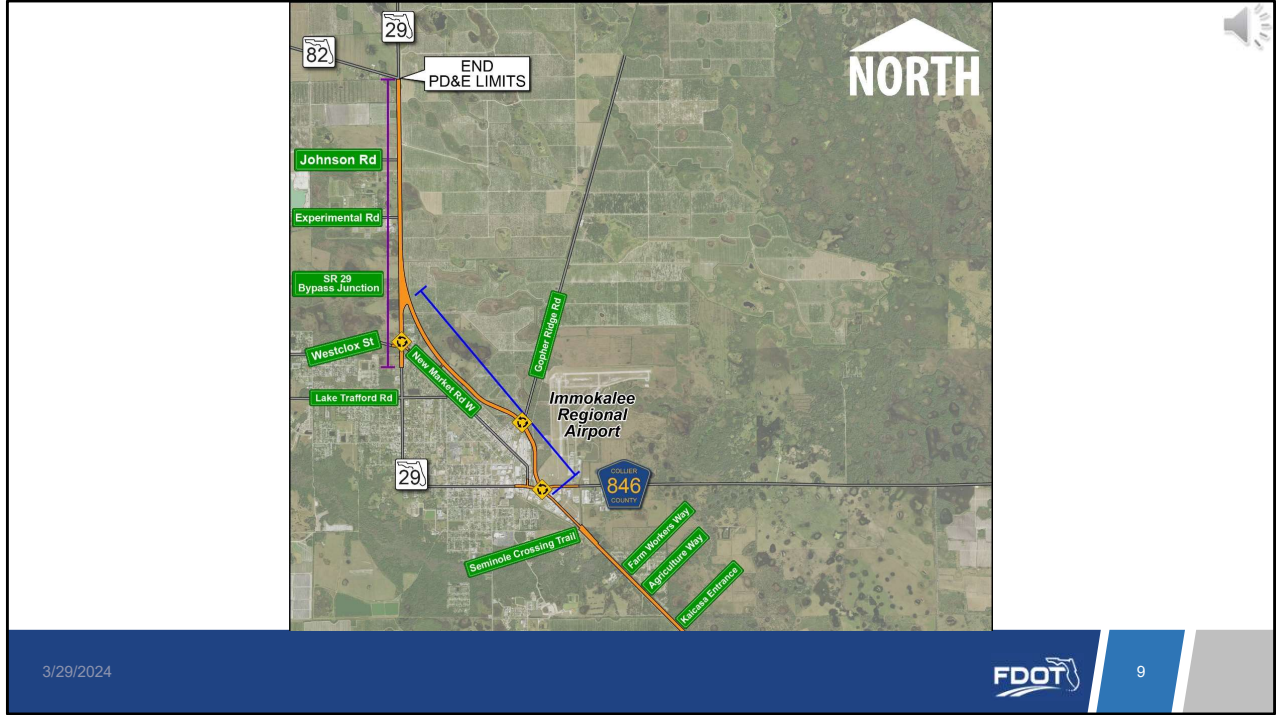

Sin embargo, al considerar los comentarios recibidos en dicha audiencia y tras coordinar con el condado de Collier, parte de la Alternativa Central Nro. 2 se desplazó un poco...

...hacia el este para evitar impactar en el Parque del Aeropuerto de Immokalee. Como resultado de este ajuste, también se llevaron a cabo esfuerzos adicionales de coordinación con agencias gubernamentales.

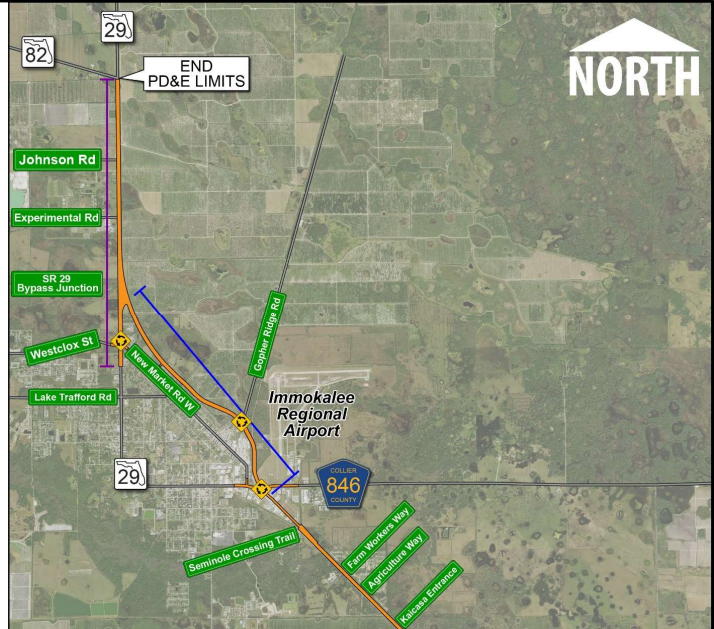

Dada la importancia a la red de transporte del Estado de Florida de SR 29, designada como un Tramo Estratégico de Carretera del Sistema Intermodal,...

**MOVING FLORIDA  
FORWARD**   
Infrastructure Initiative

3/29/2024

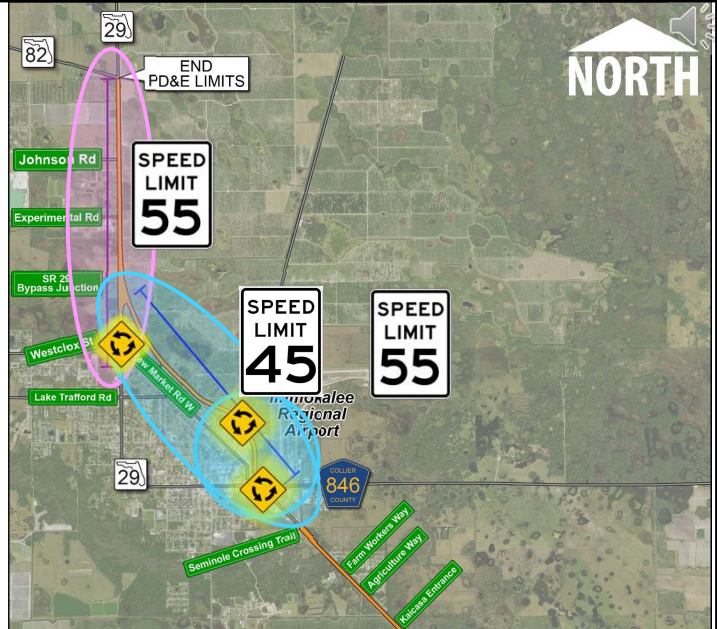

10

...la parte norte del proyecto se incluyó en la iniciativa de infraestructura *Moving Florida Forward*. El financiamiento para la fase de construcción se aprobó en enero de 2023. Por lo tanto, la fase de diseño para esta parte del proyecto está procediendo concurrente con el estudio de P D & E.

## Design Refinements

- 12-foot shared use path (blue)
- 10-foot shared use path (purple)
- Roundabouts at
  - CR 846
  - Gopher Ridge Road
  - New Market Road
- Widen lanes by one foot (12 feet)
- Design speeds
  - 45-55 miles per hour (blue)
  - 55 miles per hour (purple)
- Nine pond sites

3/29/2024

FDOT

11

Para cumplir con los requisitos más recientes del Manual de Diseño del F D O T, se efectuaron ajustes a esta sección particular de la Alternativa Preferida (solo los segmentos azules y morados).

Los ajustes realizados desde la audiencia pública incluyen:

- Una vía de uso compartido de 12 pies para todo el segmento azul (ambos lados de la carretera)
- Una vía de uso compartido de 10 pies para todo el segmento morado (ambos lados de la carretera)
- El cambio a un diseño de glorieta, redoma o redondel vial de las siguientes intersecciones: CR 846, Gopher

## Ridge Road, y New Market Road

- Ampliación de un pie (a 12 pies) de los carriles viales de 11 pies en parte del segmento azul
- Debido a los carriles más anchos, las velocidades especificadas en el diseño del segmento azul se aumentarán a 45-55 millas por hora y en el segmento morado se unificarán a 55 millas por hora
- Se agregarán nueve sitios de estanques de retención, necesarios para recoger la escorrentía de aguas pluviales

## How to Participate

**SR 29 NEWS**  
Project Development & Environment Study

**PROJECT OVERVIEW**

The Florida Department of Transportation (FDOT) is currently conducting a Project Development and Environment (PDE) study for the widening of SR 29 in Collier County. The study is evaluating widening the road from two to four lanes to address future capacity needs. The project area includes the segment from Oil Well Road to SR 82 in Collier County. The project area will be approximately 1.5 miles long and will include a 12-foot shared use path, a 10-foot shared use path, and roundabout designs at CR 846, Gopher Ridge Rd, and New Market Road.

**VISION GENERAL DEL PROYECTO**

El estudio de Proyecto de Desarrollo y Medio Ambiente (PDE) de la Florida Department of Transportation (FDOT) para el ensanchamiento de la SR 29 en el condado de Collier. El estudio está evaluando el ensanchamiento de la carretera de dos a cuatro carriles para abordar las necesidades futuras de capacidad. El área del proyecto incluye el segmento que va desde Oil Well Road hasta la SR 82 en el condado de Collier. El área del proyecto será de aproximadamente 1.5 millas de largo e incluirá un camino compartido de 12 pies de ancho, un camino compartido de 10 pies de ancho y diseños de rotondas en la CR 846, Gopher Ridge Rd y New Market Road.

From Oil Well Road to SR 82

FDOT No. 417540122 01 / FAP No. 3911 032 P

**Project Overview**

The Florida Department of Transportation (FDOT), District One, invites you to a project update for the SR 29 Project Development and Environment (PD&E) Study from Oil Well Road to SR 82 in Collier County. This study is evaluating widening the road from two to four lanes to address future capacity needs. The Project Update is to inform the public about recent refinements and provide the opportunity to ask questions and express their views.

**Design Refinements**

- 12-foot shared use path (blue segment)
- 10-foot shared use path (purple segment)
- Roundabout Designs: CR 846, Gopher Ridge Rd, and New Market Road
- Widen travel lanes by one foot (blue segment)
- Adjust design speeds to 45-55 miles per hour (blue segment) and unified to 55 miles per hour (purple segment)
- Add nine pond sites

**Upcoming Office Hour**

The FDOT will have an online office hour that will include a viewing of the project video and a live question-and-answer component with the project team.

**Register in Advance**  
<https://bit.ly/wj3FTL>  
Tuesday, April 23, 2024 from 6 p.m. - 7 p.m.

3/29/2024

15

Al cumplirse cada etapa del estudio se enviaron boletines a los propietarios dentro del área del estudio, además de a otras partes interesadas. En total se han enviado siete boletines (incluido el que anuncia esta actualización sobre el proyecto).

## Meeting Notification Guidelines

**31-35 Days Prior**  
**WEBSITE UPDATE**  
 Meeting information added to project webpage

**25-30 Days Prior**  
**NOTIFY PUBLIC OFFICIALS BY EMAIL**

- Elected and appointed officials
- Environmental Technical Advisory Team (ETAT)
- Any interested groups or individuals

**25-27 Days Prior**  
**NOTIFY PROPERTY OWNERS BY MAIL**

- Property owners within 300 feet of the project
- Other property owners/tenants who could potentially be affected by the proposed improvements

**21-23 Days Prior**  
**ONLINE PUBLIC NOTICE POSTED\*\***  
 Public notice posted on FDOT's public meetings website

**7-10 Days Prior**  
**ADDITIONAL PUBLIC NOTICES POSTED\*\***  
 Public notice posted in the FAR [www.flrules.org](http://www.flrules.org)  
 Newspaper ad runs in the largest local paper (Optional)

Scan for Florida Administrative Register

**5-7 Days Prior**  
**PROJECT MATERIALS POSTED**  
 Meeting materials are posted on the project webpage  
 Press release sent to local media

**FDOT Public Meeting**

\*\*Required by federal law or state statute

3/29/2024 FDOT 16

F D O T está obligado a publicitar cada reunión pública en una variedad de maneras; para más detalles, por favor consulte la hoja de normas de notificaciones en el sitio web del proyecto.

## Next Steps

<https://www.swflroads.com/project/417540-5>

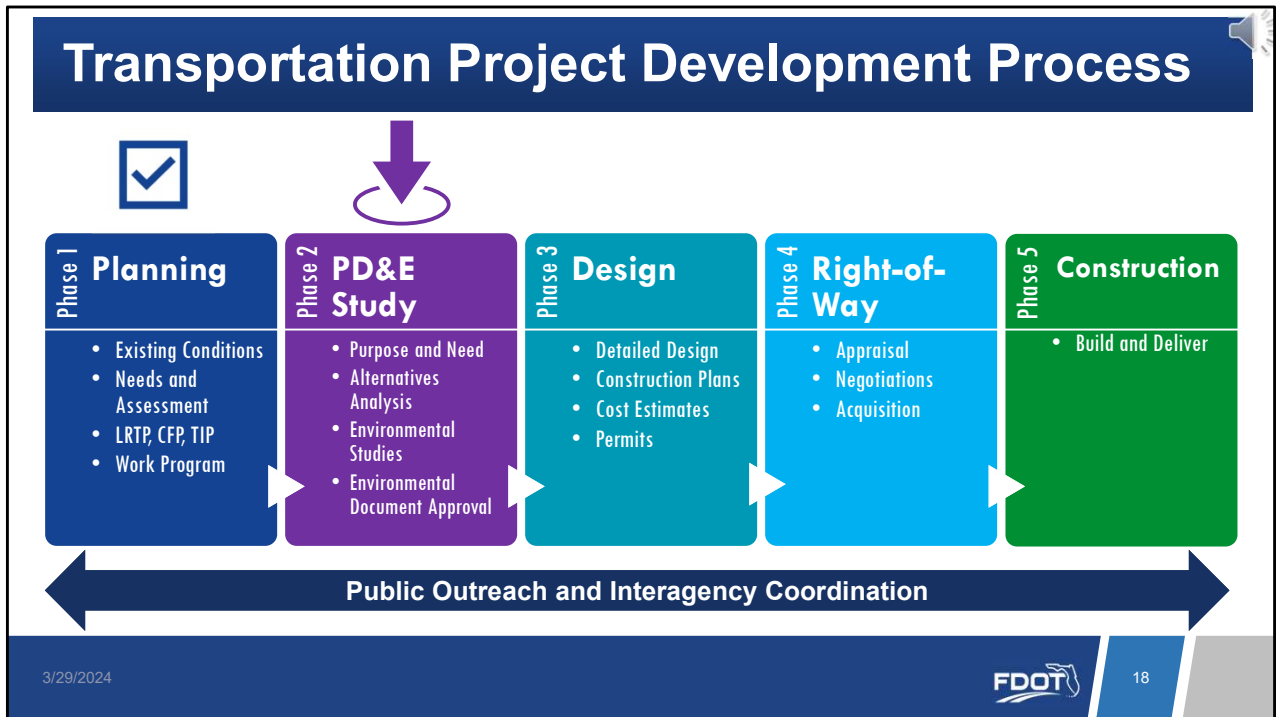

<https://www.swflroads.com/project/417540-6>

En este momento, una reunión pública para los segmentos del diseño está programada provisionalmente para el año 2025. Por favor visite las páginas web dedicadas al diseño del proyecto frecuentemente para actualizarse con los últimos datos o para inscribirse para recibir actualizaciones sobre el proyecto. Si ya se encuentra en nuestra lista de distribución, estaremos compartiendo dicha lista de distribución con el equipo de diseño.

Este estudio de P D & E se está llevando a cabo y se completará conforme con los requisitos de la Ley Nacional de Política Ambiental y otras leyes, reglas y reglamentos federales y estatales relacionados, lo que permitirá que las fases futuras de este proyecto tengan derecho a recibir fondos federales.

# SR 29 PD&E Study

From Oil Well Road to SR 82

FPID NO: 417540 1 22 01 / FAP NO: 3911 022 P

## PROJECT UPDATE - Spring 2024

## ACTUALIZACIÓN SOBRE EL PROYECTO - primavera de 2024

The Florida Department of Transportation (FDOT) invites you to participate in a Project Update for the State Road (SR) 29 Project Development & Environment (PD&E) Study from Oil Well Road to SR 82. This study is evaluating widening the road from two to four lanes to address future capacity needs. The purpose of this project update is to inform the public about recent design refinements and provide an opportunity for the public to ask questions and express their views.

### For more details

about design refinements, see the inside of this newsletter and view the **project update video** we have prepared, either by scanning the QR code below or by visiting the project website: [www.SR29Collier.com](http://www.SR29Collier.com). You may also visit us in-person or online (see below).

### IN-PERSON OFFICE HOURS

**April 18, 2024**

**Anytime between 12 - 4 p.m.**

**Immokalee Branch Library**

417 N 1st, Immokalee, FL 34142

Stop by to talk about the refinements with the project team.

### ONLINE OFFICE HOUR

**Register in advance:**

**<https://bitly.ws/3fFYL>**

**April 23, 2024**

**6 - 7 p.m.**

This will include a viewing of the project video and a live question-and-answer component with the project team.

**PROJECT VIDEO**  
scan to view

**el video de actualización**  
sobre el proyecto  
escanear para ver

El Departamento de Transporte de Florida (Florida Transportation Department, o FDOT) lo invita a participar en una actualización sobre el estudio del Proyecto de Medio Ambiente y Desarrollo (Project Development and Environment, o PD&E) de la carretera estatal (State Road, o SR) 29, desde Oil Well Road hasta SR 82. Este estudio tiene como fin evaluar la ampliación de la carretera de dos a cuatro carriles para abordar necesidades futuras de capacidad. El propósito de esta actualización sobre el proyecto es informar al público sobre los ajustes recientes en el diseño y brindar al público la oportunidad de hacer preguntas y expresar sus opiniones.

### Para más detalles

sobre los ajustes al diseño, consulte el interior de este boletín y vea el video de actualización sobre el proyecto que hemos preparado; para verlo, puede escanear el código QR a continuación o visitar el sitio web del proyecto: [www.SR29Collier.com](http://www.SR29Collier.com). También puede visitarnos en persona o en internet (ver más abajo).

### HORARIO DE ATENCIÓN EN PERSONA

**18 de abril de 2024**

**Cuando desee, de 12 a 4 p. m.**

**Biblioteca de Immokalee**

**417 N 1st, Immokalee, FL 34142**

Pase por la biblioteca para hablar de los ajustes con el equipo del proyecto.

### HORARIO DE ATENCIÓN EN INTERNET

**Regístrese de antemano: <https://bitly.ws/3fFYL>**

**23 de abril de 2024**

**De 6 a 7 p. m.**

**Incluye una presentación del video del proyecto y una sesión de preguntas y respuestas con el equipo del proyecto.**

*FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) at least seven days prior to the event.*

*FDOT solicita la participación del público independientemente de su raza, color, origen nacional, edad, sexo, religión, discapacidad o estado familiar. Las personas que necesiten ser acomodadas conforme con la Ley para Estadounidenses con Discapacidades (ADA) o que necesiten servicios de traducción (gratuitos) deben comunicarse con Cynthia Sykes, coordinadora del programa del Título VI del Distrito Uno, al (863) 519-2287, o por correo electrónico a [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us), al menos siete días antes del evento.*

## Project History

FDOT began this PD&E study in June 2007. Throughout the study, many alternatives were evaluated and eliminated based on in-depth environmental and engineering analyses and community input. Following the public hearing, held on November 15, 2018, Central Alternative #2 was selected as the Preferred Alternative. However, based on comments received at the hearing and further coordination with Collier County, a portion of this alternative was shifted to avoid impacts to the Immokalee Airport Park.

The northern portion of the project is funded for design. To meet current FDOT design standards, refinements were made to this section.

## Project Refinements

The refinements below only apply to the northern portion (from County Road 846/Immokalee Road to SR 82) of the project. The northern portion has been split into two segments for design.

- Blue segment:** CR 846 to SR 29 Bypass Junction
- Purple segment:** south of New Market Road to SR 82

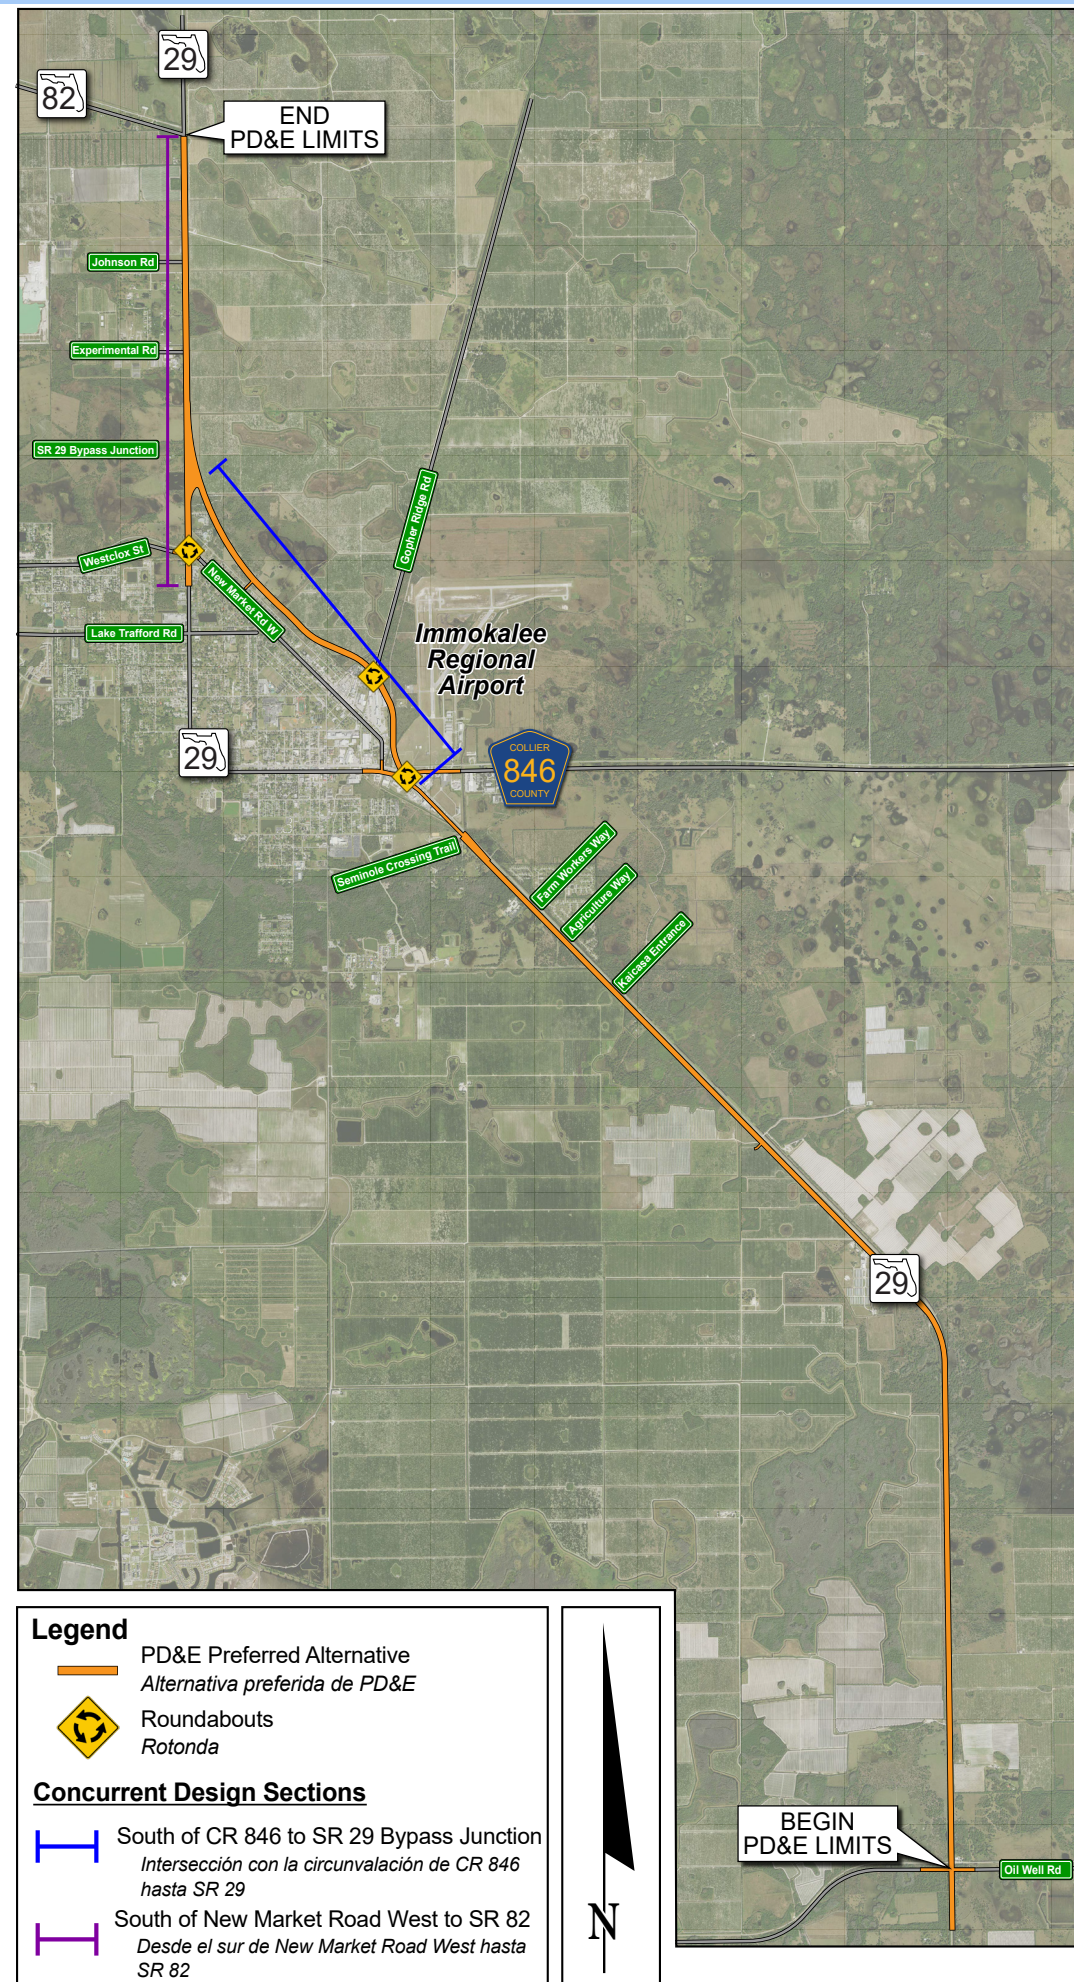

Refinements since the public hearing include:

- A 12-foot shared use path for the entire blue segment (both sides of the road)
- A 10-foot shared use path for the entire purple segment (both sides of the road)
- Revising the following intersections to a roundabout design:
  - CR 846
  - Gopher Ridge Road
  - New Market Road
- Widening the travel lanes for a portion of the blue segment by one foot (from 11 to 12 feet)
- Because of wider lanes, design speeds on the blue segment are increased to 45-55 miles per hour and unified on the purple segment to 55 miles per hour
- Adding nine pond sites - necessary for stormwater runoff

## Additional Information

FDOT is sending notices to property owners, business owners, interested persons and organizations within 300 feet of the project to provide the opportunity to give comments to FDOT regarding this project.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated May 26, 2022 and executed by FHWA and FDOT.

- Legend**
- PD&E Preferred Alternative  
Alternativa preferida de PD&E
  - ⬡ Roundabouts  
Rotonda

- Concurrent Design Sections**
- South of CR 846 to SR 29 Bypass Junction  
Intersección con la circunvalación de CR 846 hasta SR 29
  - South of New Market Road West to SR 82  
Desde el sur de New Market Road West hasta SR 82

## Historial del proyecto

FDOT comenzó este estudio de PD&E en junio de 2007. Durante el estudio, muchas alternativas se evaluaron y se eliminaron. Después de la audiencia pública celebrada el 15 de noviembre de 2018, se seleccionó la Alternativa Central Nro. 2 como la Alternativa Preferida. Sin embargo, al considerar los comentarios recibidos en dicha audiencia y tras coordinar con el condado de Collier, parte de esta alternativa se desplazó para evitar impactar en el Parque del Aeropuerto de Immokalee.

El diseño de la parte norte del proyecto está financiado. Para cumplir con las normas de diseño actuales, se efectuaron ajustes a esta sección. Los detalles de estos ajustes se encuentran en la página interior.

## Ajustes al proyecto

Los ajustes a continuación solo aplican a la parte norte, desde la carretera del condado (County Road, o CR) 846/Immokalee Road hasta SR 82. En el diseño, la parte norte se ha dividido en dos segmentos.

- Segmento azul:** Intersección con la circunvalación de CR 846 hasta SR 29
- Segmento morado:** Desde el sur de New Market Road hasta SR 82

Los ajustes realizados desde la audiencia pública incluyen:

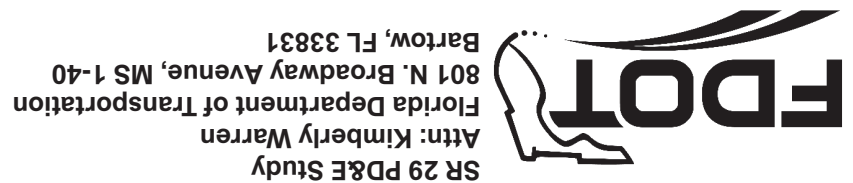

- Una vía de uso compartido de 12 pies para todo el segmento azul (ambos lados de la carretera)
- Una vía de uso compartido de 10 pies para todo el segmento morado (ambos lados de la carretera)
- El cambio a un diseño de rotonda vial a las siguientes intersecciones:
  - CR 846
  - Gopher Ridge Road
  - New Market Road
- Ampliación de un pie (de 11 a 12 pies) de los carriles viales en parte del segmento azul
- Debido a los carriles más anchos, las velocidades especificadas en el diseño del segmento azul se aumentarán a 45-55 millas por hora y en el segmento morado se unificarán a 55 millas por hora
- Se agregarán nueve sitios de estanques de retención, necesarios para recoger la escorrentía de aguas pluviales

## Información adicional

FDOT está enviando avisos a los propietarios, empresarios, personas interesadas y organizaciones dentro de 300 pies del proyecto para brindarles la oportunidad de compartir sus comentarios con el FDOT en relación con este proyecto.

La evaluación ambiental, consultas y otras medidas requeridas por las leyes ambientales federales aplicables a este proyecto se están o han sido llevadas a cabo por el FDOT conforme con el Código de EE.UU. 23 U.S.C. §327 y un Memorandum de Entendimiento fechado el 26 de mayo de 2022, formalizado por la Administración Federal de Carreteras (Federal Highway Administration, o FHWA) y el FDOT.

## Questions?

Please call FDOT Project Manager, Kimberly Warren, at (863) 808-0958.

## ¿Tiene alguna pregunta?

Por favor llame a la representante del proyecto, de FDOT, Karina Della Sera, al (863) 519-2750.

**Subject:** Upcoming Office Hours and Meeting: Project Update for SR 29 PD&E Study, FPID 417540-1, Collier County

Good Afternoon,

The Florida Department of Transportation (FDOT) invites you to participate in project update meetings for the SR 29 Project Development and Environment (PD&E) Study from Oil Well Road to SR 82 in Collier County.

This study is evaluating widening the road from two to four-lanes to address future capacity needs. Please see the newsletter attached to this email. Also attached are two calendar appointments. **\*\*Please open and click Copy to My Calendar to be reminded about this event.\*\***

The following project update meetings have been scheduled to inform the public about recent

refinements to the preferred alternative and provide the opportunity to ask questions and to express their views.

For a summary about the update, [please click here to view this video](#).

You can participate in the following ways:

**IN-PERSON OFFICE HOURS:**

April 18, 2024

Anytime between 12 - 4 p.m.

Immokalee Branch Library

417 N 1st St, Immokalee, FL 34142

Stop by anytime between 12 – 4 p.m. to discuss the refinements directly with the project team.

**ONLINE OFFICE HOUR:**

Register in advance: <https://bitly.ws/3fFYL>

April 23, 2024

6 – 7 p.m.

This event will include a viewing of the project video ([linked here](#)) and a live question-and-answer component with the project team. *Please review the materials on project webpage before attending the virtual event (<https://www.sr29collier.com/>).* **Materials will be posted by April 8, 2024.**

**If you are unable to attend the event**, comments can also be provided through the project webpage (<https://www.sr29collier.com/>) or by email ([Kimberly.Warren@dot.state.fl.us](mailto:Kimberly.Warren@dot.state.fl.us)) or mail (FDOT District One, Attn: Kimberly Warren, 801 N. Broadway Ave., Bartow, FL 33830). While comments about the project are accepted at any time, they must be received or postmarked by May 3, 2024, to be included in record for this project update meeting. Questions can be answered by calling the FDOT project manager Kimberly Warren at (863) 808-0958. **The same materials will be displayed at all events.**

FDOT is sending notices to property owners, business owners, interested persons and organizations within 300 feet of the project to provide the opportunity to give comments to FDOT regarding this project.

FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. ## Notice of Meeting/Workshop Hearing

### DEPARTMENT OF TRANSPORTATION

The Florida Department of Transportation, District One announces a public meeting to which all persons are invited.

DATES AND TIMES: In Person: April 18, 2024, 12:00 noon; Online: April 23, 2024, 6:00 p.m.

PLACE: Immokalee Branch Library, 417 N 1st St, Immokalee, FL or <https://bitly.ws/3fFYL>

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT) invites you to participate in a Project Update for the SR 29 Project Development and Environment (PD&E) Study from Oil Well Road to SR 82 in Collier County.

This study is evaluating widening the road from two to four-lanes to address future capacity needs.

The Project Update is to inform the public about recent refinements and provide the opportunity to ask questions and to express their views.

For a summary about the update, view the project website.

You can participate in the following ways:

#### IN-PERSON OFFICE HOURS:

April 18, 2024, Anytime between 12:00 noon – 4:00 p.m.

Immokalee Branch Library, 417 N 1st St, Immokalee, FL 34142

Stop by anytime between 12:00 noon – 4:00 p.m. to discuss the refinements directly with the project team.

#### ONLINE OFFICE HOUR:

Register in advance: <https://bitly.ws/3fFYL>

April 23, 2024, 6:00 p.m. – 7:00 p.m.

This event will include a viewing of the project video and a live question-and-answer component with the project team. Please review the materials on project webpage before attending the virtual event (<https://www.sr29collier.com/>). Materials will be posted by April 8, 2024.

If you are unable to attend the event, comments can also be provided through the project webpage (<https://www.sr29collier.com/>) or by email ([Kimberly.Warren@dot.state.fl.us](mailto:Kimberly.Warren@dot.state.fl.us)) or mail (FDOT District One, Attn: Kimberly Warren, 801 N. Broadway Ave., Bartow, FL 33830). While comments about the project are accepted at any time, they must be received or postmarked by May 3, 2024, to be included in the record for this project update.

Questions can be answered by calling the FDOT project manager Kimberly Warren at (863)808-0958.

The same materials will be displayed at all events.

FDOT is sending notices to property owners, business owners, interested persons and organizations within 300 feet of the project to provide the opportunity to give comments to FDOT regarding this project.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated May 26, 2022 and executed by FHWA and FDOT.

A copy of the agenda may be obtained by contacting: Kimberly Warren at (863)808-0958 or at [Kimberly.warren@dot.state.fl.us](mailto:Kimberly.warren@dot.state.fl.us)

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Cynthia Sykes, FDOT District One Title VI Coordinator by email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) or by phone at (863)519-2287 or by contacting Jimmy P. Vilcé, P.E., C.P.M. at (863)519-2293 or [Jimmy.Vilce@dot.state.fl.us](mailto:Jimmy.Vilce@dot.state.fl.us). If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

For more information, you may contact: Kimberly Warren at (863)808-0958 or at [Kimberly.warren@dot.state.fl.us](mailto:Kimberly.warren@dot.state.fl.us)

# SR 29 PD&E Study

From Oil Well Road to SR 82

FPID NO: 417540 1 22 01 / FAP NO: 3911 022 P

## PROJECT UPDATE - Spring 2024

## ACTUALIZACIÓN SOBRE EL PROYECTO - primavera de 2024

The Florida Department of Transportation (FDOT) invites you to participate in a Project Update for the State Road (SR) 29 Project Development & Environment (PD&E) Study from Oil Well Road to SR 82. This study is evaluating widening the road from two to four lanes to address future capacity needs. The purpose of this project update is to inform the public about recent design refinements and provide an opportunity for the public to ask questions and express their views.

### For more details

about design refinements, see the inside of this newsletter and view the **project update video** we have prepared, either by scanning the QR code below or by visiting the project website: [www.SR29Collier.com](http://www.SR29Collier.com). You may also visit us in-person or online (see below).

### IN-PERSON OFFICE HOURS

**April 18, 2024**

**Anytime between 12 - 4 p.m.**

**Immokalee Branch Library**

417 N 1st, Immokalee, FL 34142

Stop by to talk about the refinements with the project team.

### ONLINE OFFICE HOUR

**Register in advance:**

**<https://bitly.ws/3fFYL>**

**April 23, 2024**

**6 - 7 p.m.**

This will include a viewing of the project video and a live question-and-answer component with the project team.

El Departamento de Transporte de Florida (Florida Transportation Department, o FDOT) lo invita a participar en una actualización sobre el estudio del Proyecto de Medio Ambiente y Desarrollo (Project Development and Environment, o PD&E) de la carretera estatal (State Road, o SR) 29, desde Oil Well Road hasta SR 82. Este estudio tiene como fin evaluar la ampliación de la carretera de dos a cuatro carriles para abordar necesidades futuras de capacidad. El propósito de esta actualización sobre el proyecto es informar al público sobre los ajustes recientes en el diseño y brindar al público la oportunidad de hacer preguntas y expresar sus opiniones.

### Para más detalles

sobre los ajustes al diseño, consulte el interior de este boletín y vea el video de actualización sobre el proyecto que hemos preparado; para verlo, puede escanear el código QR a continuación o visitar el sitio web del proyecto: [www.SR29Collier.com](http://www.SR29Collier.com). También puede visitarnos en persona o en internet (ver más abajo).

### HORARIO DE ATENCIÓN EN PERSONA

**18 de abril de 2024**

**Cuando desee, de 12 a 4 p. m.**

**Biblioteca de Immokalee**

**417 N 1st, Immokalee, FL 34142**

**Pase por la biblioteca para hablar de los ajustes con el equipo del proyecto.**

### HORARIO DE ATENCIÓN EN INTERNET

**Regístrese de antemano: <https://bitly.ws/3fFYL>**

**23 de abril de 2024**

**De 6 a 7 p. m.**

**Incluye una presentación del video del proyecto y una sesión de preguntas y respuestas con el equipo del proyecto.**

### PROJECT VIDEO

**scan to view**

*FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) at least seven days prior to the event.*

### el video de actualización

**sobre el proyecto escanear para ver**

*FDOT solicita la participación del público independientemente de su raza, color, origen nacional, edad, sexo, religión, discapacidad o estado familiar. Las personas que necesiten ser acomodadas conforme con la Ley para Estadounidenses con Discapacidades (ADA) o que necesiten servicios de traducción (gratuitos) deben comunicarse con Cynthia Sykes, coordinadora del programa del Título VI del Distrito Uno, al (863) 519-2287, o por correo electrónico a [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us), al menos siete días antes del evento.*

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated May 26, 2022 and executed by FHWA and FDOT.

La evaluación ambiental, consultas y otras medidas requeridas por las leyes ambientales federales aplicables a este proyecto se están o han sido llevadas a cabo por el FDOT conforme con el Código de EE.UU. 23 U.S.C. §327 y un Memorandum de Entendimiento fechado el 26 de mayo de 2022, formalizado por la Administración Federal de Carreteras (Federal Highway Administration, o FHWA) y el FDOT.

Iliia,

Good afternoon. A Preferred Alternative has been selected for the project from Oil Well Rd to SR 82 and the concept plans are available on the PD&E Study project website under the "Public Notices" tab (link below).

[FDOT - SR 29 Immokalee PD&E Study \(sr29collier.com\)](#)

Design has been recently started for the segments from south of CR 846 to SR 82. I have provided the links to those websites below along with the name of the design project manager (also copied) for each segment.

- 417540-5 CR 846 to N of New Market Rd: Sean Pugh, PE
  - <https://www.swflroads.com/project/417540-5>
- 417540-6 N of New Market Rd to SR 82: Chris Speese
  - [417540-6 SR 29 from South of New Market Road to SR 82 \(swflroads.com\)](#)

Please let us know if you have further questions or need additional information.

Sincerely,

**Kimberly Warren**

**Subject:** RE: SR 29 Updated Map

Thank you for the link Kimberly. Is it possible to get the plan design in CAD or even the google earth file that you had at the presentation? We have two different planned communities that are affected by the stormwater pond locations. We need to be able to scale the ponds and place them on our plans to determine the overall effect.

Thank you

**Subject:** RE: ACTION REQUIRED Re: [External] swflroads.com comment form submission - Project: 417540-6 : SR 29 from North of New Market Road to SR 82

**Thank you for your interest in 417540-6 SR 29 from North of New Market Road to SR 82. Please note, the project is early in the design process. The median access points are still being reviewed and may be updated based on input and engineering standards as the project moves forward. However, the UF/IFAS campus has existing access to Experimental Road with full access. The design is currently proposing a full median opening at this location, allowing for access to northbound and southbound SR 29.**

**The department has an adopted process to identify the need for access control at intersections. For the location at IFAS and Experimental Rd., a stop control (stop sign) was determined to be best access control given the projected traffic. The installation of Traffic Signals is**

**governed by the Manual on Uniform Traffic Control Devices (MUTCD), a federal regulatory document. The MUTCD provides several warrants that serve as the minimum criteria for the installation of a traffic signal. These warrants contain criteria which are used to define the need for, and appropriateness of a traffic signal. Warrants need to be met for a signal to be installed.**

**Concerning the intersection of North 15th St. and SR 29, the FDOT has completed a thorough analysis to identify the safest intersection while also considering the traffic operations and delay for the 2045 design year. A traditional signal was reviewed as part of the analysis; however, this modified U-turn type intersection was determined to be the best performing type of intersection for both safety and operations.**

**Please let me know if you have any questions concerning this or would like to discuss further. Thank you,**

Regarding Project: 417540-6 : SR 29 from North of New Market Road North to SR 82

From Name: Jeanna Mastrodicasa

From Email: [jmastro@ufl.edu](mailto:jmastro@ufl.edu)

Question or Comment:

The UF/IFAS Southwest Florida Research and Education Center is located along this stretch of highway and they need some accommodations to be able to turn left (north) on SR 29. Despite the road being rural and mostly agricultural, this road is outrageously busy and it would be ridiculous to require them to turn right to turn around a few miles down the road to let them go north. It is quite unsafe currently but the proposal doesn't really directly help them.

**Subject:** SR 29 project

**EXTERNAL SENDER: Use caution with links and attachments.**

Hello Kimberly.

I applaud the idea of pedestrian paths on both sides of 29 highway. However, I'm writing to provide comment on safety concerns related to the SR 29 N. project. I direct the University of Florida research and extension center located at 2685 State Rd. 29 N., about 1 mile north of Newmarket Road. We employ over 110 persons and, like the residents of State Street and Experimental Road, our faculty, staff, students, and visitors (some of which are new or inexperienced drivers ) daily experience safety risks entering the UF facility when northbound in the morning or when exiting our facility northbound in the afternoon. Unfortunately, plans

that I have seen do not seem to take these populations and their safety into consideration.

Present plans indicate a right turn only exit from our main entrance, which means these persons would have to drive an unknown distance to U-turn if their intended direction is north. If a smart light were installed at Experimental Road it might allow for the safe left or right turn of residents and employees of our facility and neighboring community.

Tonight, for example, we will be hosting a US Army corps of Engineers public meeting to discuss water management projects affecting landowners and tribal groups in our area. Some of these stakeholders are young and some geriatric, all of them need safe entrance and egress.

Can we discuss this at some near and convenient time? I would be pleased for you to visit our facility, particularly at 8 AM or 4:45 PM.

Thanks for your consideration.

Please see Mr. Loukonen's email below. This gentleman expressed concern about his property at the Public Hearing in 2018. His property is located in the -6 segment on the west side of SR 29 (plan sheet 29). The map shows three parcels in his name, and we do not show a pond on these three parcels.

Chris

According to our last conversation on August 5-9- 2023 you were waiting on LDCA to determine pond placement along the road way.

The proposed pond on my property is 603A.

This pond is located on my only available frontage that is also higher than most of the property.

Thus development of the property, as Immokalee grows north, will be seriously curtailed and my property value will forever remain depressed.

Please contact me at your earliest convenience to discuss further this matter.

Thank you for your time.

Gail,

Good morning. I am the Project Manager for the PD&E Study. Chris is the project manager for the -6 segment. You are correct, at this time the -3 and -4 segments are on-hold and are not funded in the current Adopted 2024-2028 5-year Work Program.

I hope that his information is helpful. Please let us know if you have any additional questions.

Thanks,

Thank you Kimberly! Are you the project manager of all of these projects? I didn't have -3 and -4 down as project because I didn't

see them on the 5-Year Plan – probably because they are on hold?

**Subject:** Re: Collier County - SR 29 from Oil Well Road to Sunniland Nursery Road, No. 417540-2

Gail,

Good afternoon. Chris forwarded your email to us. Thank you for your continued interest in the SR 29 Project Development and Environment (PD&E) Study. We previously anticipated that the PD&E Study would be completed by the end of December 2022. However, coordination with the agencies is still ongoing and the impacts to the PD&E Study schedule are not yet known. We do plan to hold a public meeting prior to the completion of the PD&E Study.

The project has been broken out into five design segments. We have put together the table below for ease of reference which identifies the design segments and the Fiscal Year (FY) in which the phase(s) is currently funded and programmed along with the status of the phases. Two of the design segments (417540-5, 417540-6) are on the Governor's *Moving Florida Forward* infrastructure initiative list of priority projects. The FY and/or programmed funding is subject change on all segments. At this time, ROW maps are not available, and the ROW phase has not yet begun for any of the segments. There has not been any advanced ROW acquisition.

417540 SR 29 Oil Well Rd to SR 82 Design Segments with Current FY Funding of All Phases					
Segment	Limits	Design	ROW	CST	CEI
417540-2	Oil Well Rd to Sunniland Nursery Rd	2024	Unfunded	Unfunded	Unfunded
417540-3	Sunniland Nursery Rd to Future Kaicasa Entrance	2019 (On Hold)	Unfunded	Unfunded	Unfunded
417540-4	S of Agriculture Way to CR 846 E	2019 (On Hold)	Unfunded	Unfunded	Unfunded
417540-5	CR 846 E to N of New Market Rd	2019 (Underway)	2024/25	Unfunded	Unfunded
417540-6	N of New Market Rd to SR 82	2019 (Underway)	2025/26	2027	2027

Again, thank you for your continued interest in the SR 29 project. I hope this information is helpful. At this time, the latest project information and documents that were presented at the Public Hearing are available on the project website, <https://www.sr29collier.com/>. We keep the website updated as new information becomes available, including the project schedule.

Please let us know if you have any further questions.

Good morning Christopher,

Could you please update me on this project and send me the latest ROW Map?

Are there any upcoming meetings scheduled?

When do appraisals begin?

Has there been advanced acquisition?

Thanks!

Mr. Egan,

Good afternoon. Thank you for your interest in the SR 29 PD&E Study and reaching out to us. We apologize for the delay in our response. We have reviewed the location of your property at 330 New Market Rd, Immokalee FL. The Preferred Alternative's proposed improvements do not require right-of-way (ROW) from your property. We have attached a snapshot that shows your property location as it relates to the Preferred Alternative. We hope that this information is helpful and answers your questions.

Please let me know if have any issues opening the attached map. If you have any further questions or need additional information, please let us know.

**Re: SR29 PD&E Study**

**Hello Kimberly,**

**It was a pleasure speaking with you. As per our conversation, We have a commercial property located at 330 New Market Rd. Immokalee, FL and would like to know how the proposed path with affect the parcel.**

**I currently have a tenant in place and need to know if immanent domain is a possibly for some or all the property or how it would be affected. Any information you can provide it greatly appreciated.**

**Sincerely,**

Ken Egan

Good afternoon. Thank you for your interest in the SR 29 PD&E Study. There are two upcoming office hour events. I have attached the newsletter, which you should also receive in the mail within the next few days. The newsletter provides details regarding the two events and also a link to the project website for additional information.

Please let us know if you need any additional information in the meantime.

Sincerely,
