

FLORIDA DEPARTMENT OF TRANSPORTATION

SR 683 (US 301) FROM SOUTH OF 25TH COURT EAST TO SOUTH OF 13TH AVENUE EAST
BRADENTON, FLORIDA

Financial Project ID: 445144-1

August 2023

Manatee County, FL

CONSTRUCTION PROJECT

The Florida Department of Transportation will launch a road improvement project on SR 683 (US 301) from south of 25th Court East to south of 13th Avenue East. The project spans 7.6 miles of roadway and will include milling and resurfacing, widening, improving curbs and gutters, and sidewalk construction to improve safety for both drivers and pedestrians.

Additional work consists of guardrail and drainage improvements, bridge expansion joints, and lighting and signalization improvements at seven designated intersections. The project will also include improvements to signing and pavement markings.

The project includes a High Friction Surface Treatment (HFST) on the bridge over 1st Street (north of the larger 26th Street flyover bridge) on SR 683. The HFST will require a three-day period to complete so lane closures will be needed.

Variable message signs and flaggers will keep travelers aware of roadway conditions. Be prepared for large construction vehicles in the area and noise from construction equipment. For more information please stay tuned to weekly RoadWatch Reports, traffic advisories and FDOT social media.

PROJECT IMPROVEMENTS

- Milling and resurfacing
- Sidewalk, curb and gutter
- Guardrail and drainage
- Signing and pavement markings
- Bridge expansion joints
- Lighting and signalization at seven intersections
- HFST on the bridge over 1st Street

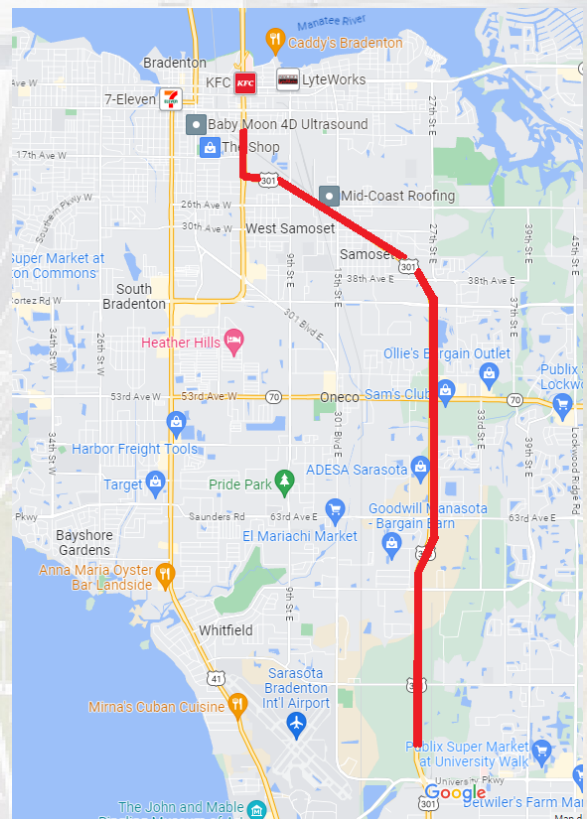

PROJECT SCHEDULE

- Construction will begin August 2023
- Completion is expected by late fall 2024
- **Total Estimated Cost:** \$30.2 million
