

Project Overview

Purpose:

- Improve safety
- Reduce crashes
- Provide traffic calming
- Access management

Project Activities*:

- Replace existing two-way left-turn lanes with raised medians
- Provide median openings at strategic locations along corridor

* This safety improvements project will be completed at the same time as (known as goes-with) a separate resurfacing project from Magellan Dr to 63rd Ave W. Its financial project identification number (FPID) is 451026-1. The scope currently includes analysis and design of proposed roadway elements such as lighting, structures, drainage, signing and pavement markings within the project area.
