ABOUT THE PROJECT:

FDOT began this study in January 2024 to evaluate proposed improvements on State Road (S.R.) 789 from north of Longboat Pass Bridge to S.R. 64 (approximately 3.8 miles), and on Gulf Drive from S.R. 64 to White Avenue/85th Street (approximately 2.2 miles). The total project length is approximately 6 miles.

The purpose of the PD&E Study is to evaluate alternatives to improve pedestrian and bicycle safety and enhance mobility options for all users along the study corridor while maintaining the quality of life for residents and visitors.

FDOT is sending notices to all property owners, tenants, and businesses within 300 feet of the project location, as well as interested persons and organizations to provide the opportunity to give comments to FDOT regarding this project.

While comments about the project are accepted at any time, please send your comments by email or U.S. postal service postmarked by March 9, 2026, to be included in the formal meeting record.
