

S.R. 70 from W of S.R. 31 to SE Highlands County Line Road

FPID NUMBER: 451942-1

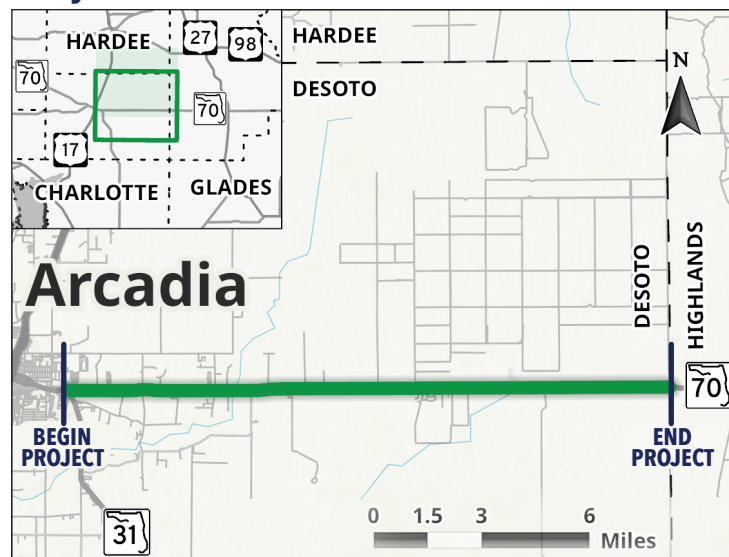

www.swflroads.com/project/451942-1

Project Information: The Florida Department of Transportation (FDOT) is conducting a Project Development and Environment (PD&E) Study on State Road (S.R.) 70 from West of S.R. 31 to SE Highlands County Line Road in DeSoto County. The intent is to improve traffic safety conditions on S.R. 70, maintain important east-west connectivity within the regional transportation network, and accommodate freight activity within the area. The study will evaluate the widening of S.R. 70 from a two-lane undivided roadway to a four-lane divided roadway, including operational improvements from west of S.R. 31 to SE Highlands County Line Road. The project length is 16.7 miles.

About the Project: To accomplish the roadway widening, the project proposes to construct two new travel lanes predominantly on the north side of the existing two travel lanes. The existing two lanes will stay close to their current alignment, and both become east bound travel lanes. The proposed new west bound lanes will be two new travel lanes constructed on the north side of the existing lanes. In addition to the new travel lanes, the project proposes five new bridges and two bridge replacements, all with accommodations to allow safe wildlife crossings across the corridor at the bridge locations. A new pedestrian underpass is also proposed at the Joshua Creek bridge, to further improve accessibility and safety for non-motorized users.

The proposed project will remove a portion of the Old S.R. 18/Mahon Avenue (ODE00828) linear path along S.R. 70, which is eligible for the National Register of Historic Places. While this will impact the historic resource, its previous function will be documented and the recreational function replaced by a new shared-use path throughout the entire project limits.

Project Area

Upcoming Public Hearing

FDOT, District One, invites you to the public hearing for the S.R. 70 from West of S.R. 31 to SE Highlands County Line Road Project Development and Environment (PD&E) Study.

This hearing is being conducted to present the preferred alternative and all analysis to date, as well as to give interested persons an opportunity to express their views concerning the location, conceptual design, and social, economic, and environmental effects of the proposed improvements.

You can participate live online or in-person. The information presented during either format will be the same and all attendees will have opportunity to comment.

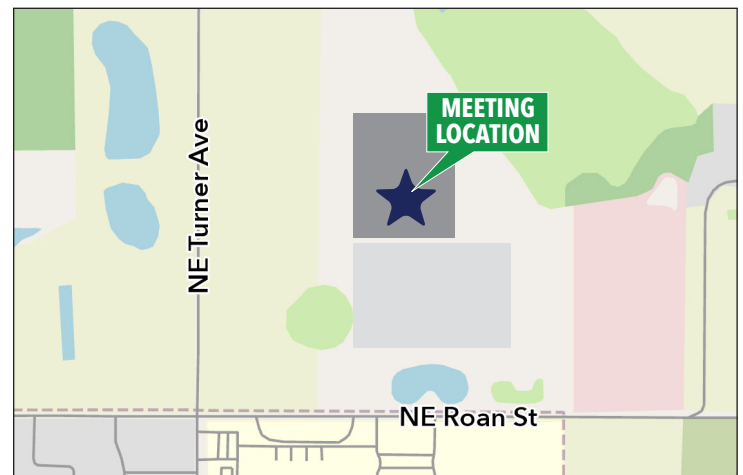

In-Person Option: Thursday, January 8, 2026

Turner Agri-Civic Center | 2250 NE Roan St., Arcadia, FL 34266

Anytime between 5:30 - 6:00 p.m. Open house

6 p.m. Formal presentation and comment

Displays will be available starting at 5:30 p.m. to review at your own pace and the formal presentation will begin at 6 p.m. The project team will be available for discussion.

Virtual Option: Tuesday, January 13, 2026

Register in advance:

attendee.gotowebinar.com/register/5211353514640624469

6:00 p.m. Formal presentation and comment period

This event will include a livestream of the in-person presentation and the formal comment portion. Please review the materials on project webpage before attending the virtual event

(www.swflroads.com/project/451942-1).

Materials will be posted by December 30, 2025.
