## Bradenton-Palmetto Connector PD&E Study

U.S. 301/ U.S. 41 from State Road (S.R.) 70 and south of I-275

Manatee County, FL

The purpose of this Public Involvement Plan (PIP) is to assist in providing information to and obtaining input from concerned citizens, agencies, private groups (residential/business), and governmental entities. The overall goal of this plan is to help ensure that the study reflects the values and needs of the communities it is designed to benefit.

This plan is in compliance with the Florida Department of Transportation's *Project Development and Environment (PD&E) Manual, Part 1, Chapter 11*.

### I. Description of Proposed Improvements

Financial Project ID: 444843-1-22-01

Federal Aid Project Number: D120-060-B

Efficient Transportation  
Decision Making (ETDM)  
Number: 14507

**Project Limits:** The project study area is defined by S.R. 70/53<sup>rd</sup> Avenue East to the south, Palm View Road to the north, U.S. 41/U.S. 301 to the west, 38<sup>th</sup> Avenue (Palmetto)/27<sup>th</sup> Street East to the east. It includes one crossing of the Manatee River that connect the Cities of Bradenton and Palmetto and facilitate north-south travel. The river crossing includes:

- U.S. 41 (S.R. 55)/U.S. 301 (S.R. 683)/Hernando de Soto Bridge (hereafter referred to as DeSoto Bridge) [Structure 130053]

Project study area shown in **Figure 1**.

**Proposed Activity:** The purpose and need of the study is to evaluate alternatives to address improving regional mobility, and to accommodate transportation demand, and safety for all users, including motorists, bicyclists, pedestrians, freight, and transit across the Manatee River as part of the regional transportation system in western Manatee County, Florida.

Alternatives to be evaluated shall include;

Corridor A begins at the S.R. 70 (53<sup>rd</sup> Avenue East)/U.S. 301 intersection, follows U.S. 41, and ends between 33<sup>rd</sup> Street West and the U.S. 19/U.S. 41 split. The corridor is approximately eight miles long and crosses the existing DeSoto Bridge.

Corridor B begins at the S.R. 70 (53rd Avenue East)/U.S. 301 intersection at the south and follows U.S. 301 and 9th Street East. It includes a new bridge crossing over the Manatee River, continues along 16th Avenue East, and ends at U.S. 41 along a new alignment.

Corridor D begins at the S.R. 70 (53rd Avenue East)/U.S. 301 intersection, follows U.S. 301 and continues along 27th Street East until crossing the Manatee River via a new bridge. It follows 36th Avenue East, connects to a new roadway, and continues to 39th Street, which connects back to the U.S.19/U.S. 41 split.

Tentative Class of Action: To be determined.

## II. Project Background

The need for improved access across the Manatee River was identified as part of the Central Manatee Network Alternatives Analysis (CMNAA) Study, which concluded in 2019. It was a collaboration between FDOT, Manatee County, the Cities of Bradenton and Palmetto, and the Sarasota/Manatee Metropolitan Planning Organization (MPO).

This analysis led to the initiation of the Bradenton-Palmetto Connector Alternative Corridor Evaluation (ACE) Study. The original six corridors were developed in 2017 as part of the CMNAA study. Later, four additional corridors were introduced, two to the west and two to the east of the initial six, expanding the study to a total of ten corridors.

During the ACE Study three corridors were identified for further evaluation through a Project Development and Environment (PD&E) Study. Corridors A, B Modified and D Modified. (During the PD&E study these corridors are referred to as Corridors A, B, and D) as shown in **Figure 1**.

## III. Project Goals

The following goals and objectives have been identified for this study:

- Seek agency input on the project Purpose and Need and potential project impacts/effects (both positive and negative) to social and economic, cultural, natural, and physical resources.
- Add capacity and accommodate transportation demand across the Manatee River, specifically improving connectivity between the Cities of Bradenton, FL and Palmetto, FL and various communities in western Manatee County.

The following techniques can be used to notify the public of the proposed transportation improvement and to solicit public input into the project development process.

Various notification techniques will be used throughout the project development process. A brief description of these techniques is provided below.

**Letters/Newsletters:** Invitational and informational letters and newsletters will be distributed to elected and appointed officials, property owners/tenants, business owners/operators, and interested parties as necessary. It is anticipated that two newsletters will be distributed for this study: in advance of the public workshop, and in advance of the public hearing. Notices may be hand delivered to residences and businesses located directly along the project corridor as deemed necessary by FDOT. Elected Officials and Appointed officials will receive notification via email from an FDOT designee.

**News/Press Releases:** News/press releases will be submitted to the media by the District's Public Information Office (PIO) seven days prior to each public workshop and the public hearing. A press release will also be distributed to announce Federal LDCA at the end of the study.

**Public Notices/  
Newspaper Display Ads:**

Public advertisement will consist of a newspaper advertisement published in the area newspaper with the largest circulation, the Bradenton Herald, twice prior to the public hearing, and once announcing Federal LDCA at the end of the study. Notices will also be published in the Florida Administrative Register and FDOT Public Workshop Notices Website at least seven days prior to each workshop/hearing.

**Public Announcements:**

To distribute PD&E study information, fliers will be made available to organizations such as neighborhood and civic groups, FDOT and Manatee County, to publish in existing newsletters and websites. Any such correspondence will be coordinated through the District's PIO.

**Direct Mail List  
For Notifications:**

The following will be contacted by direct mail to obtain input throughout the project development process and/or to provide project information:

- Those whose property lies, in whole or part, within at least 350 feet on either side of the centerline of each project alternative (Section 339.155 FS), as well as other local citizens who may be impacted by the construction of this project. This portion of the mailing list will be based on the County Property Appraiser's tax rolls. A map showing the parcels to receive these notifications and the initial property owners and tenants mailing list can be found in **Appendix D**.
- Appointed public officials or individuals who request to be placed on the mailing list for this project. (Elected officials will receive notification via email from the District Director of Transportation Development.)

**Public Hearing:** A formal public hearing, as required by Federal Regulations and State Law, will be held.

**Informal Meetings:** In addition to scheduled public workshops, there may be additional unscheduled meetings with the public, elected and appointed officials, public agencies, or civic groups. The purpose of these meetings will be to apprise the attendees of the project status, specific location and design concepts, and to receive input. The Department will be available with appropriate notice to attend meetings or make presentations.

**Project Website:** A project website will be developed to provide current project information to elected officials, agencies, and the public. The website will include the following pages:

## Housing Tenure - Manatee

# Data Sources

## ACS vs Census Data

(1) The 2010 and 2020 Census data is represented by a combination of decennial and ACS data. The 2010 decennial is combined with the 5-year ACS data for 2006-2010 and the 2020 decennial is combined with the 5-year ACS data for 2016-2020. The General Population Trends, Race and Ethnicity Trends, and Age Trends are entirely from the decennial. The Income Trends, Disability Trends, Educational Attainment Trends, and Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single-Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

## Area

(2) The geographic area of the community based on a user-defined community boundary or area of interest (AOI) boundary.

## Jurisdiction

(3) Jurisdiction(s) includes local government boundaries that intersect the user-defined community or AOI boundary.

## Goals, Values and History

(4) Information under the headings Goals and Values and History is entered manually by the user before the Sociocultural Data Report (SDR) is generated. This information is usually not available for communities with boundaries that are based on Census-defined places (i.e., not user-specified).

## Demographic Data

(5) Demographic data reported under the headings General Population Trends, Race and Ethnicity Trends, Age Trends, Income Trends, Educational Attainment Trends, Language Trends, and Housing Trends is from the U.S. Decennial Census for 1990 and 2000 and the American Community Survey (ACS) 5-year estimates for 2006-2010 and . The data was gathered at the block group level for user-defined communities, Census places, and AOIs, and at the county level for counties. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS). For more information about using demographic data, please see the training videos located here: <https://www.fdot.gov/environment/pubs/sce/sce1.shtm>.

## About the Census Data

(6) The block group analysis for project alternatives and AOIs do not always correspond precisely to block group boundaries. This report does not adjust the geographic area or data of affected block groups. It includes demographic summaries from any block group that overlaps the project alternative buffer or AOI boundary. Therefore, population that falls out of the SDR analysis area may be included in the results. Note that there may be areas where there is no population.

(7) Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: [https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS\\_keyfacts.pdf](https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS_keyfacts.pdf)) The U.S. Census Bureau provides help with this process: <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>

(8) Race and ethnicity are separate questions on the Census questionnaire. Individuals can report multiple race and ethnicity answers; therefore, numbers in the Race and Ethnicity portion of this report may add up to be greater than the total population. In addition, use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents could select one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <https://www.census.gov/library/publications/2001/dec/c2kbr01-01.html>)

(9) The "Minority" calculations use both the race and ethnicity responses from Census and ACS data. In this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities. We use the following formula:  $MINORITY = TOTALPOP - WHITE\_NH$  where TOTALPOP is the Total Population and WHITE\_NH is the population with a race of White alone and an ethnicity of Not Hispanic or Latino. Translating this to the field names used in the census ACS source data, the formula looks like this:  $MINORITY = B01003\_E001 - B03002\_E003$ . (Note, the WHITE\_NH population is not reported separately in this report.)

(10) Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2019-2023 ACS. Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(11) The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

(12) Income of households. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

(13) Income of families. In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

(14) Age trends. The median age for 1990 is not available.

## Land Use Data

(15) The Land Use information Indicates acreages and percentages for the generalized land use types used to group parcel-specific, existing land use assigned by the county property appraiser office according to the Florida Department of Revenue land use codes.
