1.0 INTRODUCTION

The Florida Department of Transportation (FDOT) conducted a Master Plan study for I-4 (SR 400) from west of SR 570 (Polk Parkway) to west of the US 27 interchange in Polk County. The project location map, shown in **Figure 1**, illustrates the location and limits of the study.

The purpose of the Master Plan (Plan) is to identify long-term capacity needs along the I-4 mainline from west of SR 570 (Polk Parkway) to west of the US 27 interchange in Polk County, and to develop interchange and managed lanes design concepts to address any segments identified as operating below the Level of Service (LOS) target adopted for this facility as part of the Strategic Intermodal System (SIS) designation.

The Plan provides recommendations based on alternatives analysis that bring the corridor into compliance with FDOT Standards, enhance mobility, and improve safety. The Plan includes a Priority List which identifies interim and long-term improvements. The recommendations and Priority List will support the development of the District Interstate Implementation Plan, which will be developed by the Department.

The purpose of this report is to document the public and agency participation accomplished throughout the study process. In compliance with State and Federal rules, a Public Involvement Plan was developed initially in February 2021 (under separate cover) and implemented as an integral part of this project. FDOT recognizes that the success of any transportation improvement is dependent upon a comprehensive public outreach effort. The program focused on soliciting community participation regarding local issues and concerns throughout the project development process. The balance of this report describes the following components of the program: Advance Notification, public communications (emails, newsletters, website, media coverage, etc.), agency presentations and meetings, and public meetings. The final project schedule showing these milestones is shown in **Figure 2**.

Figure 1: Project Location Map

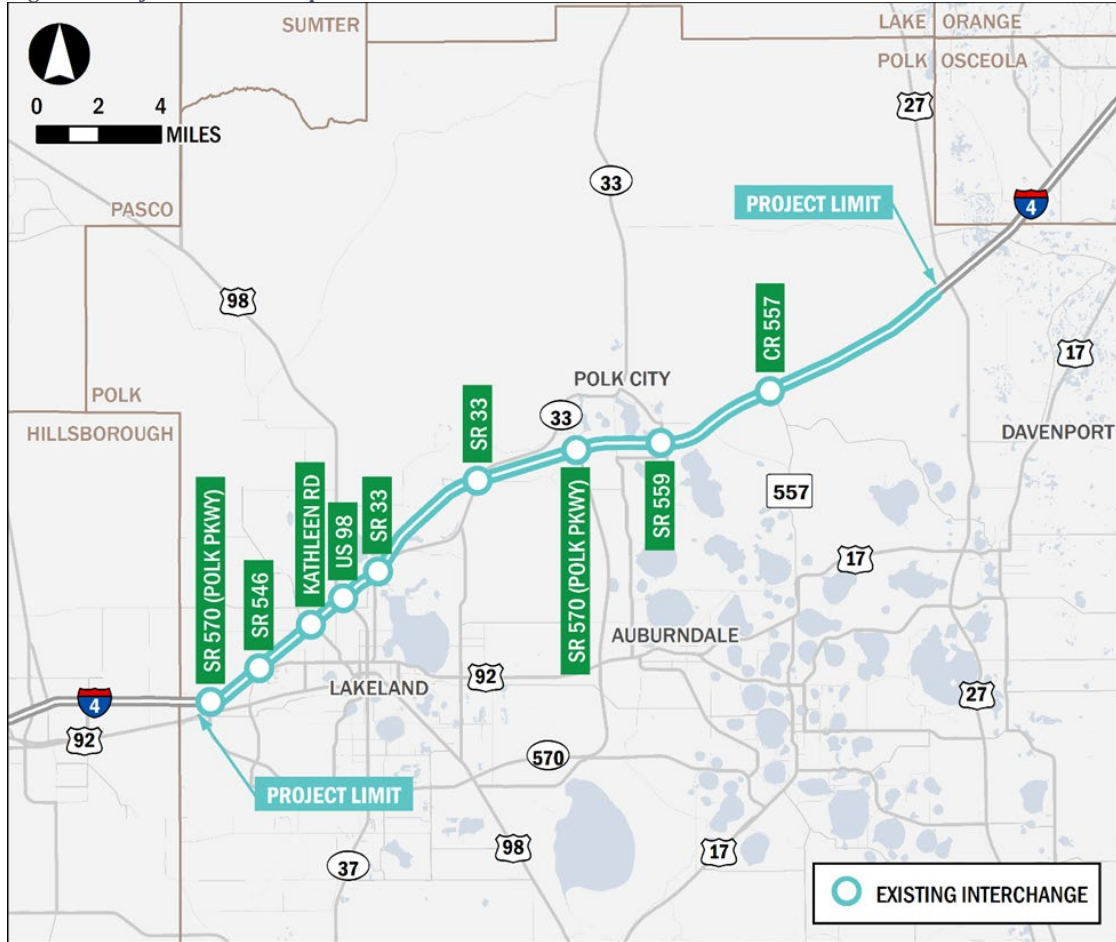

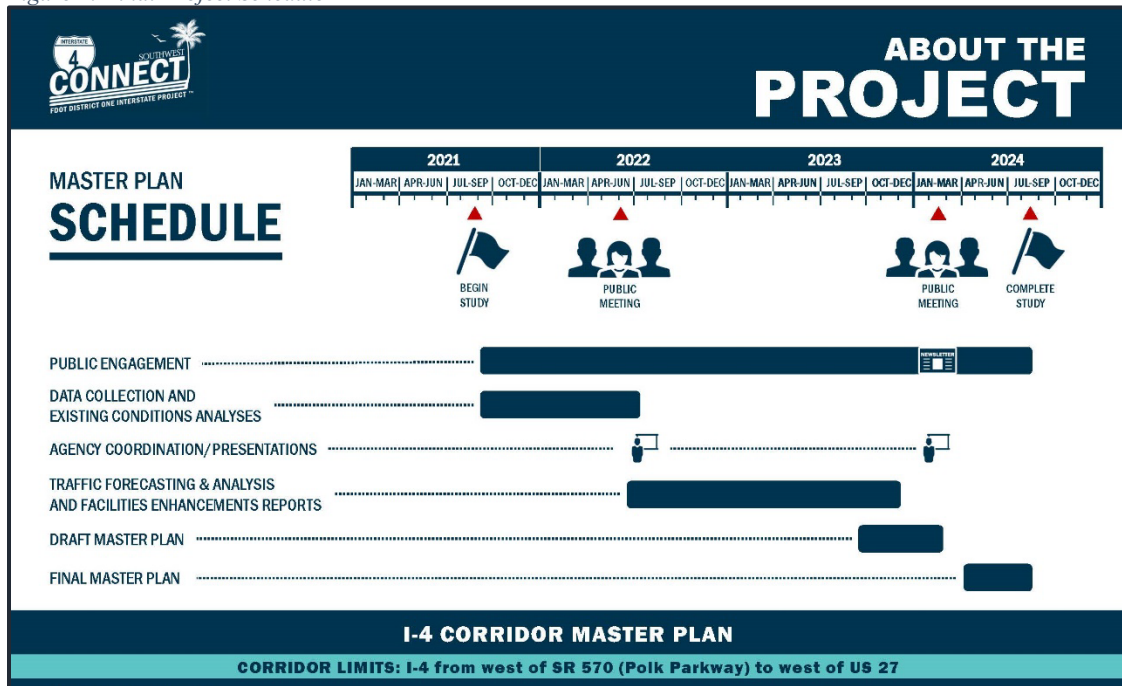

Figure 2: Final Project Schedule

1.1 Project Description

I-4 supports vital commerce and tourism of the state as it connects employment and population centers, including Tampa, Lakeland, Orlando, and Daytona Beach, within central Florida. It is one of the only east-west limited access facilities in the central portion of the state. I-4 is a designated state evacuation route and part of Florida's Strategic Intermodal System (SIS) highway network.

The project is approximately 27.6 miles in length and traverses the major urban area of Lakeland in Polk County, Florida. The functional classification of I-4 within the project limits is Urban Principal Arterial – Interstate. The project segment of I-4 consists of a six-lane divided typical section with a maximum posted speed limit of 70 miles per hour. Existing right-of-way along the corridor ranges from approximately 300 feet to 450 feet in width.

I-4 from west of SR 570 (Polk Parkway) to west of US 27 in Polk County was presented to the public as a PD&E Study evaluating managed lanes. The project direction was revised to a Master Plan from a PD&E study in June 2022. The Master Plan, branded as Southwest Connect™ (I-4 Corridor), is a capacity, safety and operational improvement project on I-4 in Polk County. This project is in the Planning and Feasibility Phase. FDOT will analyze the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or new interchanges. The Master Plan will also include public outreach, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

2.0 PROJECT KICKOFF

2.1 Efficient Transportation Decision Making (ETDM)

Consistent with FDOT's ETDM process, the proposed project was evaluated during the ETDM programming screen, (ETDM Project Number 14398 published on July 17, 2019). Through ETDM, early agency and public comments were obtained to provide project information on potentially environmentally sensitive areas and identification of project issues. The ETDM Programming Screen Summary Report is available on the ETDM public web site (<https://etdmpub.flas-etat.org/est/>).

2.2 Public Involvement Plan

A Public Involvement Plan, prepared under separate cover, was created for this project outlining community outreach efforts. It presents the approach used to involve the public, public officials, the media, and government agencies throughout the project. A property owner mailing list was developed for mailing of newsletters and public meeting invitations. A public officials mailing list was also developed to notify representatives in the project area with newsletters and meeting and hearing invitations.

3.0 PUBLIC OUTREACH/MEETINGS

3.1 Public Outreach Meeting – September 2021

A live, online meeting and an in-person meeting were held in September 2021 for the study. Both meeting formats presented the same meeting materials and provided the public an opportunity to ask questions to the project team. The meetings were held to provide the public with an update of the Master Plan to date, and to provide the opportunity to discuss the study and provide comments. The meeting materials were also available for viewing and comment online at www.swflinterstates.com/i4-corridor/ from Monday, September 27 through Friday, October 8. The online public outreach meeting materials included a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback.

Meeting notices were emailed to public officials and individuals interested in the project on August 27, 2021. Notices were also mailed to property owners and tenants located within at least 300 feet on either side of the project corridor, including surrounding neighborhoods and other local citizens who may be impacted by the construction of this project on August 31, 2021. FDOT distributed a press release on September 17, 2021, to inform the local media of the outreach event. Meeting notices were posted with the Florida Administrative Register (FAR) on September 17, 2021, on the FDOT website, and through an FDOT media release. Notification emails, advertisements, press release, mailing lists, newsletter invite, and media coverage can be found in **Appendix A**.

The live, online meeting was held on Monday, September 27, 2021, at 5 p.m. on GoToWebinar. The public was able to register through the project website. The meeting began with a presentation of the meeting displays, including broadcasting a video describing Managed Lanes. The meeting handout, FDOT noise brochure and Right-of-Way information were accessible to attendees in the control panel as meeting handouts. For the remainder of the meeting, the attendees were able to type questions into the question panel and the project team answered them while referring to project display boards. The live online meeting had seven registrants, and the online open house had 163 views between September 27 and October 8. Of those, there were four attendees who asked questions or asked to be added to the project mailing list during the online meeting. Attendees were directed to submit formal comments through the project website or by email to Nicole.Harris@dot.state.fl.us. No additional comments were sent by October 8, 2021. There were no comments received that were against improving I-4.

The in-person meeting was held as an Open House from 5 – 7 p.m. on Tuesday, September 28, 2021, at the Lake Crago Recreation Center, located at 525 Lake Crago Dr., Lakeland, FL 33805. This facility was chosen for its accessibility. It is in north Lakeland, near I-4, making it central to the project area. The meeting was held in a large room which provided ample space to station the display boards away from the looping video. The facility has numerous parking spaces and is ADA accessible. Upon arrival, attendees were provided with a comment sheet. The FDOT Noise Brochure and Right-of-Way information were available. A video describing Managed Lanes played continuously throughout the evening. Display boards were available for attendees to view and FDOT representatives were available to discuss the project. Seven people signed in at the registration table, not including FDOT and consultant personnel, and all were shown the project comment forms to encourage them to make a comment. A total of two written

comments were received at the in-person meeting. One comment thanked the staff for answering questions. The other comment expressed support for the project. Again, there were no comments against improving I-4.

The sign-in sheets, meeting handout, and comment sheets from the meeting, as well as emailed comments received through October 8, 2021, can be found in **Appendix B**.

3.2 Public Outreach Meetings –February 2024

A live, online meeting and an in-person meeting were held in February 2024 for the study. Both meeting formats presented the same meeting materials and provided the public an opportunity to ask questions to the project team. The meetings were held to provide the public with an update of the Master Plan to date, and to provide the opportunity to discuss the study and provide comments. The meeting materials were also available for viewing and comment online at www.swflinterstates.com/i4-corridor/ from Tuesday, February 13 through Thursday, February 29. The online public outreach meeting materials included a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback.

Meeting notices were emailed to public officials and individuals interested in the project on January 18, 2024. Notices were also mailed to property owners and tenants located within at least 300 feet on either side of the project corridor, including surrounding neighborhoods and other local citizens who may be impacted by the construction of this project on January 25, 2024. FDOT distributed a press release on February 9, 2024, to inform the local media of the outreach event. Hearing notices were posted with the FAR on February 5, 2024, on the FDOT website, and through an FDOT media release. Notification emails, advertisements, press release, mailing lists, and the newsletter invite can be found in **Appendix C**.

The live, online meeting was held on Monday, February 13, 2024, at 5 p.m. on GoToWebinar. The public was able to register through the project website. The meeting began with a presentation of the meeting displays, including broadcasting a video describing Managed Lanes. The meeting handout, FDOT noise brochure and Right-of-Way information were accessible to attendees in the control panel as meeting handouts. For the remainder of the meeting, the attendees were able to type questions into the question panel and the project team answered them while referring to project display boards. The online meeting had 80 attendees. Several questions were asked and responded to during the online meeting. Attendees were directed to submit formal comments through the project website or by email to aniruddha.gotmare@dot.state.fl.us.

The in-person meeting was held as an Open House from 5 – 7 p.m. on Thursday, February 15, 2024, at the Lake Crago Recreation Center, located at 525 Lake Crago Dr., Lakeland, FL 33805. This facility was chosen for its accessibility. It is in north Lakeland, near I-4, making it central to the project area. The meeting was held in a large room which provided ample space to station the display boards away from the looping video. The facility has numerous parking spaces and is ADA accessible. Upon arrival, attendees were provided with a meeting handout and comment sheet. The FDOT Noise Brochure and Right-of-Way information were available. A video describing Managed Lanes played continuously throughout the evening. Display boards were available for attendees to view and FDOT representatives were available to discuss the project. Eleven members of the

public signed in at the registration table, including one elected official and all were shown the project comment forms to encourage them to make a comment. Not included in this number are FDOT and consultant personnel.

A total of six comments were received by February 29, 2024. The comments generally supported the project, with some offering additional suggestions. The City of Lakeland submitted a comment after February 29 that posed questions regarding coordination efforts as this project moves into future phases. One comment expressed general opposition to any improvement on I-4. The sign-in sheets, meeting handout, and comment sheets from the meeting, as well as emailed comments received through February 29, 2024, can be found in **Appendix D**.

4.0 AGENCY AND STAKEHOLDER COORDINATION

4.1 Agency Presentations

In addition to various internal agency meetings (FDOT Leadership, FDOT adjacent districts, Technical Advisory Committee, and FDOT Central Office) the project team provided updates to the Polk Transportation Planning Organization (TPO). An update was provided to the Polk TPO on June 9, 2022, and on February 8, 2024. The team presented an update to the TPO Technical Advisory Committee on January 25, 2024. The information presented at these TPO meetings is included in **Appendix E**.

5.0 OTHER PUBLIC OUTREACH ACTIVITIES

5.1 Project Website

A project website is available at www.swflinterstates.com/i4-corridor/. The website was updated regularly to keep the public apprised of the project's status. The Southwest Connect parent website also featured information for the related I-75 Master Plan study corridors. Screenshots of the project website can be found in **Appendix F**.

5.2 Additional Public Comment

Additional public comments were received through the website and by mail/email throughout the course of the study. These comments are included in the project file.

5.3 Other Outreach Methods

Additional outreach methods used to notify and involve the public in the project include social media posts. This was done in conjunction with the public meetings and the posts can be found in those sections of this report.

*Appendix A:
Notifications for September 2021
Public Outreach Meetings*

Notification Letters

Subject Line: Subject: FPID 442512-1 Southwest Connect™ I-4 Corridor Master Plan Public Outreach Meeting

Dear Elected Official,

The Florida Department of Transportation (FDOT), District One, is hosting a **Public Outreach Meeting** for the Southwest Connect™ Interstate 4 (I-4) Corridor Master Plan from west of SR 570 (Polk Parkway) to west of US 27 in Polk County, Florida. For your convenience, FDOT is providing multiple ways to participate:

ONLINE
September 27 – October 8, 2021
via the project website at:
www.SWFLInterstates.com/i4-corridor-VPM

IN-PERSON OPEN HOUSE
Tuesday, September 28, 2021
5:00 p.m. - 7:00 p.m.
Lake Crago Recreational Center
525 Lake Crago Dr.
Lakeland, FL 33805

The online public outreach meeting materials include a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open house will provide the same materials and information as the online meeting materials. Comments will be accepted through October 8, 2021.

In addition, FDOT is hosting a **LIVE Question and Answer Event ONLINE from 5:00 p.m. – 6:30 p.m. on Monday, September 27, 2021**. To register for the virtual Q&A event, please go to www.SWFLInterstates.com/i4-corridor-VPM. FDOT is mailing invitational postcards (attached) to property owners adjacent to the project and in surrounding areas.

The Southwest Connect™ I-4 Corridor is a capacity, safety and operational improvement project in Polk County. This project is currently in the Planning and Feasibility Phase. During this phase, FDOT will analyze the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward in the Project Development Process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email at Cynthia.Sykes@dot.state.fl.us at least seven days prior to the public workshop.

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

If you have further questions about the project, please contact the I-4 Project Manager, Mr. Aniruddha (Rudy) Gotmare, P.E., at (863) 519-2335 or via e-mail at aniruddha.gotmare@dot.state.fl.us. You may also visit the project website at: <https://www.swflinterstates.com/i4-corridor>.

FDOT hosts I-4 Corridor Master Plan Public Outreach Meeting

Including an In-Person Open House, Online Virtual Tour and LIVE Q&A Event

BARTOW, Fla. - The Florida Department of Transportation (FDOT), District One, is hosting a Public Outreach Meeting for the Southwest Connect™ Interstate 4 (I-4) Corridor Master Plan from west of SR 570 (Polk Parkway) to west of US 27 in Polk County, Florida.

For convenience, FDOT is providing multiple ways to participate: at an In-Person Open House and online at the project website: www.SWFLInterstates.com/i4-corridor-VPM.

The In-Person Open House will occur Tuesday, September 28, 2021 from 5:00 p.m. to 7:00 p.m. at the Lake Crago Recreational Center, located at 525 Lake Crago Dr., Lakeland, FL 33805.

The meeting materials will also be available for viewing and comment online at www.SWFLInterstates.com/i4-corridor-VPM from September 27 – October 8, 2021. The online public outreach meeting materials include a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open-house meeting will provide the same materials and information as the online meeting materials.

In addition, FDOT is hosting a LIVE Question and Answer (Q&A) Event ONLINE from 5:00 p.m. – 6:30 p.m. on Monday, September 27, 2021. To register for the virtual Q&A event, please go to www.SWFLInterstates.com/i4-corridor-VPM. FDOT is mailing invitational postcards to property owners adjacent to the project and in surrounding areas.

The Southwest Connect™ I-4 Corridor is a capacity, safety and operational improvement project in Polk County. This project is currently in the Planning and Feasibility Phase. During this phase, FDOT will analyze the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward in the Project Development Process. This long-range approach provides a regional perspective to identify the areas where future

demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

You may submit any comments or questions on the project: through the project website at www.SWFLInterstates.com/i4-corridor-VPM; by emailing Aniruddha (Rudy) Gotmare, P.E., I-4 Project Manager at aniruddha.gotmare@dot.state.fl.us; or by mailing your comments to Aniruddha Gotmare, P.E. at FDOT District One, MS 1-81, 801 N. Broadway Ave., Bartow, FL 33830. Comments must be received or postmarked by October 8, 2021 in order to be included in the workshop record.

FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or require translation services (free of charge) should contact Cynthia Sykes, FDOT District One Title VI Coordinator, by phone at (863) 519-2287, or by email at Cynthia.Sykes@dot.state.fl.us at least seven days prior to the Virtual Public Workshop. If you are hearing or speech impaired, please contact us by using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

Visit FDOT District One on www.swflroads.com, or Twitter at [@MyFDOT_SWFL](https://twitter.com/MyFDOT_SWFL), or facebook.com/MyFDOTSWFL to stay informed.

OLD DIXIE TRAIL PD&E PUBLIC WORKSHOP

District: One
Meeting Type: Workshop
Date: Thursday, September 16, 2021
Time: 6:00 pm to 7:00 pm
Location Name: GotoWebinar
Street Address: <https://attendee.gotowebinar.com/register/1832806036208852752>
Directions: <https://attendee.gotowebinar.com/register/1832806036208852752>
Purpose: The Florida Department of Transportation (FDOT) is hosting a public workshop for the Old Dixie Trail Project Development & Environment (PD&E) Study in Polk County. You can participate in the public workshop virtually or in-person.

The virtual public workshop will be held on September 16, 2021. FDOT staff will present to the public and will host a live component from 6:00 pm to 7:00 pm that will be open to comments from the public. The live event can be accessed online through the project website at <http://www.swflroads.com/trails/odt/home.html>. ONLINE OPTION - Attend virtually from a computer, tablet or mobile device. You can register in advance by visiting <https://attendee.gotowebinar.com/register/1832806036208852752> or the project website. Once registered, attendees will receive a confirmation email containing information about joining the workshop online. Please note, Internet Explorer cannot be used to register or attend this GoToWebinar. PHONE OPTION - Join the workshop in listen-only mode by dialing +1 (631) 992-3221 and entering the passcode 859-634-978 when prompted. Callers may submit comments directly to the project manager by using the contact information listed on the back. Additionally, an in-person alternatives public workshop will be held on September 23, 2021, at the Lake Alfred Lions Club at 175 N. Nekoma Ave, Lake Alfred, FL, 33850. The in-person workshop will be an open house format from 5:30 pm to 7:30 pm. The proposed Old Dixie Trail will connect the trailheads of the Auburndale-TECO Trail and the Haines City Trail, for a distance of approximately 12 miles. The Old Dixie Trail PD&E Study is intended to provide regional connectivity that will offer recreational and economic development benefits. The public workshop is being held to present information about the proposed alternatives and engineering and environmental analysis completed to date. The workshop provides the public an opportunity to offer feedback on the proposed alternatives for the official workshop record. All workshop materials will be available on the project website from September 9 through October 7, 2021. A copy of these materials will also be displayed at the in-person workshop. You may choose any combination of the options provided to review the materials and to submit your comments. Your input on the project is valuable and we invite you to respond to our survey by visiting the project website, or <http://metroquestsurvey.com/jy43q>. FDOT is sending notices to property owners, business owners, interested persons and organizations within 300-feet of the project to provide the opportunity to give comments to FDOT regarding this project. If you have any questions about the project, please contact FDOT Project Manager, Steven Andrews by phone at (863) 519-2270, email at steven.andrews@dot.state.fl.us. After reviewing the public workshop materials, and/or participating, you may submit comments in three different ways: 1) on the project website; 2) emailing the FDOT Project Manager, Steven Andrews at steven.andrews@dot.state.fl.us; or 3) mailing comments to Steven Andrews at FDOT District One, P.O. Box 1249, Bartow, FL 33931-1249. While comments about the project are accepted at any time, please note that comments must be received or postmarked by October 7, 2021, to be included in the formal public workshop record. A summary of the workshop comments and responses will be available on the website approximately 30 days following the close of the comment period. A summary of the workshop comments and responses will be available on the website approximately 30 days following the close of the comment period.

INTERSTATE 4 (I-4) CORRIDOR MASTER PLAN **PUBLIC OUTREACH MEETING**

MEETING DATE: **9/28/2021**

MEETING LOCATION: **Lake Crago Recreational Center**

Corridor Limits: I-4 from west of SR 570 (Polk Parkway) to west of US 27

Polk County, Florida

FPID No.: 442512-1

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

FLORIDA DEPARTMENT OF TRANSPORTATION

TITLE VI

The Florida Department of Transportation complies with various non-discrimination laws and regulations including Title VI of the Civil Rights Act of 1964.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Persons wishing to express concerns about Title VI may do so by contacting:

District One

Florida Department of Transportation
District One Title VI Coordinator
Cynthia Sykes
801 N Broadway Avenue
Bartow, FL 33830
863-519-2287
Cynthia.Sykes@dot.state.fl.us

Central Office

Florida Department of Transportation
Statewide Title VI Coordinator
Jacqueline Paramore
605 Suwannee Street, MS 65
Tallahassee, FL 32399-0450
850-414-4753
Jacqueline.Paramore@dot.state.fl.us

All inquiries or complaints will be handled according to FDOT procedures and in a prompt and courteous manner.

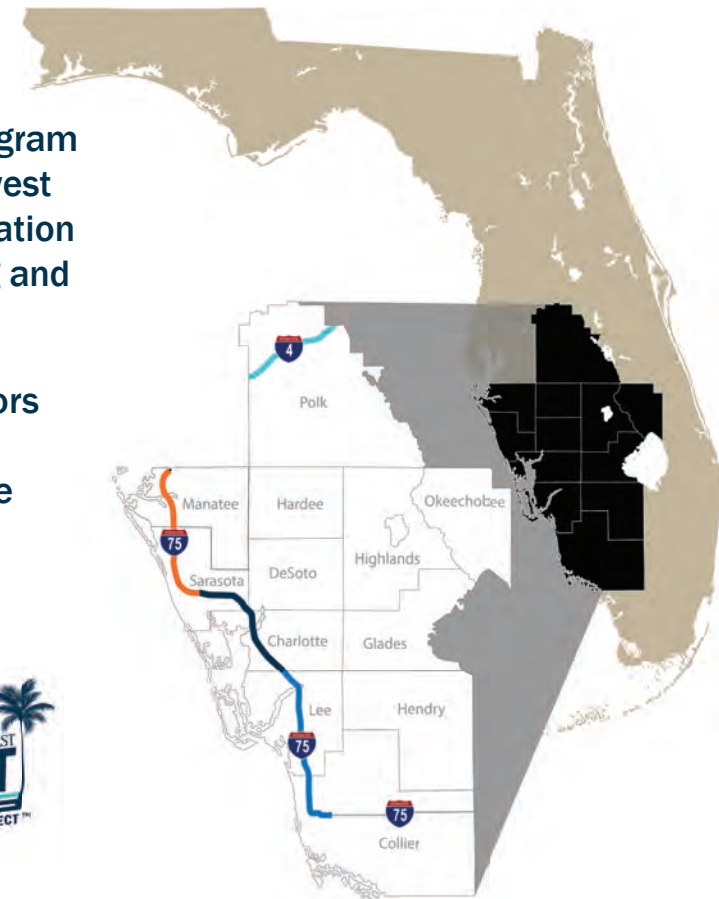

ABOUT THE PROGRAM

PROGRAM DESCRIPTION

Florida Department of Transportation (FDOT) District One is embarking on a program that will lead to the long-term improvement of the interstate corridors in Southwest Florida. This effort will allow District One to analyze and put in place a transportation solution that meets the needs of the near term and accommodates the evolving and innovative transportation solutions of tomorrow.

Within the Southwest Connect™ program, there are currently four project corridors in the Planning and Feasibility phase. This phase is focused on identifying solutions that improve mobility and provide transportation options to support the region's economic development. These solutions are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

I-75 (South Corridor)

I-75 (Central Corridor)

I-75 (North Corridor)

I-4 Corridor

ABOUT THE PROGRAM

WHY IS FDOT STUDYING THESE CORRIDORS?

FDOT is studying the future needs of the corridors to efficiently plan for needed improvements that enhance mobility, reduce congestion, and improve safety.

- I-75 and I-4 have experienced an increase in traffic driven by many factors including population growth, development, additional tourism and special events.
- The Planning and Feasibility phase will document current and future needs of the interstate in corridor Master Plans and provide recommended improvement priorities for implementation.

THE PROJECT DEVELOPMENT PROCESS

We are here →

FDOT follows federal and state requirements throughout project development and works closely with governmental agencies, partners and the local communities to identify new projects and move them through the production process.

Planning and Feasibility, Project Development and Environment Study, Design, Right of Way Acquisition, and Construction are phases of production for projects.

ABOUT THE PROGRAM

WHAT IS A MASTER PLAN?

A Master Plan is a document that summarizes a community's vision for future transportation and provides a set of recommended improvements to enhance safety and mobility.

Development of a Master Plan involves data collection, public outreach, analysis of current and future transportation needs, and the identification and evaluation of potential projects to address those needs.

During the Planning and Feasibility phase, an analysis of the interstate system's existing and future transportation challenges is conducted, and the findings of the analysis and recommendations to enhance safety and mobility are documented in a Master Plan.

The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges.

The Master Plan will also include public outreach, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process.

This long-range approach provides a regional perspective to identify the areas where future demand is predicted and assists in defining subsequent Project Development and Environment (PD&E) Study limits for the project(s). This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

ABOUT THE PROJECT

PROJECT DESCRIPTION

Southwest Connect I-4 Corridor is a project that will evaluate the current and future needs that improve safety, operational capacity, functionality, efficiency and connectivity along and across the corridor. The project limits are from west of Polk Parkway (State Road 570) to west of US 27 in Polk County.

Managed lanes, collector-distributor roadways, auxiliary lanes, or interchange operational improvements are being considered.

PURPOSE AND NEED

The purpose of this project is to address the existing operational deficiencies of I-4 within Polk County and to accommodate future travel demand projections as a result of forecasted population and employment growth. Other goals of the project are to

- 1) preserve the operational integrity and regional functionality of I-4 (and, therefore, the regional transportation network)
- 2) Enhance emergency evacuation and response times

MOVING FORWARD TOGETHER

General concerns are increasing traffic congestion at an exponential rate with the growth in the Lakeland-Dexter Haven metro area. It's a great idea to move this project forward based on the existing growth rates of the area. The 4 managed lanes with hard barriers, ^{+ 6 General Purpose lanes} seems like the most efficient method of moving traffic and offers a funding source to move the project forward.

Aniruddha.Gotmare@dot.state.fl.us

The Florida Department of Transportation (FDOT) invites you to a public meeting for the Southwest Connect™ I-4 Master Plan from west of SR 570 (Polk Parkway) to west of US 27 in Polk County, Florida. This Master Plan will lead to the long-term improvement of the interstate corridor by identifying solutions that are designed to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns. FDOT is currently analyzing the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the

Project Development Process. This project is currently in the Planning and Feasibility Phase, the beginning of the process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

WHAT IS A MASTER PLAN?

A Master Plan is a document that summarizes a community's vision for future transportation and provides a set of recommended improvements to enhance safety and mobility. Development of a Master Plan involves data collection, public outreach, analysis of current and future transportation needs, and the identification and evaluation of potential projects to address those needs.

FOR YOUR CONVENIENCE, FDOT IS PROVIDING MULTIPLE WAYS TO PARTICIPATE:

AVAILABLE TO VIEW ONLINE:
February 13 - February 29, 2024
via the project website at:
www.swflinterstates.com/i4-corridor-vpm

LIVE ONLINE EVENT:
Tuesday, February 13, 2024
5 p.m.
www.swflinterstates.com/i4-corridor-vpm

IN-PERSON OPEN HOUSE:
Thursday, February 15, 2024
5 p.m.-7 p.m.,
Lake Crago Recreation Center
525 Lake Crago Dr., Lakeland, FL 33805

The online meeting includes a virtual tour with multiple interactive stations containing video and other displays designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open house will provide the same materials and information as the online meeting materials. Comments can be provided through the project website and questions can be answered by calling the FDOT Project Manager, Aniruddha Gotmare, P.E., at (863) 519-2335 or via e-mail at aniruddha.gotmare@dot.state.fl.us. In addition, FDOT is hosting a LIVE Question and Answer Event ONLINE beginning at 5 p.m. on Tuesday, February 13, 2024. A registration link for this event can be found at <https://www.swflinterstates.com/i4-corridor-vpm/>. While comments about the project are accepted at any time, please note that comments must be received or postmarked by Thursday, February 29, 2024, to be included in the formal workshop record. A summary of the workshop comments and responses will be available on the webpage approximately 30 days following the close of the comment period.

The Florida Department of Transportation is required to comply with various non-discrimination laws and regulations, including Title VI of the Civil Rights Act of 1964. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at 863-519-2287 or by email at Cynthia.sykes@dot.state.fl.us at least seven (7) days prior to the meeting.

Para información en español por favor comuníquese con nuestro representante, Luis Díaz al 407-710-3341. Nos interesa mucho la opinion del público sobre este proyecto.

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to title 23 U.S.C. § 168(d)(4), or to the State project development process.

The Florida Department of Transportation (FDOT) invites you to a public meeting for the Southwest Connect™ Interstate 4 (I-4) Corridor Master Plan from west of SR 570 (Polk Parkway) to west of US 27 in Polk County, Florida. For your convenience, FDOT is providing multiple ways to participate:

ONLINE MEETING

February 13, 2024

Materials available to review at

www.SWFLInterstates.com/i4-corridor-VPM

IN-PERSON OPEN HOUSE

February 15, 2024

5 p.m. – 7 p.m.

Lake Crago Recreational Center

525 Lake Crago Dr.

Lakeland, FL 33805

The online meeting includes a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open house will provide the same materials and information as the online meeting materials. Comments can be provided through the project website and questions can be answered by calling the FDOT Project Manager, Aniruddha Gotmare, P.E., at (863) 519-2335 or via e-mail at aniruddha.gotmare@dot.state.fl.us.

In addition, FDOT is hosting a **LIVE Question and Answer Event ONLINE beginning at 5 p.m. on Tuesday, February 13, 2024**. A registration link for the LIVE Online Q&A event can be found at www.SWFLInterstates.com/i4-corridor-VPM.

While comments about the project are accepted at any time, please note that comments must be received or postmarked by **Thursday, February 29, 2024**, to be included in the formal meeting record. A summary of the meeting comments and responses will be available on the webpage approximately 30 days following the close of the comment period.

FDOT is currently analyzing the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This project is currently in the Planning and Feasibility Phase, the beginning of the process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

FDOT is sending notices to property owners, business owners, interested persons and organizations [adjacent to I-4](#) to provide the opportunity to give comments to FDOT regarding this project (*see the attached newsletter*). FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email at Cynthia.Sykes@dot.state.fl.us at least seven days prior to the meeting.

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

INTERSTATE 4 (I-4) CORRIDOR MASTER PLAN **PUBLIC OUTREACH MEETING**

MEETING DATE: **2/15/2024**

MEETING LOCATION: **Lake Crago Recreational Center**

Corridor Limits: I-4 from west of SR 570 (Polk Parkway) to west of US 27

Polk County, Florida

FPID No.: 442512-1

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

FLORIDA DEPARTMENT OF TRANSPORTATION

TITLE VI

The Florida Department of Transportation complies with various non-discrimination laws and regulations including Title VI of the Civil Rights Act of 1964.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Persons wishing to express concerns about Title VI may do so by contacting:

District One

Florida Department of Transportation

District One Title VI Coordinator

Cynthia Sykes

801 N Broadway Avenue

Bartow, FL 33830

863-519-2287

Cynthia.Sykes@dot.state.fl.us

Central Office

Florida Department of Transportation

Statewide Title VI Coordinator

Stefan Kulakowski

605 Suwannee Street, MS 65

Tallahassee, FL 32399-0450

850-414-4742

Stefan.Kulakowski@dot.state.fl.us

All inquiries or complaints will be handled according to FDOT procedures and in a prompt and courteous manner.

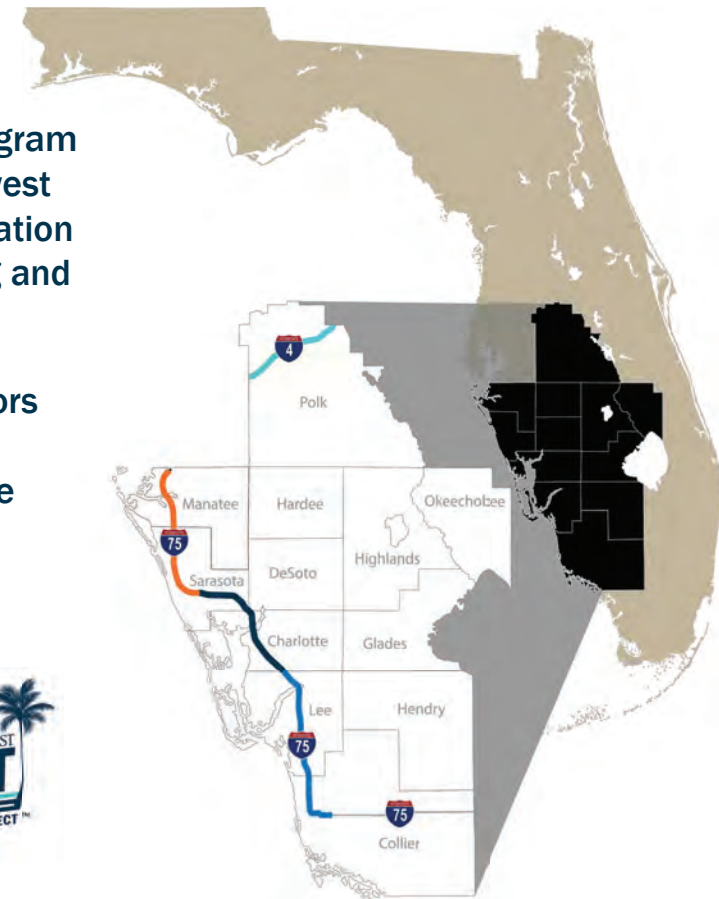

ABOUT THE PROGRAM

PROGRAM DESCRIPTION

Florida Department of Transportation (FDOT) District One is embarking on a program that will lead to the long-term improvement of the interstate corridors in Southwest Florida. This effort will allow District One to analyze and put in place a transportation solution that meets the needs of the near term and accommodates the evolving and innovative transportation solutions of tomorrow.

Within the Southwest Connect™ program, there are currently four project corridors in the Planning and Feasibility phase. This phase is focused on identifying solutions that improve mobility and provide transportation options to support the region's economic development. These solutions are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

I-75 (South Corridor)

I-75 (Central Corridor)

I-75 (North Corridor)

I-4 Corridor

ABOUT THE PROGRAM

THE PROJECT DEVELOPMENT PROCESS

We are here →

FDOT follows federal and state requirements throughout project development and works closely with governmental agencies, partners and the local communities to identify new projects and move them through the production process.

Planning and Feasibility, Project Development and Environment Study, Design, Right of Way Acquisition, and Construction are phases of production for projects.

WHERE IN THE PROCESS RIGHT OF WAY

This corridor is currently in the Planning and Feasibility Phase.

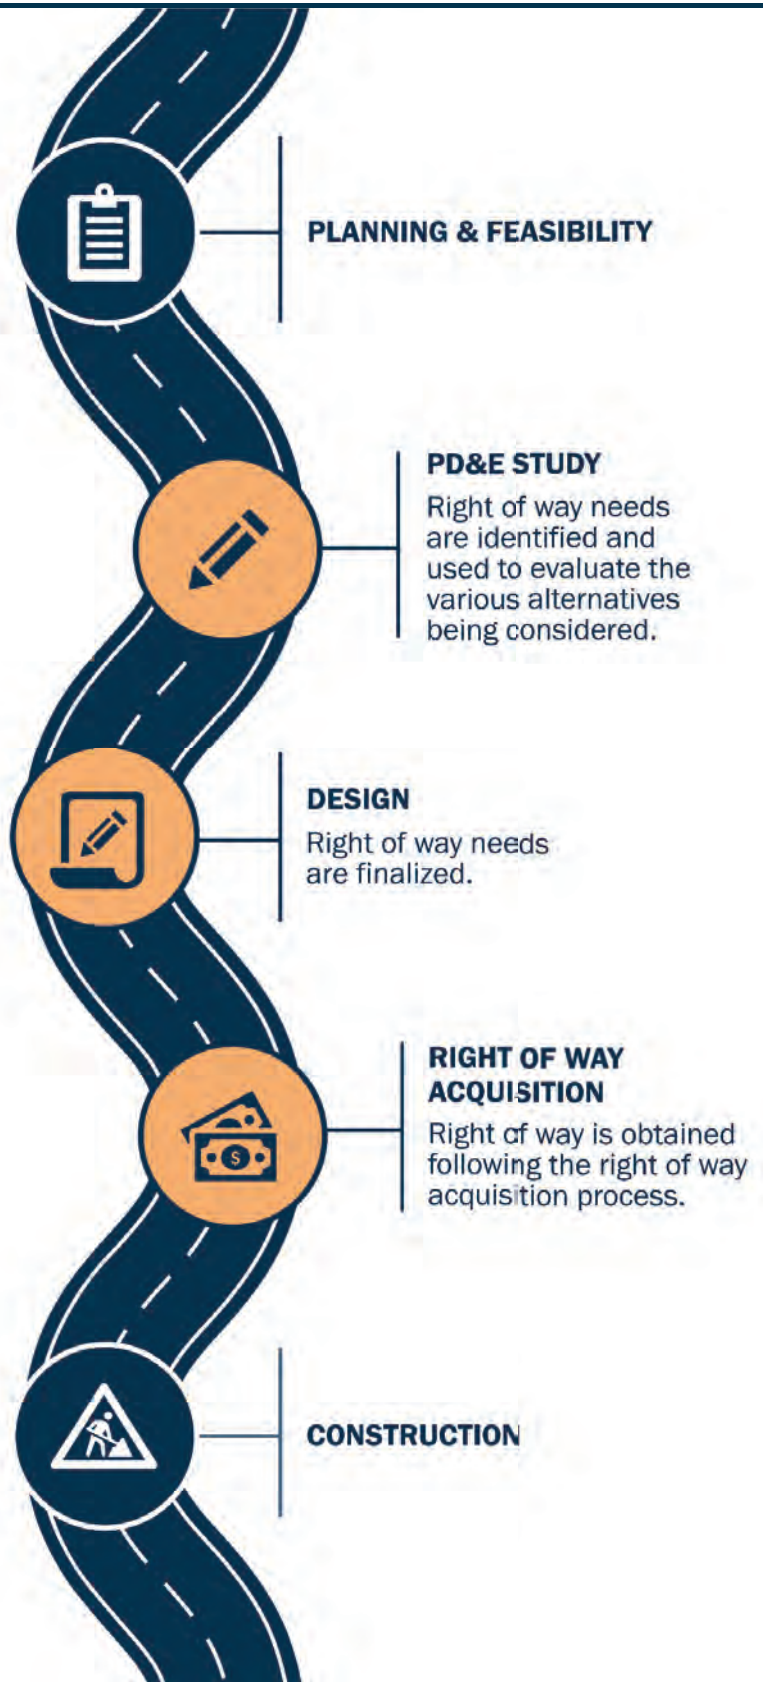

Once a project has been prioritized and funded to move to the next phase, the Project Development and Environment (PD&E) study, the Department will identify any potential right of way needs and use them in the evaluation of the various alternatives being considered.

Once the project is advanced to the Design Phase, all right of way needs are determined and finalized.

If additional land is needed to construct proposed improvements, the Department will notify property owners, explain the acquisition process, their rights and options.

FDOT's Right of Way Acquisition team has developed an informative handout with more details and information.

A handout with additional information about the right of way process is available at this meeting.

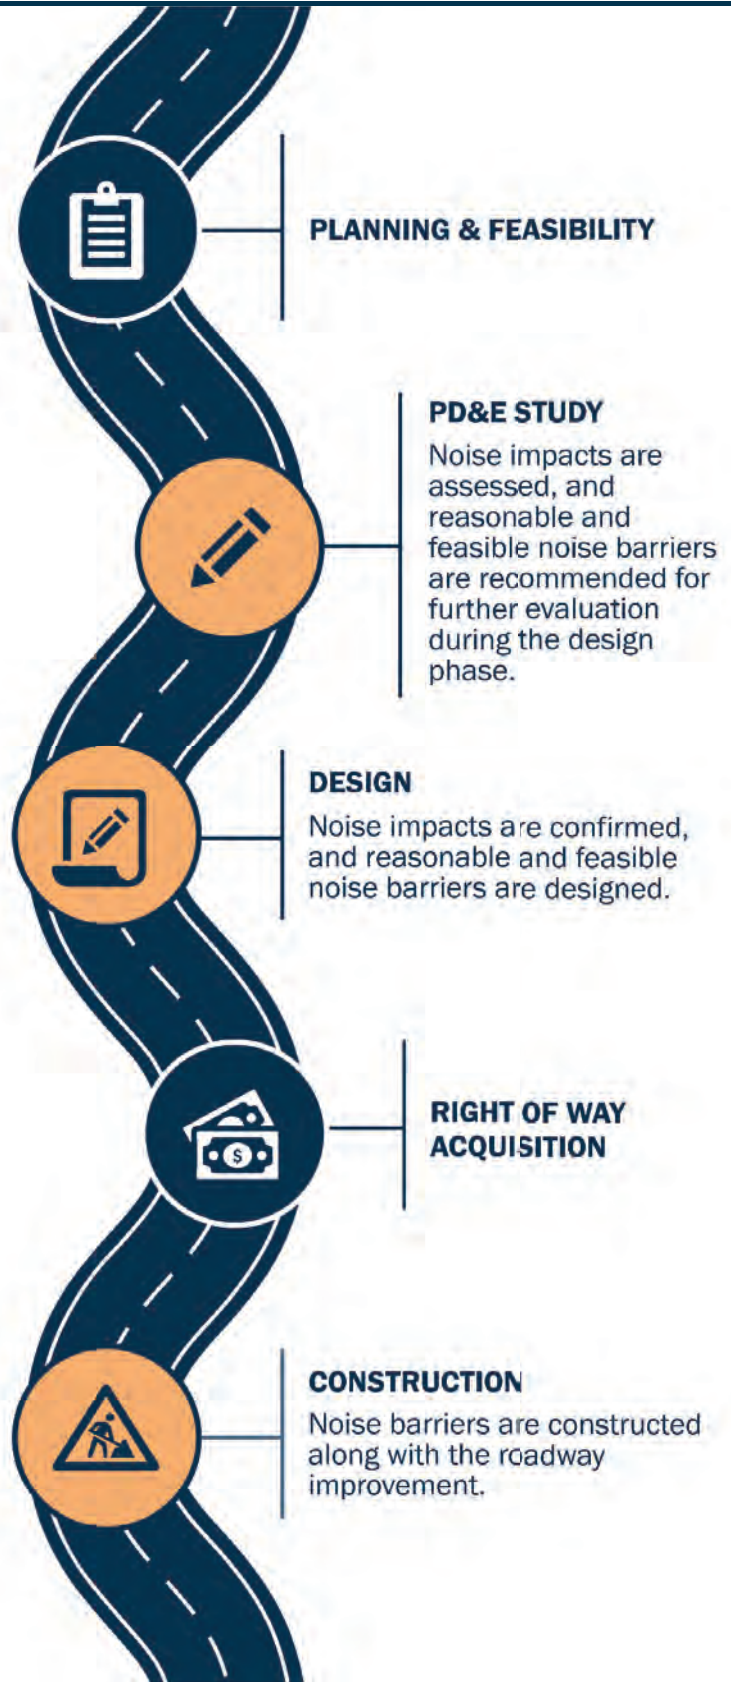

WHERE IN THE PROCESS TRAFFIC NOISE

This corridor is currently in the Planning and Feasibility phase.

Once a project has been prioritized and funded to move to the next phase, the Project Development and Environment (PD&E) study, the Department will determine traffic noise impacts and potential locations that qualify for further consideration of noise abatement measures, including traffic noise barrier walls.

Traffic noise abatement is further evaluated during the Design phase, in accordance with federal and state requirements. For areas that meet feasibility and reasonableness criteria, traffic noise barrier walls are included in the project's design plans and constructed with the roadway improvement project.

A handout detailing the Traffic Noise Evaluation Process is available at this meeting.

NOISE BARRIERS

WHO GETS A NOISE BARRIER?

- When traffic noise impacts are identified during a noise analysis for an FDOT construction project that substantially changes the existing conditions of the typical section (horizontal or vertical alignment, profile, number of lanes, etc.), a noise barrier for that area must be considered.
- Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) require noise barriers to be *feasible and reasonable*.

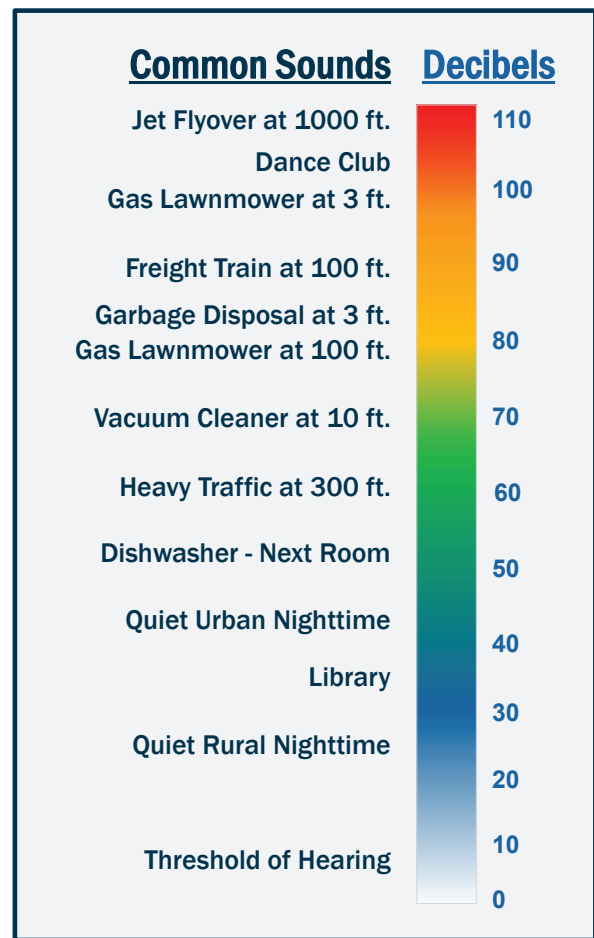

Feasible

- Can be designed and built using standard construction methods and techniques with consideration of safety factors, access, right of way, maintenance, drainage and utilities

Reasonable

- Reduces traffic noise by at least 5 dB at two or more impacted sites and by 7 dB at one site
- Cost to build the noise barrier averages \$42,000 or less per benefited receptor
- Consider the viewpoints of the benefited site owners and residents

Even if previous project(s) determined noise barriers are not feasible and reasonable, they may be feasible and reasonable in the future with the proposed improvements and noise analysis from future studies.

Common Sound Levels

ABOUT THE PROGRAM

WHAT IS A MASTER PLAN?

A Master Plan is a document that summarizes a community's vision for future transportation and provides a set of recommended improvements to enhance safety and mobility.

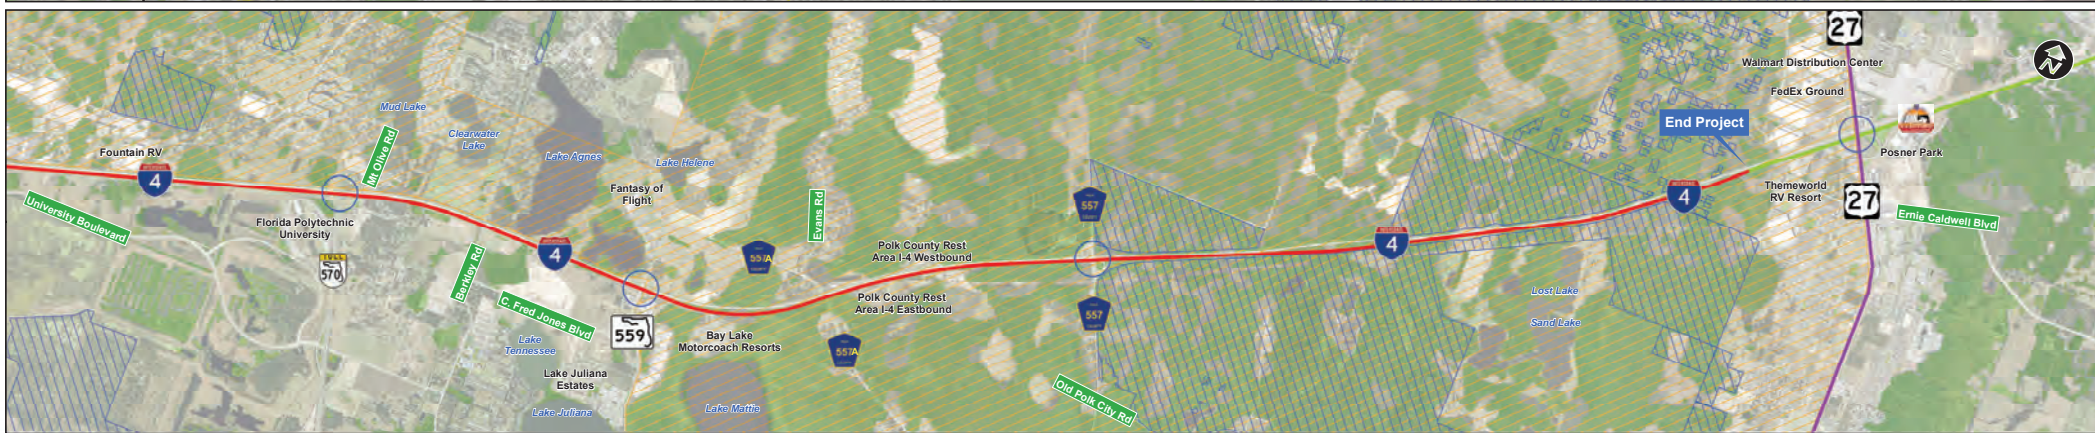

Development of a Master Plan involves data collection, public outreach, analysis of current and future transportation needs, and the identification and evaluation of potential projects to address those needs.

During the Planning and Feasibility phase, an analysis of the interstate system's existing and future transportation challenges is conducted, and the findings of the analysis and recommendations to enhance safety and mobility are documented in a Master Plan.

The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges.

The Master Plan will also include public outreach, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process.

This long-range approach provides a regional perspective to identify the areas where future demand is predicted and assists in defining subsequent Project Development and Environment (PD&E) Study limits for the project(s). This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

I-4 CORRIDOR MASTER PLAN

CORRIDOR LIMITS: I-4 from west of SR 570 (Polk Parkway) to west of US 27

ABOUT THE PROJECT

PROJECT DESCRIPTION

Southwest Connect I-4 Corridor is a project that will evaluate the current and future needs that improve safety, operational capacity, functionality, efficiency and connectivity along and across the corridor. The project limits are from west of Polk Parkway (State Road 570) to west of US 27 in Polk County.

Managed lanes, collector-distributor roadways, auxiliary lanes, or interchange operational improvements are being considered.

PURPOSE AND NEED

The purpose of this project is to address the existing operational deficiencies of I-4 within Polk County and to accommodate future travel demand projections as a result of forecasted population and employment growth. Other goals of the project are to

- 1) preserve the operational integrity and regional functionality of I-4 (and, therefore, the regional transportation network)
- 2) Enhance emergency evacuation and response times

Just want to comment to reinforce the need to fix the interchange at I4 and Hwy 559. The traffic backs up to the beginning of the ramp daily.

Is a response to your comment/question requested?

No response necessary. Please add my comment to the record.

I cannot believe FDOT is spending all of this money to expand I-4 when we don't even have basic train service. Dumb idea.

Is a response to your comment/question requested?

No response necessary. Please add my comment to the record.

Very excited to see the addition of express lanes and auxiliary lanes throughout this control corridor – really hope we can get moving on these projects sooner than later, the traffic along I-4 is internationally, known to be horrible – and there's so much we could do to fix that. Getting the train up and running will alleviate a large amount of traffic, but I would love it to be just like I-95 in some of the parts of the East coast that is so easy to drive, it's a beautiful, beautiful drive, and one that's actually enjoyable.

The best advice at this point... Even with the addition of this project, interstate four will require a secondary totally separate, fully tolled expressway similar to the Florida Turnpike that runs north south, but going east west. Ideally three of these should exist one in the north one around four, and another in the area of State Route 60.

Is a response to your comment/question requested?

Yes, please have a representative contact me with a response.

This looks like an excellent project and is very needed in the area. As a Polk City resident, the express lanes are certainly needed, although it would be nice to see improvements to the free general use lanes for the open public as well, like a 4 GU lane and 2 EL lanes in each direction, not including the auxiliary lanes. One other comment I did have is that I hope the department sticks with the concrete barrier and shoulder on the express lanes like on the Ultimate project up in Orlando, as it looks much nicer and of higher quality than those narrow, cone-separated barriers down in Miami. One question I do have for this program is whether alternative corridors are also being considered rather than just the I-4 corridor (like extending Polk Parkway west to I-75 or a new corridor to the north of where I-4 currently lies).

Is a response to your comment/question requested?

Yes, please have a representative contact me with a response.

Public Outreach Meeting – Lake Crago Recreational Center

DATE: February 15, 2024 5:00 P.M. to 7:00 P.M.

COMMENTS (Please Print)

MOVING FORWARD TOGETHER

Please give more consideration to dedicated lanes/ROW for public transportation options. The multi-modal envelope along I-4 could be used to prepare for a rail option in the future by planning for infrastructure needs with this program. Coordinate land-use, parcel needs and station identification early. Potentially put a rubber-tire option in service first. Could be operated by a private entity.

How can we help you today?

I would like to submit a comment for this project.

Please enter your comment below.

The distance from the SR-559 exit for an entrance or ingress into the express lanes is past the SR-33 exit. Also, you would have to exit the express lanes coming from the west to the east before the SR-33 exit leaving 6 miles to travel to the SR-559 exit.

We would like to see ingress/egress options closer to the SR-559 exit when traveling to or from the west. Preferably between SR-559 and the Polk Parkway.

Is a response to your comment/question requested?

Yes, please have a representative contact me with a response.

H. WILLIAM MUTZ
MAYOR

February 26, 2024

Mr. Joshua Jester, EI
Interstate Project Manager
Florida Department of Transportation, District One
801 N. Broadway Avenue
Bartow, Florida 33830

**SUBJECT: SOUTHWEST CONNECT - I-4 CORRIDOR MASTER PLAN:
CITY OF LAKELAND COMMENTS**

Dear Mr. Jester:

Thank you for providing the public and stakeholders with an opportunity to comment on the on-going analyses conducted as part of the Southwest Connect I-4 Master Plan. As requested during the Virtual Public Outreach Meeting period between February 13, 2024 through February 29, 2024, the City of Lakeland offers the following comments:

1. The analysis to date is highway based and does not address short- and long-term multi-modal mobility needs throughout the Interstate 4 corridor in Polk County and the greater Central Florida Region. Given our increased population, business activity and visitor growth, it is critical that the Master Plan look beyond just the evaluation of express and auxiliary lanes on the Interstate. A wholistic evaluation of long-term mobility needs, including a cost-effectiveness comparison of intercity bus and/or rail improvements within or parallel to the Interstate 4 corridor, is needed in cooperation with the Florida Rail Enterprise as included in § 341.302(1)(b)3 *Florida Statutes*.
2. In cooperation with potential private operators of high-speed rail service within Interstate 4 right-of-way, the Florida Department of Transportation (FDOT) should help identify potential station locations that would require the completion of a new or reevaluation of a previously completed Environmental Impact Statement and complete same in advance of rail design to **a.)** streamline the station selection process while ensuring constructability of initial and ultimate sites, **b.)** establish conceptual station layout and infrastructure access needs, and **c.)** assist stakeholders in multi-modal and land use planning efforts around potential station areas. This information will also have implications on the alternatives that will be considered in subsequent Project Development and Environment (PD&E) Study and Design phases of specific Interstate 4 segments.
3. In the Lakeland area, the most immediate stated Year of Need for Interstate 4 mainline improvements range from 2021 near the Hillsborough County Line to 2030 near the SR 33/Lakeland Hills Boulevard/Socrum Loop Road interchange at Exit 33. The current congestion that is experienced in this corridor will become even more acute during the construction of any express and auxiliary lanes within Interstate right-of-way, which will take multiple years to complete. Given the scale and duration of the recommended

Interstate construction, it is imperative for FDOT to include intercity bus and/or rail transit options in the maintenance of traffic plans that are developed, similar to the consideration requested in Polk Transportation Organization Resolution 2023-11 in relation to the SunRail Extension and upcoming Moving Florida Forward improvements on the adjoining section of Interstate 4, east of US 27.

4. To address existing deficiencies noted at the SR 33/Lakeland Hills Boulevard/Socrum Loop Road interchange (Exit 33) and the expected 2034 Year of Need for the US 98 interchange (Exit 32), please evaluate the effectiveness of the parallel Lakeland Park Center Drive Extension (Phase III) that is currently an unfunded need by the City of Lakeland to complete this collector road corridor adjacent to Interstate 4 between US 98 and North Socrum Loop Road. Likewise, we ask that FDOT evaluate the effectiveness of the Tradeport Boulevard corridor to address long-term travel demand impacting Exit 33 and the Interstate 4 segment between Exits 33 and 38. If either project is expected to eliminate or defer the need for mainline or interchange improvements, the City asks that they be eligible to receive Federal funding or any regional transportation dollars administered by FDOT to relieve the Interstate 4 corridor.

Thank you in advance for your serious consideration of these comments. If you have any questions or need any additional information, please contact Chuck Barmby at (863) 834-6011.

Sincerely,

H. William Mutz

PROJECT DESCRIPTION

- The project limits are from west of Polk Parkway (State Road 570) to west of US 27 in Polk County.

PURPOSE AND NEED

The purpose of this project is to address the existing operational deficiencies of I-4 within Polk County and to accommodate future travel demand as a result of forecasted population and employment growth. Other goals of the project are to

- Preserve the operational integrity and regional functionality of I-4 (and, therefore, the regional transportation network)
- Enhance emergency evacuation and response times.

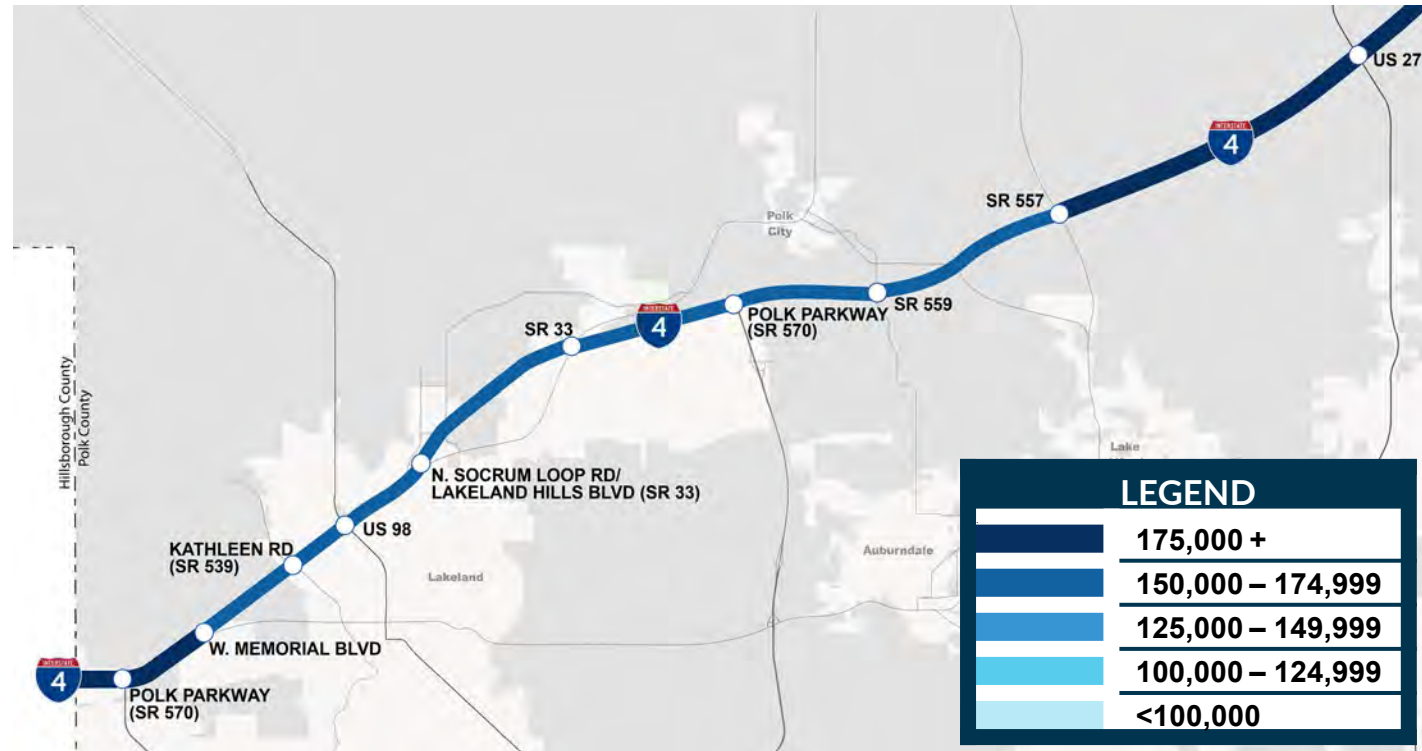

I-4 Master Plan

PHASE 1 – FEASIBILITY

- Developed existing and future (2045 Design Year) traffic volumes
- Analyzed existing and future *No-Build* and *Build* levels of service (LOS)
- Explored I-4 widening alternatives including general purpose and managed lanes
- Developed a *year of need* for the I-4 corridor segments

2045

AVERAGE DAILY TRAFFIC

I-4 Master Plan

PUBLIC OUTREACH MEETING

- Virtual meeting open September 27, 2021 through October 8, 2021
- In-person open house on September 28, 2021 at Lake Crago Recreational Center in Lakeland

The Florida Department of Transportation (FDOT) District One, is hosting a **PUBLIC OUTREACH MEETING INTERSTATE 4 (I-4) CORRIDOR MASTER PLAN**

CORRIDOR LIMITS: I-4 from west of Polk Parkway (SR 570) to west of US 27
 FPID No.: 442512-1 | Polk County, Florida

IN-PERSON EVENT

TUESDAY, **SEPTEMBER 28** 2021 | FROM 5:00 P.M. TO 7:00 P.M.

LAKE CRAGO RECREATIONAL CENTER
 525 Lake Crago Dr.
 Lakeland, FL 33805

For those unable to attend during the meeting period, presentation materials will be made available to view on the project website.

ATTEND MEETING VIRTUALLY

AVAILABLE TO VIEW ONLINE:
SEPTEMBER 27 2021 THRU **OCTOBER 08** 2021

SPECIAL ONLINE EVENT

Submit questions to project team members during a **LIVE Q&A** MONDAY, **SEPTEMBER 27**, 2021 5:00 P.M. to 6:30 P.M.

REGISTER NOW!
www.swflinterstates.com/i4-corridor-vpm
 Recording of event to be made available on website upon conclusion.

I-4 Master Plan – Phase 2

Next Steps

Facility Enhancement Report (Long Term Strategy)

- Establish future I-4 mainline improvements
- Integration with the Tampa Bay Next (D7) and I-4 BtU (D5) projects

Facility Operation and Preservation Report (Interim Strategy)

- Identifies improvements by year needed to preserve interstate operations
- Focuses on interchange and safety improvements

I-4 Master Plan – Phase 2

Next Steps

I-4 Master Plan

- Summary of supporting documents
- Defines project segmentation and phasing
- Includes public and agency engagement

I-4 Implementation Plan

- List of projects with years of need
- Complete guide to implement the Master Plan

TECH IS NICE, BUT ALWAYS LOOK TWICE

Regardless of the technology in a vehicle, you are responsible for the control, speed, direction, and behavior of its operation. Never place unnecessary trust in the activation of sensors, warnings, or automatic controls. These are only in place to help confirm our decisions and protect us from distraction.

Stay in the Moment.

I-4 Master Plan : Project Location

PROJECT DESCRIPTION

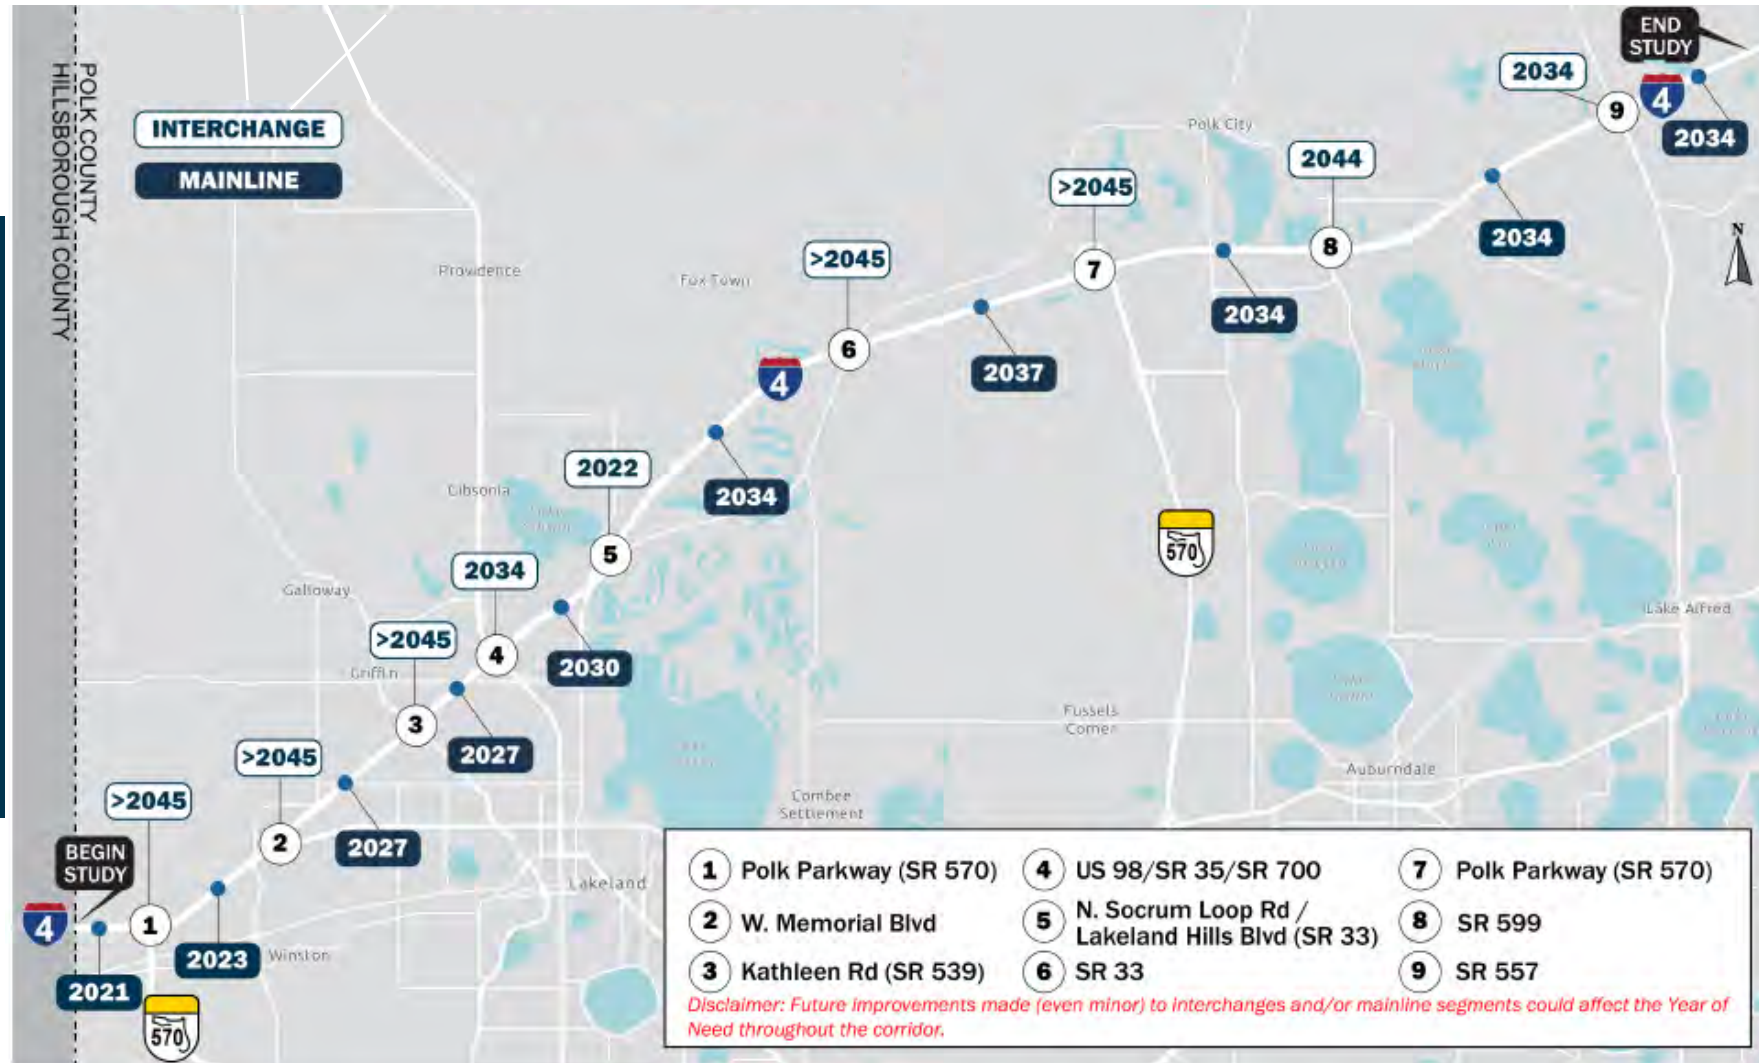

- The project limits are from west of Polk Parkway (State Road 570) to west of US 27 in Polk County.

MASTER PLAN PURPOSE

- Document the existing corridors
- Determine mainline segment and interchange years of need
- Identify locations where improvements can be deferred via minor improvements
- Evaluate alternatives
- Define corridor segmentation
- Public and agency engagement

Year Of Need

Note: D1 Target LOS – LOS D

2045 Express Lanes (with auxiliary lanes) Level of Service (AM/PM)

Auxiliary lanes:

Eastbound

- Polk Parkway (SR 570) to W. Memorial Boulevard
- Kathleen Road to US 98

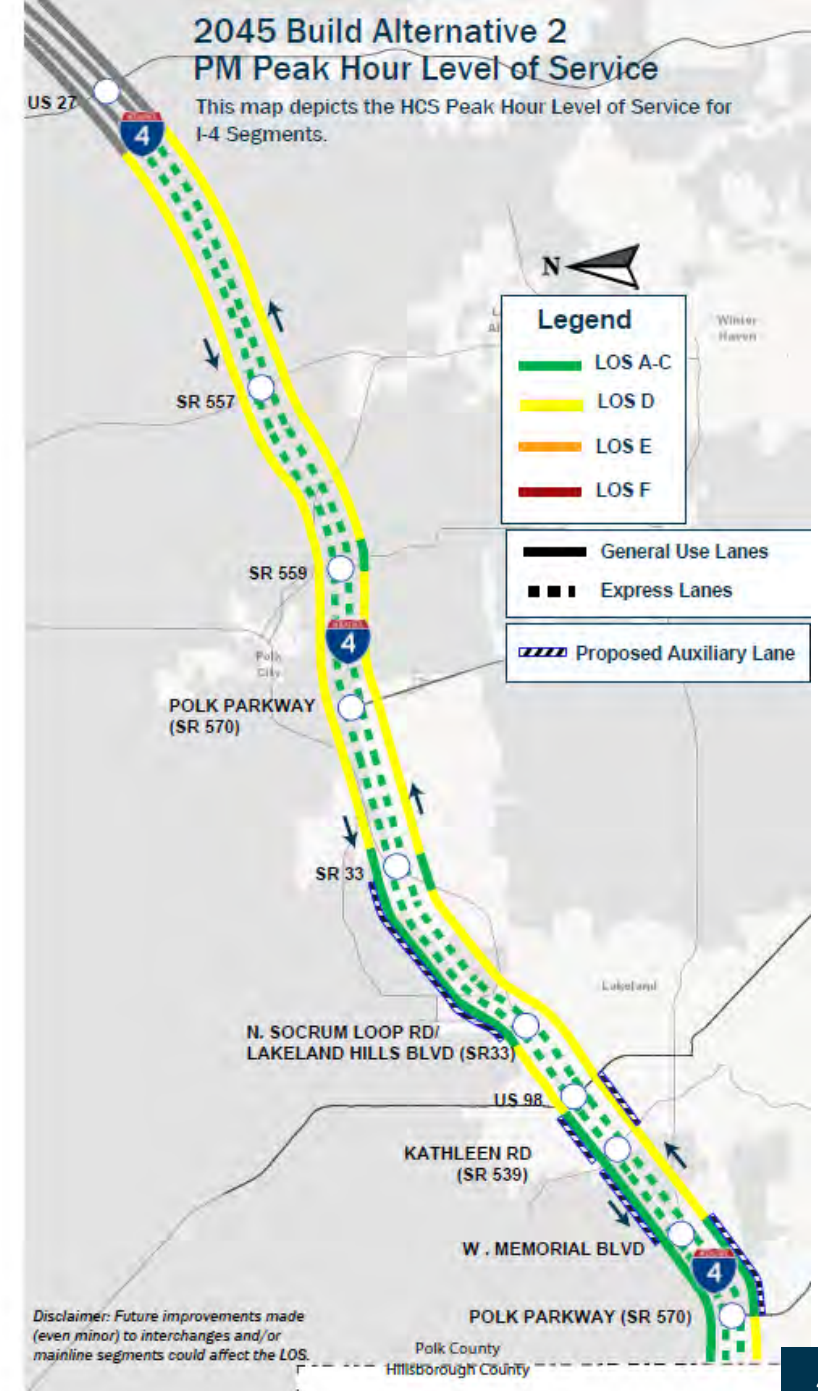

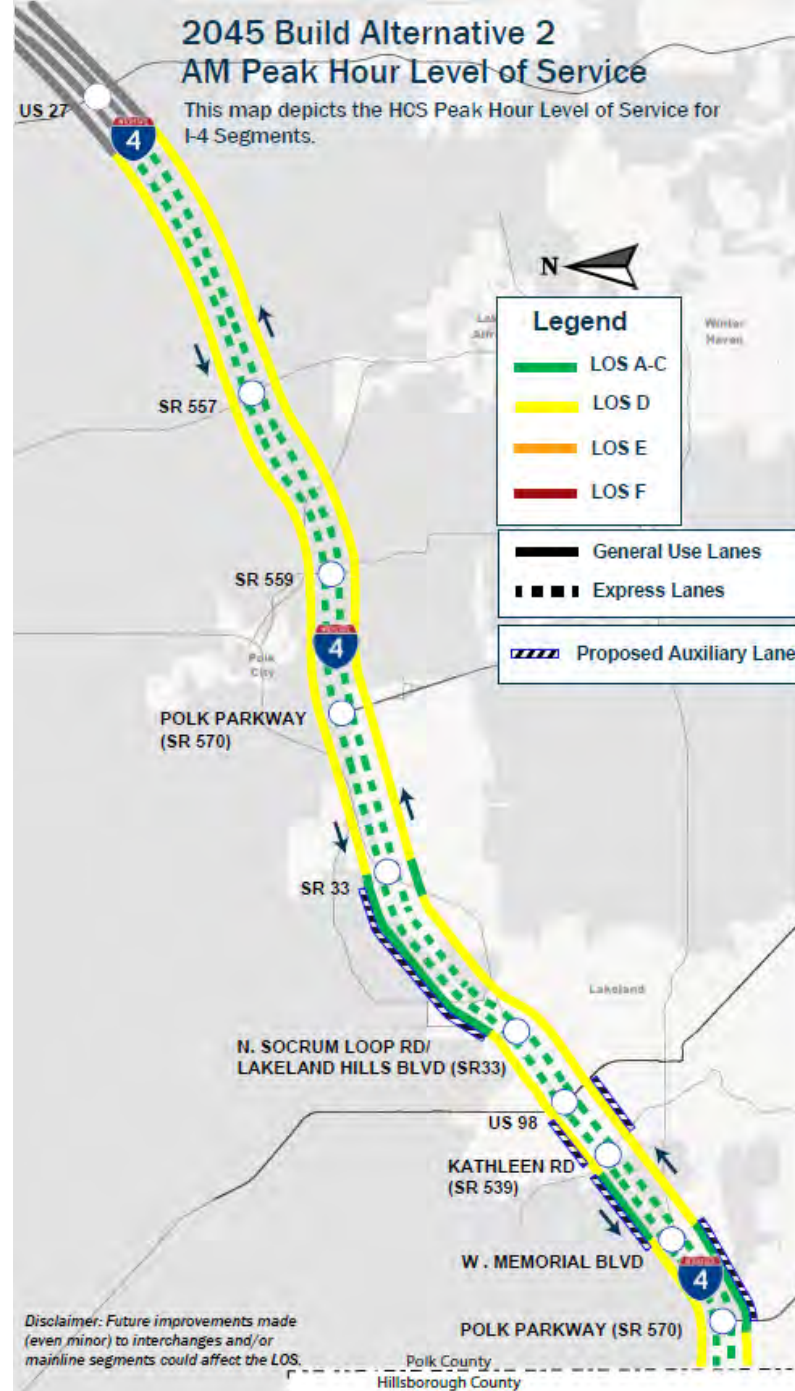

Westbound

- SR 33 to N. Socrum Loop Road/Lakeland Hills Blvd
- US 98 to Kathleen Road
- Kathleen Road to W. Memorial Boulevard

Express Lane Through Trips

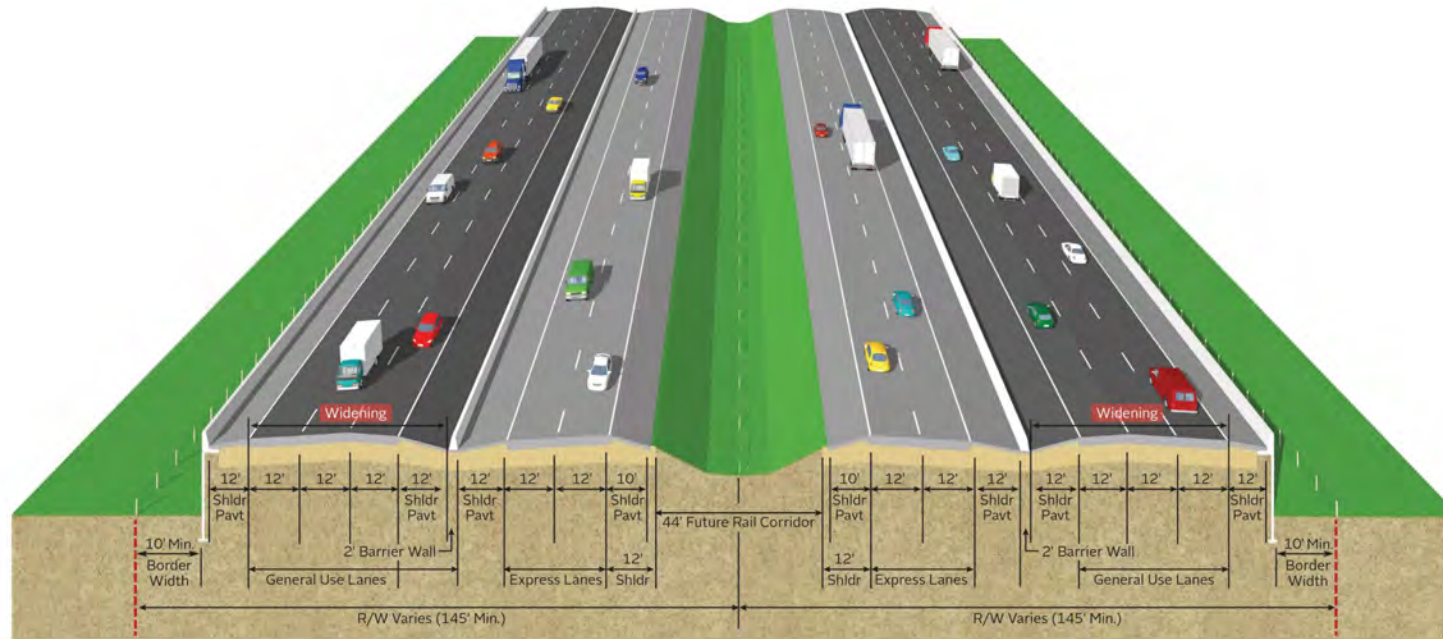

- EB – 29%
- WB – 36%

Note: D1 Target LOS – LOS D

I-4 Master Plan – Mainline Strategy Recommendation

Improvements to traffic operations, safety, regional travel time reliability, user options, and systemwide continuity and redundancy combine to make Express Lanes the recommended mainline strategy.

PROPOSED TYPICAL SECTION
FOUR (4) EXPRESS LANES + SIX (6) GENERAL USE LANES (BARRIER SEPARATED)

Note: Recommended Alternative includes auxiliary lanes at locations identified on earlier slide.

I-4 Master Plan – Advantages of Express Lanes (ELs)

I-4 Master Plan – Advantages of Express Lanes (ELs)

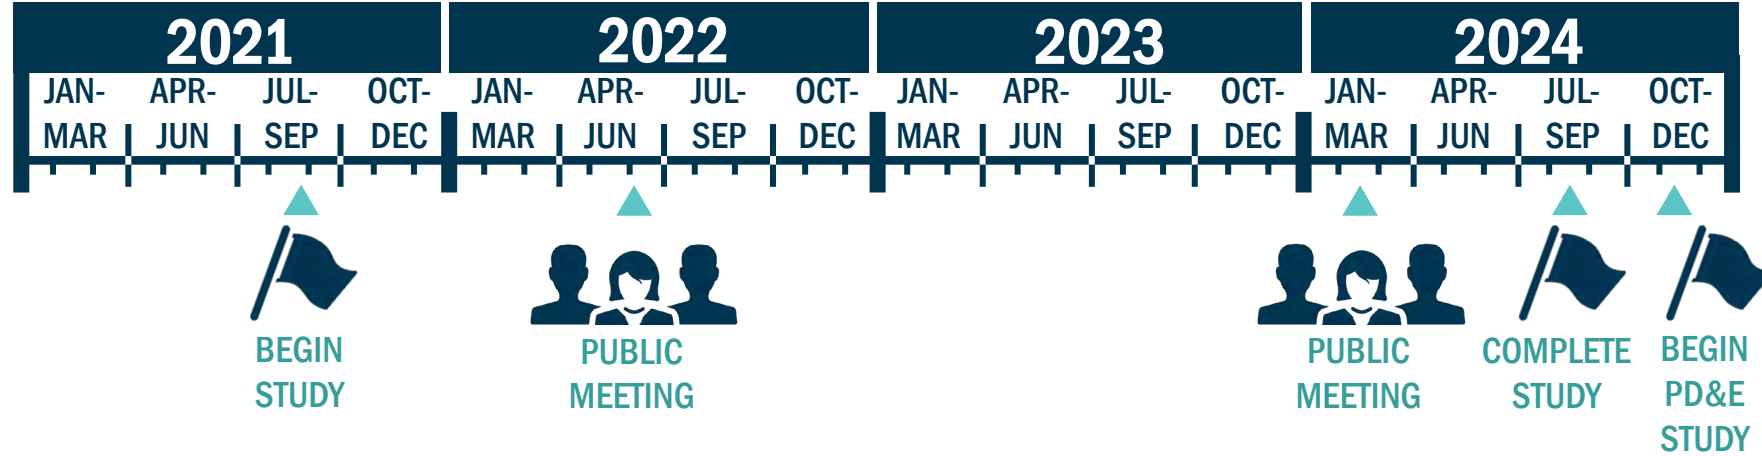

INTERCHANGE PROJECTS PROPOSED

Project Name	Year of Need	Improvement Type
US 98 Interchange	2034	TBD
Socrum Loop Rd./Lakeland Hills Blvd. Interchange	2022	TBD
SR 559 Interchange	2022	Signalize Ramp Terminals

MAINLINE PROJECTS PROPOSED

Project Name	Length (miles)	Year of Need
W. Of SR 570/Polk Parkway (West) to E. of US 98	7.0	2023
E. of US 98. to W. Of SR 570/Polk Parkway (East)	7.5	2030

442512-1 Southwest Connect I-4 Corridor Master Plan

Website for Entire Project: <https://www.swflinterstates.com/i4-corridor/>

About

The Southwest Connect™ I-4 Corridor is 27.6 miles in length and is located in Polk County. I-4 supports vital commerce and tourism of the state as it connects employment and population centers, including Tampa, Lakeland, Orlando, and Daytona Beach, within central Florida. It is one of the only east-west limited access facilities in the central portion of the state along with Florida's Turnpike. I-4 is a designated state hurricane evacuation route and part of Florida's Strategic Intermodal System (SIS) highway network. The functional classification of I-4 within the project limits is Urban Principal Arterial – Interstate.

This segment of I-4 consists of a six-lane divided typical sections. Existing right of way along the corridor ranges from approximately 300 feet to 450 feet in width.

The Department is conducting a **Planning and Feasibility Study** from west of SR 570 (Polk Parkway) to west of US 27 in Polk County that makes up and will evaluate the future needs of the Southwest Connect™ I-4 Corridor in District One. This study will evaluate strategies for the mainline and interchanges, including managed lanes, that will improve accessibility, mobility, and safety. Results of this study will be documented in this corridor's **Master Plan**.

The Planning and Feasibility study will analyze the existing and expected traffic, or demand, on the interstate system and document the findings in a Master Plan. The Plan will allow FDOT to focus future efforts and funding by prioritizing the most critical areas. This long-range approach provides a regional perspective to identify the areas where future demand is predicted and to assist in defining the Project Development and Environment (PD&E) Study limits within the I-4 corridor. Improvements identified in this Master Plan may include widening, managed lanes, modifying interchanges, and evaluating requests for new interchanges.

I-4 Corridor Limits: Interstate 4 from west of SR 570 (Polk Parkway) to west of U.S. 27

Please visit the project website at www.swflinterstates.com/i4-corridor/.

Public Involvement

For convenience, FDOT is providing multiple ways to participate: at an In-Person Open House and online at the project website: www.SWFLinterstates.com/i4-corridor-VPM

The In-Person Open House will occur Thursday, February 15, 2024, from 5 – 7 p.m. at the Lake Crago Recreation Center, 525 Lake Crago Dr., Lakeland, FL 33805.

The meeting materials will also be available for viewing and comment online at www.SWFLinterstates.com/i4-corridor-VPM from Tuesday, February 13 through Thursday, February 29. The online public outreach meeting materials include a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open-house meeting will provide the same materials and information as the online meeting materials.

In addition, FDOT is hosting a LIVE Question and Answer (Q&A) Event ONLINE beginning at 5 p.m. on Tuesday, February 13, 2024. To register for the virtual Q&A event, please go to www.SWFLinterstates.com/i4-corridor-VPM.

To send a comment or ask a question about this project, visit www.swflinterstates.com/get-connected/.

ABOUT SOUTHWEST CONNECT™

Southwest Connect™ is a Florida Department of Transportation (FDOT) District One program that will lead to construction of transportation solutions that address the long-term needs of the interstate corridors in Southwest Florida. This effort will allow District One to analyze and put in place integrated and comprehensive transportation solutions, that meet the needs of the near term and accommodate the evolving and innovative transportation solutions of tomorrow.

Southwest Florida is one of the fastest growing areas of the country. This type of population growth requires investments in transportation infrastructure to support the demand for new services, new industries, new businesses, and most importantly new jobs.

The Southwest Connect™ program includes multiple interstate studies that will result in multiple projects focused on improving mobility and providing transportation options to support the region's economic development. Each project within the program is expected to move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

The Southwest Connect Interstate Program includes:

- Interstate improvements that optimize long-term capacity needs, long-term mobility needs, travel reliability and travel options for drivers
- Accessibility improvements that consider deficiencies and needs of existing interchanges as well as the potential for new interchanges where applicable to promote system connectivity and local traffic operations
- Inclusion of complete streets design principles on the adjacent impacted arterials of individual projects to complement local visions for enhanced livability while fostering future economic growth
- Multimodal accommodations that enhance access, efficiency and safety while promoting economic opportunities

INTERSTATE PROGRAM CORRIDORS

Program Limits: Interstate 75 (I-75) from Collier Boulevard (SR 955) to Moccasin Willow Road and Interstate 4 (I-4) from west of SR 570 (Polk Parkway) to west of US 27

The Southwest Connect™ Interstate Program consists of multiple projects within four corridors along I-75 and I-4 in District One. Learn more about these projects by clicking on its corridor below.

 Interstate 75 (I-75) SOUTH CORRIDOR	 Interstate 75 (I-75) CENTRAL CORRIDOR	 Interstate 75 (I-75) NORTH CORRIDOR	 Interstate 4 (I-4) CORRIDOR
Counties: Collier & Lee	Counties: Charlotte & Sarasota	Counties: Sarasota & Manatee	County: Polk

WHY IS FDOT STUDYING THESE CORRIDORS?

FDOT wants to be proactive in planning for a safe and efficient corridor.

- Interstate 4 and Interstate 75 has experienced an increase in traffic driven by many factors including population growth, development, additional tourism and special events.
- These traffic increases have led to a number of safety and transportation issues.
- Each corridor's Master Plan will document current and future needs along the interstate and provide a set of recommended priorities for implementation.

NAVIGATING THE ROAD AHEAD.

Depending on transportation priorities, available funding, and complexities of the needed improvements, a project's progression from planning to construction may take up to 10 years. FDOT follows federal and state requirements throughout project development and works closely with governmental agencies, partners and the local community to identify improvement priorities and move them through the production pipeline. Planning and Feasibility, Project Development and Environment Study, Design, Right of Way Acquisition and Construction are sequential phases of production for projects.

THE PROJECT DEVELOPMENT PROCESS

- 1 **Planning and Feasibility**
Determine the need for roadway improvements based on future land uses and projected traffic volumes.
- 2 **Project Development and Environment Study**
The location and conceptual design of road improvements are identified and environmental and social impacts are assessed.
- 3 **Design**
Design plans are prepared.
- 4 **Right of Way Acquisition**
Additional land needed for improvements is purchased, if needed.
- 5 **Construction**
Build recommended improvements.

WHY IS FDOT STUDYING THESE CORRIDORS?

FDOT wants to be proactive in planning for a safe and efficient corridor.

- Interstate 4 and Interstate 75 has experienced an increase in traffic driven by many factors including population growth, development, additional tourism and special events.
- These traffic increases have led to a number of safety and transportation issues.
- The Master Plan will document current and future needs along the interstate and provide a set of recommended priorities for implementation.

HOW CAN I PARTICIPATE?

- FDOT is planning extensive public outreach, and will be announcing our meetings through mailouts, news outlets, by emails and various other media. In order to develop the best plan, we [need your input](#). We will provide multiple avenues for ongoing public engagement to ensure the plan incorporates the needs and concerns of local communities and provides appropriate recommendations.
- FDOT will work with local communities and public officials to get ideas on how the public involvement effort will proceed and to understand corridor needs based on input from the communities.
- Public participation in this program is encouraged. Please visit this website often for the most up-to-date project information and to view a list of upcoming events. Use one of our convenient and user-friendly contact forms to [sign up](#) for periodic email updates or to [submit a comment](#).
- Given the diverse nature of the corridor, effective communication and engagement will be conducted throughout the study effort.

TALK. LISTEN. ENGAGE. INFORM.

GET INVOLVED

The Florida Department of Transportation and its Southwest Connect program team are committed to engaging the public and project stakeholders throughout the duration of the program from the initial Planning and Project Development phases through the Design and Construction phases.

During the initial phases, outreach efforts will be focused on educating the public on the purpose and need of each project within the program, as well as providing information on how those interested can get and stay involved throughout the process. As the individual projects progress, opportunities will be identified and input encouraged prior to key decision-making milestones.

Opportunities will be provided to allow project stakeholders to provide additional input on the Recommended Alternatives prior to progressing to the Design and Construction phases.
